Hyundai Motor India Limited Achieves Total Monthly Sales of 65,603 Units in January 2025

- Hyundai CRETA Electric propels brand CRETA to achieve its highest ever domestic monthly sales of 18,522 units in January 2025
- HMIL registers 10.5% YoY growth in exports, fortifying its position as a world-class manufacturing hub for Hyundai Motor Company
- The newly launched Hyundai CRETA Electric is set to be a game-changer, promising a paradigm shift in the electric SUV segment

Gurugram | February 01, 2025: Hyundai Motor India Limited (HMIL) recorded total monthly sales of 65,603 units in January 2025, comprising domestic sales of 54,003 units and export sales of 11,600 units.

Commenting on HMIL sales, Mr. Tarun Garg, Whole-time Director and Chief Operating Officer, Hyundai Motor India Limited said, “We have reinforced HMIL’s position as a world-class manufacturing hub registering a 10.5% YoY growth in exports in January on the back of stable demand for our products in the overseas markets. Domestically, our first indigenous electric SUV - the Hyundai CRETA Electric which was launched in Bharat Mobility Global Expo 2025 on 17th January 2025, has begun its innings on a strong note. It has helped propel brand CRETA to its highest ever domestic monthly sales of 18,522 units, in January 2025. Ushering in the electric revolution by developing a smart and efficient EV ecosystem to alleviate range-anxiety, HMIL is set to mainstream EVs in India and will continue to augment charging infrastructure across the country. We are confident that Hyundai CRETA Electric will set new benchmarks in the Indian EV industry, providing the much-needed push for the growth of the segment.”
