Commenting on the Company's results, Mr. Tarun Garg, Managing Director & Chief Executive Officer said, "Q2 FY27 was a milestone quarter for HMI, marked by record volumes and quarterly revenue exceeding ₹20,000 crore for the first time since our inception. However, elevated commodity costs weighed on the quarter's profitability.

Looking ahead, we see H2 as a period of accelerated momentum for us. Launch of Bayon marks the onset of our golden product cycle. We are also fully geared up for the launch of dedicated mass market EV in Q4 FY27. While macro-economic uncertainties and cost pressures persist, we remain focused on strengthening our leadership across key segments, delivering sustainable growth and profitability."
