PRESS RELEASE

AGI Greenpac Delivers Strong Q1 FY27: Revenue Grows 14% to ₹785 Crore, Net Profit Up 12% to ₹99 Crore

INDIA, July 28, 2026 — **AGI Greenpac Limited** (NSE: AGI; BSE: 500187), India's leading packaging products manufacturer and India's most profitable glass packaging company, today announced its financial results for the first quarter ended June 30, 2026. The company delivered robust top-line and bottom-line growth during Q1 FY27, backed by stable demand across key consumer sectors and disciplined operational execution. Revenue from operations for the quarter rose 14% year-on-year to ₹785 crore, while net profit grew 12% year-on-year to ₹99 crore. EBITDA excluding other income for the quarter stood at ₹175 crore, up 23% over the corresponding period last year, with EBITDA margins expanding to a healthy 22%.

Driven by rising domestic and international demand, AGI Greenpac continues to advance a structured capacity expansion strategy to strengthen its market leadership. Having already scaled its daily glass packaging capacity from 1,754 tonnes per day (TPD) to 2,100 TPD through facility debottlenecking as of March 2026, the company is now making progress on its upcoming Greenfield plant in Madhya Pradesh. This facility will unlock an additional 500 TPD over the next 7 to 8 months, lifting total daily capacity to 2,600 TPD, representing a cumulative growth of 48% over the 30 months ending March 2027 and significantly boosting supply capabilities across North India.

Concurrently, the company's strategic foray into the fast-growing aluminium beverage cans segment remains on schedule, with commercial operations targeted to launch by December 2027 to capture strong cross-segment packaging synergies across alcobev and food and beverage portfolios.

Commenting on the financial results and operational milestones, **Mr. Sandip Somany, Chairman and Managing Director, AGI Greenpac Limited**, said: *"Our Q1 FY27 performance reflects the inherent strength of our core business, driven by an improved product mix, enhanced operational efficiencies, and sustained demand across our alcobev, food & beverage, and specialty glass categories. While regional escalations in West Asia put pressure on energy and raw material costs during the quarter—temporarily weighing on margins—our team successfully cushioned the impact through proactive cost-optimization measures. We expect margin performance to strengthen in the coming quarters as input cost volatility eases and the compounding benefits of our efficiency programs take full effect."*

About AGI Greenpac Limited:

AGI Greenpac Limited is India's largest manufacturer of container glass and offers a comprehensive portfolio of PET bottles and products, along with anti-counterfeiting security closures. With seven strategically located manufacturing facilities across India, the company serves more than 500 globally recognized institutional clients across diverse end-use industries.
