COMPANY'S MEGA IPO OF UP TO ₹30,213-CRORE OPENS THIS WEEK FOR SUBSCRIPTION

AI, home broadband to drive Jio's next-leg growth. Brokerages

PRESS TRUST OF INDIA
New Delhi, October 18

WITH THE 5G rollout of its telecom arm largely completed, Jio Platforms is looking to AI, home broadband, enterprise services, and the export of in-house technology for its next leg of growth, multiple brokerages said ahead of its up to ₹30,213-crore IPO opening this week.

The mega IPO, a fresh issue priced at ₹1,065-1,119 per share, opens on October 21 and closes on October 23, with anchor investor bidding scheduled for October 19.

Institutional investors, including leading domestic and global players, have indicated interest worth nearly ₹2.5 lakh crore in Jio Platforms' public issue, according to sources.

Jio Platforms held its second round of pre-IPO meetings with brokers and analysts on Saturday, with JPL Managing Director Akash Ambani and twin sister Isha Ambani, a director on the company's board, outlining the growth roadmap to participants, sources said. An earlier round was held on Thursday.

Sources said interest in the

IPO has also picked up among retail investors and employees, with the pre-IPO application process starting on some brokerage platforms.

Meanwhile, brokerages see the company's next growth coming from AI, home broadband, enterprise services and overseas technology licensing.

'In-house technology stack positions JPL for the next set of growth levers,' Emkay Global said, adding that Jio has built strong in-house technology capabilities, including a 'Made in India' end-to-end 5G stack, comprising a 4G+5G combination core, 5G devices, and

proprietary Operations Support Systems and Business Support Systems.

Its proprietary point-to-multipoint Unlicensed Band Radio technology has made it the first in India to offer fixed wireless access over UBR. Jio Platforms aims to deploy these technologies in partnership with local operators in select international markets, Emkay noted.

Citing the company's market leadership, pricing power, growth opportunities and execution track record, the brokerage has recommended subscribing to the issue.

According to Emkay Global, the key risks include spectrum costs and regulatory changes; competitive intensity affecting average revenue per user and customer churn; dependence on Reliance Group entities; concentration in passive infrastructure and equipment vendors; and leverage and foreign exchange exposure.

GEPL said the company's indigenous standalone 5G technology stack, proprietary JioBrain AI platform and investments in 6G research, cloud-native architecture and AI-driven network automation provide a technological edge

and potential opportunities to monetise capabilities through enterprise solutions and overseas markets. "Overall, Jio Platforms is positioned to benefit from continued 5G adoption, fixed broadband expansion, enterprise digitalisation and AI-led services, with its technology ownership, scale advantages, diversified digital ecosystem and strong profitability supporting sustainable growth," it noted. Investments in satellite connectivity and renewable energy also represent potential avenues to improve network reach and operational efficiency, it said.

FROM THE FRONT PAGE

From sofas to fridges, renting gains ground...

RISING APPLIANCE prices are strengthening this proposition.

Manufacturers have increased prices three times this year, with the latest round on October 1 pushing up air-conditioner prices by 5-8% and those of refrigerators, washing machines and LED televisions by 3-4%.

A rental contract spreads the cost over 18-20 months, although rental companies themselves face higher procurement costs.

Their advantage is that a product can generate income from multiple subscribers over several years.

Rentomojo's expansion reflects this shift. Appliances accounted for 47% of its FY26 revenue, and the company has introduced refrigerators and washing machines under its Zenovi Mojo brand, manufactured by Dixon Technologies.

It has also tied up with Dixon for televisions and entered water purifiers, where annual servicing costs

can amount to about 40% of the product's price.

In the June quarter, orders rose 46% year on year to 329,000 items, while revenue from operations increased 51% to ₹126.33 crore.

Furlenco is pursuing a different route, combining rentals with manufacturing and outright furniture sales.

Its FY26 revenue rose 60% to ₹370.43 crore, while it reported a pre-tax profit of ₹35.58 crore against a loss of ₹1.61 crore in the previous year.

It sold ₹29.36 crore of furniture outright, up 39%, as it expanded into new cities and product categories.

The constraint is capital. Rentomojo spent ₹463 crore on assets between FY24 and FY26, exceeding the ₹380 crore generated by its operations, while Furlenco's borrowings doubled in FY26.

Both are increasingly accessing bank finance at lower rates, improving the economics of expansion.
