 - i. The Financial information as stated in the security cover certificate as of June 30, 2026 extracted from the unaudited Standalone Financial Results of the Company for the quarter ended June 30, 2026.
 - ii. The security cover provided by the Company on standalone is 3.61 times (market value) and 3.35 times (Book value) of the amount borrowed through non-convertible debentures on standalone basis is in accordance with the terms of the issue.
 - iii. We note that there is a variation in the Security Cover Ratio compared to the previous quarter. The ratio stood at 4.04 times (Book Value) and 4.41 times (Market Value) for the quarter ended March 31 2026. During the quarter ended June 30,2026, the ratio decreased to 3.35 times (Book Value) and 3.61 times (Market Value) on a Standalone basis. The decrease in the ratio is primarily attributable to an increase in asset value and a increase in debt sharing under the pari-passu charge compared to the previous quarter
