* Underlying exposure is on outstanding principal basis.

** Asset cover is calculated only on debt for which this certificate is being issued.

#Receivables under financing activities consist of loans which are carried at amortised cost. The business model for managing these loans is "hold to collect" cash flows that are solely payments of principal and interest.

accordingly these loans are not fair valued and the book value of loans are considered as the value of security for the purposes of this certificate.

Note : The above certificate has been prepared on the basis of the audited financial results, records and documents of the Company as at 31.03.2026 as provided to us.
