Bharti not to avail option of converting interest on dues to equity

Telcos were given 90 days to confirm whether they would be opting for paying the interest which accrues as a result of the deferral by way of offering equity to the government. Bharti Airtel on October 25 last year had informed DoT about its acceptance of the four-year moratorium. Earlier in an interview with FE, Bharti Airtel chairman Sunil Bharti Mittal had said the company would get a cash flow relief

of about ₹35,000-40,000 crore by opting for the four-year AGR and spectrum payment moratorium. Regarding the clause that operators have the option to pay the interest amount in equity, he had said the board would decide on the matter. "In the case of Airtel the total amount of interest is ₹7,500 to ₹10,000 crore," he had said. The moratorium was part of the government's revival package for the telecom sector, which offered a combination of cash flow relief for the financially stressed operators as well as long-term measures like redefinition of AGR and scrapping of spectrum usage charge in future auctions.

Digital spends

little affected by Covid curbs

Spends have not been hurt too much, and the fact that people are now vaccinated is making a difference, said a senior executive with a payments company. "We'll have to watch how things pan out from here in case there are lockdowns. With the rise of delivery services, there will probably not be much of a problem in urban centres. In tier 2 and 3 centres, there could be an impact," he said. Transactions made through the Unified Payments Interface (UPI) remained among the most popular modes of consumer payments, crossing ₹1.5 lakh crore in transaction value in the

first week of January. Experts say that part of the reason why digital transactions have held up is that consumers are now more used to making digital payments, given the experience of the last two years. Akash Sinha, co-founder & CEO, Cashfree Payments, said while the shift to digital payments is not new, it has seen a steady rise over the past two years. "Amid Covid-19, India was home to the highest number of real-time online transactions in 2020 ahead of countries such as China and the US," Sinha said, adding, "The good part is that the change in payment habits appears to be more permanent as digital payments have continued the same pace of growth in 2021, compared with 2020."

China pushes banks to boost property lending on default fears

While banks are willing to provide loans for deals, developers are finding it hard to seal any agreements, one of the people said. Caillian first reported on the M&A loan easing. "Project M&A is the most effective market-oriented way for the real estate sector to resolve risks," Lan Zou, an official at the People's Bank of China, said at a press conference last week.

Bond yields remain high; Brent hovers near \$83

Helped by a weaker greenback against key rivals and positive domestic equities, the rupee managed to gain 8 paise to close at 74.34 against the dollar. Asian Paints was the top gainer in the Sensex pack, climbing 1.79%, followed by TCS, Nestle India, Ultratech Cement, ICICI Bank, HUL and Reliance Industries. On the other hand, Bajaj Finserv, M&M, L&T, Bajaj Finance, HDFC, Titan and Bharti Airtel were among the laggards, shedding up to 1.39%.
