QUARTERLY PERFORMANCE

Godrej Consumer back in black in Q4

Clocks profit of ₹412 crore, misses estimates

VIVEAT SUSAN PINTO
Mumbai, May 6

GODREJ CONSUMER PRODUCTS (GCPL) swung back to profit in the quarter ended March, but missed Street expectations.

The company on Tuesday reported a consolidated net profit of ₹412 crore in the fourth quarter of FY25 compared to a loss of ₹1,893 crore in the year-ago period. Bloomberg estimates had pegged the profit at ₹491 crore.

Consolidated revenue was up 6.2% to ₹3,598 crore versus ₹3,385 crore last year. Bloomberg analysts had estimated a revenue of ₹3,617 crore.

Ebitda was up 0.4% to ₹759 crore versus ₹756 crore last year. This was higher than Street estimates of ₹739 crore.

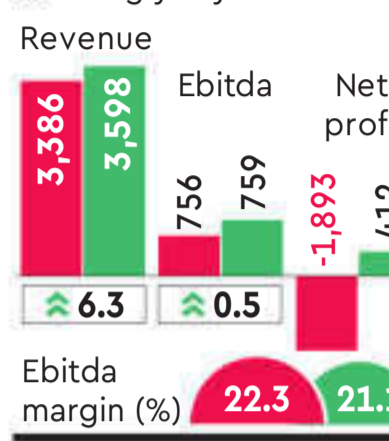

Margins, however, narrowed to 21.1% versus 22.3% last year. The margins also came in below the Street estimates.

GCPL managing director and CEO Sudhir Sitapati said the company delivered a sequentially improving perfor-

mance in Q4FY25 despite market conditions remaining the same. "Our consolidated organic volumes for Q4FY25 grew by 6%, led by the India business growing volumes at 4% and Indonesia growing volumes at 5%," he added.

Revenue from the India market, where Godrej Consumer operates brands such as Good Knight, Cinthol and HIT, was ₹2,184.92 crore. On a standalone business, which mainly consists of domestic business, the firm's "underlying volume grew by 4%, sales grew by 8% y-o-y in Q4."

According to Sitapati, demand conditions in India have continued to be impacted

by headwinds in urban consumption. A surge in palm oil prices by over 50% is negatively impacting Ebitda margins.

But buoyed by a good season, GCPL's household insecticides business grew volumes in strong double digits. "The volume growth on the non-soaps' portfolio was high single-digit, with soaps volume growth impacted by volume-price rebalancing," Sitapati said.

Revenue from GCPL's second-biggest market Indonesia was at ₹504.29 crore, up 1.2% in Q4. Indonesia's underlying volume grew by 5%, though sales grew by 1% in rupee terms and 1% in constant currency terms year-on-year.

OpenAI row: Panel set up to review copyright law

ARPAN CHATURVEDI
New Delhi, May 6

THE GOVERNMENT HAS set up a panel to review if existing copyright law is sufficient to tackle AI-related disputes, an official memo showed, at a time when OpenAI faces legal challenges stemming from accusations of exploiting copyrighted material.

A case in the Delhi High Court by a group of top news outlets and book publishers who say the firm uses their content without permission to help train its ChatGPT chatbot could reshape how the sector operates in India. OpenAI has denied wrongdoing.

The memo, which is not public, said the commerce ministry set up a panel of eight experts last month to examine issues related to AI and their implications for India's copyright law.

The experts have been tasked to "identify and analyse the legal and policy issues arising from the use of artificial intelligence in the context of copyright," the memo added.

The panel of intellectual property lawyers, government officials and industry executives will also examine the adequacy of the Copyright Act of 1957 in resolving such concerns and make recommendations to the government, it said.

The commerce and information technology ministries did not respond to Reuters' queries.

The copyright law has been at the centre of the OpenAI lawsuits in India.

OpenAI says it uses public data to train its chatbot, which is not a violation of India's copyright law, and also provides an opt-out for websites that do not want their data used.

Apple to make all phones here in years to come, says Scindia

PRESS TRUST OF INDIA
New Delhi, May 6

UNION TELECOM MINISTER Jyotiraditya Scindia on Tuesday said investment in India at present makes economic sense for every original equipment manufacturer, as he cited the example of US smart devices major Apple's decision to source majority of the iPhones sold in the US from the country.

Speaking at the Bharat Telecom event, Scindia said the investment in India at present is not just an act of goodwill alone but it makes economic sense for every OEM (original equipment manufacturer).

"Apple has decided to produce and all its mobile

phones in India in the years to come," Scindia said, adding that "when you invest in India, you are choosing affordability, you are choosing reliability, you are choosing originality."

Apple CEO Tim Cook recently said the company will source the majority of the iPhones sold in the US from India in the June quarter, while China will produce the vast majority of the devices for other markets amid uncertainty over tax tariffs.

Scindia said the telecom equipment market aided by the government's production-linked incentive scheme has witnessed multifold growth.

"Investment of ₹4,000 crore, half a billion dollars alone, has resulted in sales of ₹80,000 crore, ₹16,000 crore in exports, (and) 25,000 jobs being created. Therefore, the telecom equipment market has also grown manifold in India," Scindia said.
