## **IKS Health Announces Acquire of ThinkDTM, an AI-led Company**

*IKS Health expands patient access team with addition of AI and product design experts*

**Mumbai, India | Dallas, TX – March 31, 2026** – IKS Health, a global leader in care enablement solutions, is proud to announce the strategic acquire of ThinkDTM, an AI-native product, strategy, and digital services company, including ThinkDTM Founder Tij Bedi. Bedi will assume the role of Executive Vice President and General Manager, Patient Access and Innovation, and his established team of AI technology experts will become a part of IKS Health.

“As healthcare continues to be disrupted, joining IKS Health is a tremendous opportunity to intelligently implement AI in ways that make patients’ lives easier,” **Bedi** said. “An engineer by education and a problem solver by inclination, I’m excited for me and my team to be a part of such a robust health-tech organization during a time of rapid industry change.”

Bedi and his team will help lead the strategic expansion, scaling, and transformation of the IKS Health patient access solutions portfolio, including patient scheduling, registration, demographic capture, insurance eligibility verification, and prior authorizations. The newly expanded team will focus on building and scaling differentiated patient access solutions, strengthening platform capabilities, and driving forward-looking innovation that enhances outcomes for healthcare providers and patients. In addition, Bedi will enable strategic partnerships that leverage innovative use of technology to create differentiated market opportunities.

“Tij and his team are critical additions to our growing team of AI engineers and experts, particularly as we lean into the world of agentic AI and its role in our continued growth and scale in revenue optimization and beyond,” said **Sachin K. Gupta, Founder and Global CEO of IKS Health**. “We are thrilled to have Tij’s leadership as we remain focused on solving complex challenges across healthcare with AI and human-in-the-loop expertise capabilities.”

### **About IKS Health**

IKS Health reduces the administrative, clinical, and operational burdens that slow healthcare down, giving clinicians and care teams the freedom to focus on delivering exceptional care. Through its Care Enablement platform, IKS Health integrates agentic AI workflows with human expertise to create smarter, more accurate operations, better outcomes, and financially sustainable growth across the care journey. Founded in 2006 and recognized by Black Book as the top provider of AI-driven RCM services, by KLAS for performance and client satisfaction, and by Google Cloud with a DORA Award for “Augmenting Human Expertise with AI,” IKS Health partners with the largest health systems, physician groups, and specialty practices across the United States.
