'Weak monsoon poses limited risk on portfolio'

A weak monsoon is likely to have a limited impact on the portfolio of L&T Finance, Sudipta Roy, managing director and CEO, tells Christina Titus after the first quarter results. Excerpts:

What is your AUM growth target for FY27?

As part of Lakshya 2031 plan, we target an AUM growth of more than 20% and remain committed to that. If there is risk-calibrated growth available in the market, we will not shy away from taking it. However, we are cautious because of the risk of an uneven monsoon and the ongoing West Asia conflict. We remain focused on our current portfolio mix. Our secured-to-unsecured mix is about 57:43 and our target is to maintain it at 60:40 over next

two years. How do you see weak monsoon influencing the outlook for the microfinance sector?

The microfinance industry has come out of an asset quality cycle. About 18 months after a stress, you hit a Goldilocks window with little risk emergence. The microfinance sector's balance sheets have contracted and the industry is quite being leveraged. So, even a weaker monsoon—given higher reservoir levels—shouldn't

cause significant spillovers. I expect the industry to remain stable this fiscal year.

How do you expect cost of funds and margins to pan out in FY27, given possible MCLR hike?

We expect NIM plus fee income to remain within the guided range of 10-10.5%. Therefore, I don't expect the weights to average borrowing cost to rise. It

should stay stable or improve slightly.

How have the new gold loan rules introduced in April affected your business?

The new RBI circular requires bureau checks for loans of certain ticket size, which has hurt customers with poorer credit histories. The industry has adopted tiered LTVs based on ticket size and is still adjusting to the change. In April volumes fell sharply, but they began normalising in May-June. I expect the industry to get back to normal trajectory in Q2.

IF THERE IS RISK-CALIBRATED GROWTH AVAILABLE IN THE MARKET, WE WILL NOT SHY AWAY FROM TAKING IT

Healthy growth in NII drives BoM net profit

GEETA NAIR PUNE, July 10

BANK OF MAHARASHTRA (BoM) on Friday reported a 26.84% year-on-year (YoY) rise in its net profit of ₹2,020 crore for the June quarter, driven by a healthy growth in net interest income, improved asset quality and a sustained push towards low-cost deposits.

Operating profit rose 21.29% to ₹3,117 crore. Net interest margin was 3.85% against the bank's full-year guidance of 3.75%.

Managing Director and CEO Nidhi Saxena said the bank has met all the guidance numbers for FY27, and in some cases, exceeded them by a good margin. Net interest income rose 14.33% to ₹3,770 crore.

On FCNR deposits, he said it was early days, and there were no big numbers to report. Saxena was confident of a sizable mobilisation by September as the bank is offering an interest rate of 6.60%, among the best by PSBs.

Deposits grew 19.10%, and CASA deposits were up 9%, adding ₹14,000 crore during the quarter and accounting for 48% of deposits. BoM did not issue a CD (certificate of deposit) in Q1. "We have consciously not looked at the CD option."

"We fund the credit growth not

from borrowings, but from deposits," Saxena said.

Advances rose by 26.90%, led by growth in the retail, agriculture and MSME (RAM) loans. Retail loans were up 24.59% to ₹89,661 crore, rose 28.94% to ₹42,290 crore, and MSME advances grew 23.17% to ₹55,386 crore.

According to Saxena, the MSME loans segment benefited from the ECLGS, and the bank has already sanctioned 65% of the loans to eligible MSMEs.

Of this, around 82% have been disbursed. With-out the ECLGS, the MSME credit growth would have been at 17%, the BoM MD said. Around ₹3,100 crore has gone to MSMEs and ₹400 crore to other corporates.

The bank's gross NPA ratio stood at 1.45% and the NPA ratio was at 0.13%, both were flat sequentially.

Addressing concerns over agricultural advances, Saxena said the bank is yet to see any adverse impact resulting from the rainfall deficit or unusual distress. "We are not expecting any stress. On CASA deposit reduction, Saxena said it had come down from 22.33% to 21.50%, but was better than the industry performance, which has decreased from 44% to 34.36%.

"We were moving to different asset classes. We fund the credit growth not from borrowings, but from deposits

Gold rises ₹400, silver up by ₹5,000

PRESS TRUST OF INDIA New Delhi, July 10

GOLD PRICES EDGED up by ₹400 to ₹1,48,500 per 10 grams in the national capital on Friday, while silver jumped ₹5,000, as value buying by traders and a weak US dollar revived demand for precious metals.

The yellow metal of 99.9% purity closed at ₹1,48,100 per 10 grams in the preceding session.

Silver also snapped its three-session losing streak, surging ₹5,000 to ₹37,000 per kg (inclusive of all taxes) from Thursday's closing level of ₹32,000 per kg.

Traders said the recovery came as the dollar index weakened for the third straight session, boosting the appeal of precious metals, while investors also took advantage of lower prices after gold touched a one-week low earlier this week.

"Gold prices traded modestly higher on Friday as a weak US dollar and bargain buying supported sentiment after a turbulent day, including market's this week," said Saumil Gandhi, Senior Analyst - Commodities at HDFC Securities.

In the international markets, spot gold slipped by \$17.57, or 0.43%, to \$1,106.5 per ounce and silver fell nearly 1% to \$59.54 per ounce.

"Spot gold is trading firm as diplomatic efforts between the US and Iran appear to be back on track to strike a deal," Praveen Singh, Head of Commodities at Mirae Asset ShareKhan, said.

Market participants are awaiting next week's US Consumer Price Index (CPI) data, which is expected to provide fresh guidance on the Federal Reserve's interest-rate trajectory.

and subscription proceeds received in scheme bank accounts.

It can also be backed by non-guaranteed receivables sighted during the day, including maturity proceeds and secondary market settlements from instruments such as non-convertible debentures (NCDs), commercial papers (CPs), certificates of deposit (CDs) and over-the-counter (OTC) swaps, provided these are expected to be received by the scheme before the end of the day. In addition, AMC's may avail intraday borrowing beyond these receivables solely to meet redemption and other unitholder payout obligations permitted under Mutual Fund Regulations. Sebi has made AMC's responsible for ensuring that all intraday borrowings are repaid by the end of the day. Any borrowing that rolls over into an overnight borrowing must remain within the regulatory borrowing limits.

L&T Finance Q1 net profit increases 29%

PRESS TRUST OF INDIA Mumbai, July 10

NON-BANK LENDER L&T Finance on Friday reported a 29% rise in its June quarter consolidated net profit to ₹902 crore, compared to ₹701 crore in the year-ago period.

The company, promoted by the EPC major L&T, said its net interest margin and fees inched up to 10.47% during the quarter under review against 10.22% in the year-ago period.

From an asset quality perspective, it reported a notable improvement in the stock of Gross Stage 3 assets to 2.86% from 3.13% in the year-ago period.

Credit costs improved at a sharper 0.89% to 2.54% on the back of improvements in the collections infrastructure and also the deployment of artificial intelligence-led tools, it said. The consolidated loan book rose 27% on-year to ₹1.29 lakh crore, while retail disbursements reported a 36% growth.

NSE IPO pitch to target 30 global investors this month

REUTERS Mumbai, July 10

THE NATIONAL STOCK Exchange (NSE) will pitch its initial public offering (IPO) to over 30 global investors this month as a bet on the country's rapid financial expansion and growing capital-market participation, according to two sources and an investor perspective reviewed by Reuters.

India's largest and world's most active stock exchange filed draft papers for an IPO last month, making it

one of two mega IPOs likely to come to the country this year. Vishesh Ambani's Reliance IPO is the other.

Investor meetings are set to begin next week, with a listing expected around October, said the sources, who are directly familiar with the IPO process.

A spokesperson for NSE in an email comment said it has filed its IPO papers for regulatory clearance and it is unable to provide further comments at this stage.

Reuters has reported last month, citing sources and pri-

vate market trades, that the size of the IPO could be \$3.3 billion.

Existing shareholders are expected to sell around 6% of NSE's shares through the IPO, the exchange operator said in its IPO papers.

Through the IPO process, BSE has seen its shares surge more than 30 times since its 2017 listing. BSE's revenue grew 88% in the latest fiscal year, while NSE's revenue, though nearly six times that of BSE, fell by 3% due to regulatory curbs on derivatives trading.

Sebi broadens MFs' intraday borrowing facility from Sept

PRESS TRUST OF INDIA New Delhi, July 10

MARKETS REGULATOR SEBI on Friday expanded the scope of intraday borrowing by mutual funds, allowing asset management companies (AMCs) to use such facilities for a wider range of cash management needs arising from settlement timing mismatches.

The revised framework, which comes into effect from September 1, follows amendments to the Sebi (Mutual Funds) Regulations, 2026, notified on July 3.

Earlier, mutual funds were permitted to borrow only to meet temporary liquidity needs for redemption and other unitholder payouts, subject to regulatory limits.

Under the revised framework, Sebi has allowed intraday borrowings for "in-ay with respect to investments made by the scheme", MTM (mark-to-

market) obligations and foreign exchange settlements, and "repayment of existing borrowings" in addition to unitholder payouts.

The move is aimed at addressing liquidity mismatches caused by differences in market settlement timings, Sebi said in its circular.

The regulator said intraday borrowing can be availed against receivables expected during the day, including growth of the inflows, such as funds from the RBI, clearing corpora-
