Press Release

Indegene Expands India Footprint, Opens New Center in Pune

Bengaluru, India, September 05, 2025: Indegene, a digital-first life sciences commercialization company, has expanded its presence in India with the opening of a new center in Pune.

By leveraging the city's highly skilled technology, management, and medical talent base, the company is enhancing its ability to help clients accelerate innovation, scale global operations, and deliver improved healthcare outcomes for patients worldwide.

Indegene combines deep healthcare expertise with a digital-first approach to help pharma, biotech and medical device companies commercialize their products. Its client base includes the world's top 20 biopharma companies, many emerging biotech firms, and medical device companies. Indegene has about 5,000 employees worldwide, 9 operations hubs and 20 offices across North America, Europe, and Asia.

About Indegene

Indegene Limited (BSE: 544172, NSE: INDGN) is a digital-first, life sciences commercialization company. It helps biopharmaceutical, emerging biotech and medical device companies develop products, get them to the market, and grow their impact through the life cycle in a more effective, efficient and modern way. Indegene brings together healthcare domain expertise, fit-for-purpose technology and an agile operating model to provide a diverse range of solutions. These aim to deliver, amongst other outcomes, a personalized, scalable and omnichannel experience for patients and physicians. It's what drives Indegene's team and their purpose to enable healthcare organizations to be future-ready. To learn more, please visit www.indegene.com
