## The Indian School of Public Policy And Indegene Announce Strategic Collaboration To Advance Health Policy Research And Design

**Bengaluru, India, May 6, 2025:** The Indian School of Public Policy (ISPP), a premier public policy school built by veteran policy leaders, has partnered with Indegene, a digital-first life sciences commercialization company, to advance health policy research and design in the country.

As part of this collaboration, ISPP will analyze health systems across states, identifying scalable models and actionable insights to strengthen India's healthcare delivery. This will help co-create evidence-based, context-specific solutions to inform and shape impactful public policy.

### About Indegene

Indegene Limited (BSE: 544172, NSE: INDGN) is a digital-first, life sciences commercialization company. It helps biopharmaceutical, emerging biotech and medical device companies develop products, get them to the market, and grow their impact through the life cycle in a more effective, efficient and modern way. Indegene brings together healthcare domain expertise, fit-for-purpose technology and an agile operating model to provide a diverse range of solutions. These aim to deliver, amongst other outcomes, a personalized, scalable and omnichannel experience for patients and physicians. It's what drives Indegene's team and their purpose to enable healthcare organizations to be future-ready. To learn more, please visit [www.indegene.com](http://www.indegene.com)
