SHAREHOLDERS AND CREDITORS GREEN-LIT RESTRUCTURING PLAN IN FEBRUARY

Each demerged Vedanta entity can be \$100-billion company: Agarwal

URVI MALVANIA Mumbai, March 17

THE FOUR NEW companies formed after the restructuring of Vedanta have the potential to be \$100 billion firms each, chairman Anil Agarwal has said in a letter to shareholders.

While Vedanta currently contributes close to 1.4% to India's GDP, there is a need for many more Vedantas to step forward

management, distinct capital structures, and assets, which will additionally result in the creation of a large number of downstream industries and a huge number of new jobs.

In September 2023, the Vedanta board had approved the proposed restructuring plan, which will result in the company being split into five, each in different sectors where Vedanta has presence.

Vedanta Iron and Steel — will be eventually listed on the stock exchanges. Vedanta Limited will house zinc and silver producer — Hindustan Zinc and will also act as an incubator for new businesses, including Vedanta's technology

verticals, the company said. Vedanta's parent, Vedanta Resources, will continue to be the holding company.

"If you look at where we are headed as a global economy and the demand for such products, these companies and their products are the need of the hour," Agarwal said.

Last month, the company received approvals from shareholders and creditors for the proposed restructuring.

Comparing the contribution of natural resources as a sector to nations' GDP worldwide, Agarwal observed that while the sector contributes 3% to the overall GDP in India, less than 20% of the country's natural resources potential has been explored, giving way to an ample opportunity for growth.

Promoter group to hike stake in SpiceJet to 33.47%

FE BUREAU Mumbai, March 17

BUDGET CARRIER SPICEJET on Monday announced that its founder and promoter, Ajay Singh, through Spice Healthcare, a promoter group entity, will infuse ₹294.09 crore into the airline.

This move will increase the promoter group's stake to 33.47% from the current 29.11%. Chairman and managing director Ajay Singh is disposing up to 31.5 million shares to utilise the proceeds to enable

SpiceJet CMD Ajay Singh is disposing up to 31.5 million equity shares

Spice Healthcare to partially fund the balance of 75% of the amount at the time of allotment of the equity shares pursuant to exercise of option to convert the said warrants.

Spice Healthcare has infused ₹98.03 crore, being 25% of the issue price, towards subscription of the warrants. In FY24, it had invested ₹101.97 crore, acquiring 4.99% of the equity shares. A total of ₹200 crore was infused during FY24 to support the airline's financial needs.

A board meeting will be held on or before March 18 (Tuesday) to approve the allotment of equity shares pursuant to the exercise of the warrant conversion option, the airline added.

Singh said, "This investment will further strengthen our financial position and drive growth. We are well positioned to enhance our operations and seize new opportunities."

DIAL's plea against Hindon airport use: HC seeks govt reply

PRESS TRUST OF INDIA New Delhi, March 17

THE DELHI HIGH Court on Monday sought the Centre's reply on a plea filed by Delhi International Airport (DIAL), which runs the Indira Gandhi International Airport, against the permission given to the Airports Authority of India (AAI) to start commercial flight operations from Hindon airport in Ghaziabad.

HC issued notice on the two pleas filed by DIAL and granted two weeks to the Centre and the AAI to file their responses.

Solicitor general Tushar Mehta, appearing for the Centre, said over a hundred flights were scheduled to take off every week from the "functional" Hindon airport, for which tickets were sold in advance, and monopolisation was not permitted.

Senior advocate Maninder Singh, who appeared for DIAL, argued that the Centre's decision to commence flight operation from an airport within an aerial distance of 150 kilometre of IGI airport was in violation of the policy and the "state support agreement" between them.

He said unless the IGI airport reached its saturation, there was an obligation on the authorities to ensure no other airport was allowed to operate near it as it would make the former unviable. DIAL's plea said the Centre

took the decision in October 2023 to start commercial flights from Hindon "unilaterally and in undue haste". Arguing that a defence aerodrome, such as Hindon, could not be considered an airport for civilian use, the plea said the Centre failed to record any reason for necessitating use of the military airfield.

DIAL said the IGI airport was "far from reaching its saturation" and was further expanding to operate at a capacity of 109 million per annum.

CASE FILE

The Centre and AAI have been granted two weeks to file their responses

DIAL questions permit given to AAI for commercial flight operations from Hindon

It argues that Hindon airport is within an aerial distance of 150 km of IGI airport

This, it said, is in violation of the policy and the 'state support pact' between them

Unless IGI airport reaches saturation, DIAL says no airport should be near it as it would make it unviable

NTT Data to invest \$500 mn in data centre biz annually

URVI MALVANIA Mumbai, March 17

JAPANESE TECH SERVICES company NTT Data will continue to invest at a run rate of \$500 million a year in its India data centre business as it scales up capacity in the country.

The company will focus on investments in the organic capacity expansion, and has ruled out any acquisitions for the time being in the data centre space in India, Abhijit Dubey, president and CEO, NTT Data, said on Monday. "We will not be a player in the consolidation game. We have one of the longest standing and the largest (data centre) platform already in India. So, we're not going to be consolidating," Dubey said.

The company invested \$500 million in its data centre business in India in FY25 in addition to another \$400 million spent on landing the new MIST undersea cable that will connect Malaysia, India, Singapore and Thailand through submarine cables. The 8,100-kilometre-long undersea cable has a landing station in Chennai.

Dubey, however, said that beyond the data centre segment, primarily in managed tech services, the company will continue to look at opportunities for acquisitions across startups that have built relevant capabilities that could be used to service NTT's global client base.

"Globally, India is in the top five markets by capacity. And for the entire NTT Data business, including managed services, it would be in the top 10 by revenue. In the next five years, it will easily be in the top five markets by revenue," Dubey said.

Ather partners Salesforce for dealership ops

ANEES HUSSAIN Bengaluru, March 17

IPO-BOUND ELECTRIC TWO-WHEELER manufacturer Ather Energy has tied up with Salesforce to deploy an automotive dealer management system. 'Ather Dealer Central' will integrate lead management, customer relationship management and dealership functions on a mobile app-based platform.

The aim is to streamline operations, enabling real-time decision-making and creating a continuous customer profile where all interactions are captured in backend data systems.

Ather currently operates over 300 experience centres, via a business model requiring dealers to operate both sales and service facilities at the same location. Around 285-290 such dealerships are already servicing vehicles, with Ather providing a four-week window for new dealerships to go live with servicing.

Ather Energy's chief business officer Raveet Phokela said the new system may drive down ticket resolution and new dealership onboarding timelines significantly.

Users have to subscribe to a special tariff plan to watch the popular event IPL free on JioHotstar, with conditions

ALOKANANDA CHAKRABORTY New Delhi, March 17

PUTTING AN END to speculation around Indian Premier League (IPL) moving behind the paywall, Reliance Jio on Monday said users can still watch India's most-watched sporting event for free if they subscribed to a special tariff plan.

A new recharge plan launched by Jio starting ₹299 will enable its mobile users to watch the IPL on the JioHotstar streaming platform for 90 days — essentially the entire duration of IPL (March 22 to May 25). The offer also includes a 50-day trial of Jio AirFiber, its wireless broadband service, aimed to boost home internet adoption with high-speed sports streaming, Jio users who already have a mobile recharge plan on their phone

ON THE FRONT FOOT. The 90-day period is essentially entire duration of IPL (March 22-May 25). The offer also includes a 50-day trial of Jio AirFiber, aimed to boost home internet adoption. Users who have a mobile recharge plan and want JioHotstar content can buy a ₹100 add-on pack. 620 million viewers in 2024 versus 449 million in 2023, a 38% surge in reach on JioCinema.

and want JioHotstar content can buy a ₹100 add-on pack.

This bundling of IPL access with reliable mobile services is aimed to position Jio as a preferred destination for sports enthusiasts, says Kushal Bhuya, associate director, founders office, White Rivers Media. "By offering IPL alongside unlimited voice calls, high-speed 5G data and access to Jio's suite of apps, this caters to the evolving preferences of users who seek
