Subject: Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 - Press Release

Dear Sir / Ma'am,

Please find enclosed herewith the Press Release being issued by the Company titled "**FACILITY PRESENTATION**".

The enclosed communication updates the stakeholders regarding the company's specialized manufacturing operations, safety and confidentiality protocols, and provides secure video link for a virtual tour of the existing facilities.

We hereby confirm that the enclosed press release and the video link contained therein do not contain any Unpublished Price Sensitive Information (UPSI).

The same is also being uploaded on the Company's website at www.indianemulsifiers.com

This is for your information and records.

Thanking You,

For Indian Emulsifiers Limited

Joshna Olivera
Company Secretary

Indian Emulsifiers Limited

PERFORMANCE | SUSTAINABILITY | INNOVATION | CHEMISTRY

FACILITY PRESENTATION

Dear Shareholders,

I would like to sincerely thank many of our shareholders and well-wishers who have, over time, expressed a keen interest in visiting our manufacturing facilities and understanding our operations more closely. Your enthusiasm and curiosity about the Company's growth journey are deeply appreciated by all of us.

The Company's manufacturing operations comprise specialized chemical process manufacturing involving handling, storage and processing of various classes of chemicals, including flammable, combustible, hazardous and non-hazardous substances, in addition to operating high pressure and high temperature reaction systems and process equipment. Such operations are subject to stringent industrial safety standards, environmental controls, operational protocols and statutory compliance requirements under applicable laws, regulations and directions issued by competent authorities, including industrial safety and health authorities. The safety of our employees, stakeholders, surrounding communities and all visitors remains our highest priority at all times.

Considering the nature of the manufacturing processes and the associated operational environment, unrestricted or regular visitor movement within operating facilities during active production periods may not be appropriate from the perspective of process safety management, industrial risk control, statutory compliance obligations, emergency preparedness protocols and overall operational security.

Further, organizing structured visits for larger groups or conducting multiple smaller visits with adequate supervision, visitor safety arrangements, operational

segregation, emergency preparedness measures and compliance monitoring requires substantial administrative, technical and operational resources, including deployment of dedicated personnel and temporary operational accommodations. Such arrangements may also impact manufacturing continuity, plant efficiency and operational scheduling.

In addition, our facilities incorporate valuable process know how, proprietary engineering practices and specialized manufacturing capabilities developed over many years, which also require appropriate confidentiality and protection.

While these considerations present practical limitations in organizing regular physical visits, we fully understand the importance of enabling shareholders to gain better visibility into the Company's operations and manufacturing strengths.

With this objective, we are pleased to share a detailed corporate and facility overview video that provides stakeholders with a meaningful insight into our existing infrastructure, manufacturing environment, systems and capabilities in a safe, accessible and efficient manner. Our upcoming facilities we will share once the upcoming projects are completed.

The video may be viewed through the following links:

YouTube: <https://youtu.be/HVqiRaYkcjY?si=DzETAAj0wYb1GnUI>

Website: www.indianemulsifiers.com

We remain committed to maintaining transparent communication and meaningful engagement with all our stakeholders while continuing to uphold the highest standards of safety, compliance and operational excellence.

With warm regards,

Managing Director

About Indian Emulsifiers Limited:

Founded in 2020, Indian Emulsifiers Ltd is a leading manufacturer of specialty chemicals including Esters, Esterquats, Polyamides, Polymerized surfactants, Sulphates, Amphoteric, Phosphate esters, Imidazolines, Wax emulsions, Specialty emulsifiers and Formulated products. With a diverse portfolio of over 125 products and exports across 9 countries, the company serves multiple industries including Food, Personal care, Textiles, Mining, Industrial and Institutional Cleaners, Metal Working, Oil & Gas Industry and Lubricants.

The company operates a state-of-the-art facility in MIDC Lote Parshuram, Maharashtra with 12,000 MTPA capacity and in-house R&D and technical innovation capabilities. It is certified under ISO 9001, Responsible Sourcing, Kosher and Halal standards, reflecting its strong commitment to quality and sustainability.
