

Infotech Receives “Supplier of the Year” from Boeing for the Second Time

San Diego, California, April 23, 2013. Infotech Enterprises has been recognized as Supplier of the Year in the international category by The Boeing Company. Infotech was one of 16 companies and lone university honored for distinguished performance in working with Boeing.

In January 2013, Infotech was notified that it was one of 594 companies to receive the Boeing Performance Excellence Award for the third consecutive year. Achieving the Supplier of the Year recognition further acknowledges superior performance and labels this class of winners as the best of the best.

“In today’s challenging business environment, an agile supply chain that continuously delivers excellent performance is critical,” said Jack House, vice president of Supplier Management for Boeing Defense, Space & Security and leader of Boeing’s companywide Supplier Management program. “The suppliers receiving Supplier of the Year awards have demonstrated outstanding commitment to providing our customers with the best-value, highest-quality products and services, while meeting the customers’ requirements and anticipating their needs for the future.”

This year’s winners represent an elite group among more than 11,000 active Boeing suppliers from nearly 52 countries around the world. This selection was based on stringent performance criteria for quality, delivery performance, cost, environmental initiatives, customer service and technical expertise. This is the second time in three years that Infotech has received the Supplier of the Year award from The Boeing Company.

Infotech Enterprises partners with Boeing in providing specialized engineering and design automation solutions across commercial and defense programs including the 747-8 (freighter and passenger), 787-9, 767, 747, F-18, A-10, CH-47 and F-15. Infotech provides a broad range of engineering services and solutions along with project management expertise to Boeing primarily in the areas of aerostructures, durability and damage tolerance, design data conversion for legacy programs, reliability and software services. Infotech also provides manufacturing engineering and ship-side support for the 787 program. Today, Infotech Enterprises is the largest extended engineering arm for several global aerospace OEMs, offering end-to-end services for complex global engineering challenges.

“We are delighted to receive this honor from Boeing which highlights our organization-wide commitment toward customer satisfaction. Our goal is to create trusted partnerships with our customers in order to help them to drive value in their organizations through continuous improvement in areas of quality and productivity across the product life cycle”, said BVR Mohan Reddy, Founder and Chairman, Infotech Enterprises.

About Infotech Enterprises

Infotech Enterprises provides leading-edge engineering solutions, including product development and life-cycle support, process, network and content engineering to major organizations worldwide. With over two decades of continuous growth, Infotech leverages a global delivery and collaborative engineering model to achieve measurable and substantial benefits for its customers. Infotech Enterprises is the ideal partner for organizations that need to design innovative products faster, optimize R&D costs, increase market share, enhance operational efficiency or maximize the return on investment in networks.

Infotech Enterprises' global collaborative engineering approach helps aerospace manufacturers to innovate and build a competitive advantage while protecting key IP assets. Infotech's robust processes and focus on productivity improvement have yielded optimal weight solutions, faster turnaround and improved success for major aerospace manufacturers around the world.

Infotech has over 10,000 associates across 36 global locations and offers a proactive approach to serve our clients with our best-in-class delivery centers in North America, Europe, Middle East and Asia Pacific. Our clients span multiple industries such as Aerospace, Consumer, Energy, Medical, Heavy Equipment, Oil & Gas, Mining, HiTech, Transportation, Telecom and Utilities and include 22 'Fortune 500' and 27 'Global 500' blue chip organizations.
