Notes on segment information:

Primary segments

The Company's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance business performance. Revenues represented along industries served constitute the primary basis of the segmental information set out above. Effective April 1, 2015, the Company reorganized its segments to support its objective of delivery innovation. This structure will help deliver services that will reflect the way technology is consumed in layers by the client's enterprise. However the reorganization did not have any impact in the reportable segments as per Accounting Standard 17 'Segment reporting'.

Segmental capital employed

Assets and liabilities used in the company's business are not identified to any of the reportable segments, as these are used interchangeably between segments. The Management believes that it is not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.
