PRESS RELEASE

Infosys Joins Qualcomm Smart Cities Accelerator Program to Offer Smart Cities Solutions

Bengaluru, India – March 10, 2020: Infosys (NYSE: INFY), a global leader in next-generation digital services and consulting, announced today that it has joined the Qualcomm® Smart Cities Accelerator Program to offer end-to-end solutions for smart stadiums, smart venues and smart event management. This program is designed to connect cities, municipalities, government agencies, and enterprises with Qualcomm Technologies' ecosystem to help deliver greater efficiencies, cost savings, and broad access to solutions for smart cities' problems today.

Utilizing cutting-edge connectivity and compute technologies from Qualcomm Technologies and Smart Spaces solution from Infosys, facilities managers of stadiums and venues can reimagine the physical spaces by enabling the next generation fan experience, improved energy efficiencies, increased people productivity, and differentiated user experiences through seamless connectivity. Infosys' global network of innovation centers, experience design, and expertise in building connected ecosystems can unlock energy and resource savings by enabling reductions in per capita energy and water consumption, effective recycling and use of renewable energy.

These Smart Space solutions build upon Infosys' proprietary SCALE (Sustainable-Connected-Affordable-Livable-Experiential) framework for smart spaces. SCALE offers a rich set of features for building and resource management, physical assets management and occupants' safety and security. It uses digital technologies to deliver an enhanced user experience for personal comfort, wellness, collaboration and convenience. Integrated with a command center, it delivers actionable insights through predictive capabilities to optimize resources for easy maintenance and improved efficiencies. By deploying SCALE, building managers can achieve significant savings in space utilization, energy, and water consumption, reduction in net carbon footprint, and better user experience.

Sanjeet Pandit, Senior Director, Business Development and Head of Smart Cities, Qualcomm Technologies, Inc. said, "Infosys has been a global leader in driving new Smart Spaces technologies. We are excited to have them join the Qualcomm Smart Cities Accelerator Program to further share their solutions expertise, enrich the ecosystem of smart cities solutions, and unlock new potential for smart cities' customers around the world."

Corey Glickman, Vice President and Head - Strategic Design Consulting, Infosys, said, Physical spaces are the latest in adopting digital transformation. We are excited to join the Qualcomm Smart Cities Accelerator Program to offer leading solutions in Smart Spaces to ecosystem partners building devices with Qualcomm Technologies' edge compute solutions, with its cutting edge processors and connectivity

solutions including 5G. As a member of the program, we will accelerate sustainable solutions that are secure and interoperable to release immediate operational efficiencies for our customers and innovate to deliver solutions at scale."

Note: Qualcomm Smart Cities Accelerator Program is a Program of Qualcomm Technologies, Inc.

Qualcomm is a trademark of Qualcomm Incorporated, registered in the United States and other countries.

About Infosys

Safe Harbor

Certain statements mentioned in this release concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our industry and the outcome of pending litigation and government investigation. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2019. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
