Company Secretary

PRESS RELEASE

Infosys Positioned as a Leader in the Everest Group PEAK Matrix® for Cloud-native Application Development Service Providers 2020

Bengaluru, India – November 13, 2020: [Infosys](#) (NYSE: INFY), the global leader in next-generation digital services and consulting, today announced that it has been positioned as a Leader in Everest Group's PEAK Matrix® for Cloud-native Application Development Service Providers 2020. Infosys was recognized for its ability to help organizations augment their digital capabilities, modernize their core systems, and deliver design-led experiences in an agile manner. Backed by deep domain expertise and experience, Infosys leverages platforms such as [Infosys PolyCloud Platform](#) and [Infosys Cloud Native Development Platform](#), part of [Infosys Cobalt](#), to simplify and accelerate cloud native journey for its clients.

Everest Group assessed 21 leading service providers through a multi-phased research and analysis process for their vision and capabilities in the cloud-native applications development space. Infosys' cloud-native application development services include API, microservices, PaaS, observability, security, and DevSecOps.

The key highlights of the report include:

- Design thinking approach and joint workshops with clients that have helped build and demonstrate POCs, thus, fostering client confidence
- Mature set of tools and accelerators that enable predictability and consistency in its cloud-native engagements
- Strong pool of domain experts across industry verticals, which enables it to contextualize cloud-native solutions with a better understanding of clients' businesses
- Infosys' upskilling initiatives that help provide consistent and quality delivery teams in cloud-native engagements
- Extensive partnership with ISVs and cloud service providers to develop joint solutions and enhanced service offerings for clients

"Rapidly evolving market conditions have put unprecedented pressure on enterprises to differentiate themselves and find more agile, scalable, and cost-effective means to develop applications. In response, they are increasingly relying on cloud-native development," said **Alisha Mittal, Practice Director, Everest**

Group. “Infosys is enabling its clients to develop resilient cloud-native applications leveraging [Infosys Cobalt](#), a set of services, solutions, and platforms for enterprises to accelerate their cloud journey. Infosys’ clients also appreciate its talent initiatives, design thinking approach, and domain expertise across industry verticals.”

“Cloud native applications and technologies are the way forward to drive innovation, resilience and deliver well-recognized business value to customers. It is an ideal approach for enterprises that are looking to build and run responsive, scalable, and fault-agnostic apps across public, private, or hybrid clouds”, said **Shaji Mathew, Executive Vice President, Infosys**. “Our positioning as a Leader in the report validates our deep domain knowledge backed by offerings from [Infosys Cobalt](#) to contextualize cloud-native solutions specific to our clients’ businesses across industry verticals.

Safe Harbor

Certain statements in this release concerning our future growth prospects, financial expectations and plans for navigating the COVID-19 impact on our employees, clients and stakeholders are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding COVID-19 and the effects of government and other measures seeking to contain its spread, risks related to an economic downturn or recession in India, the United States and other countries around the world, changes in political, business, and economic conditions, fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions

affecting our industry and the outcome of pending litigation and government investigation. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2020. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
