*Company Secretary*

## **Infosys Science Foundation to Announce the Winners of the 13<sup>th</sup> Infosys Prize**

*Six individuals to be awarded for impactful contributions to research and society*

**Bengaluru, India – November 15, 2021:** The [Infosys Science Foundation](#) (ISF) will announce and felicitate the laureates of the Infosys Prize 2021 on December 02, 2021. The Infosys Prize celebrates success in research and stands as a marker of excellence in science and research. It also aims to inspire young scholars to choose a vocation in research.

The Prize comprises a gold medal, a citation, and a purse of USD 100,000 (or its equivalent in Rupees) and is awarded in six categories: Engineering and Computer Science, Humanities, Life Sciences, Mathematical Sciences, Physical Sciences, and Social Sciences. Winners will be felicitated by Gagandeep Kang, FRS - Professor at CMC Vellore, Infosys Prize laureate and one of India's leading virologists.

A distinguished international jury, composed of leaders in each of these fields, evaluates the work and achievements of the nominees against stringent standards of international research, placing the winners on par with the finest researchers in the world.

“The pandemic has re-established the need for science to be in the limelight, to cut across the traditional boundaries and stretch across various disciplines. The interaction between science and society ensures that knowledge is exchanged, tested, and refined in order to respond to societal needs and global challenges. The Infosys Prize aims to recognize fundamental and applied research, both of which ultimately make a difference to our society,” said **Kris Gopalakrishnan, President – Infosys Science Foundation**.

Since its inception in 2009, Infosys Science Foundation has felicitated the work of 74 laureates, from institutes like the IITs, IISc, ISIs, TIFR and NCBS as well as CSIR labs across the country, and niche research institutes like JNC SAR and Harish Chandra Research Institute.

To know more about Infosys Science Foundation, Infosys Prize, and how they plan to create an environment of scientific inquiry in India, watch the conversation between Prof. Gagandeep Kang FRS, and Kris Gopalakrishnan here: [Cultivating an environment of scientific inquiry in India](#)

### **About the Infosys Science Foundation**

The Infosys Prize is awarded by the Infosys Science Foundation, a not-for-profit trust set up in 2009. The award is given annually to honor outstanding achievements of contemporary researchers and scientists across six categories: Engineering and Computer Sciences, Humanities, Life Sciences, Mathematical

Sciences, Physical Sciences and Social Sciences. Each prize consists of a gold medal, a citation and a purse of USD 100,000. The award intends to celebrate success in research and stand as a marker of excellence in these fields.

Visit [www.infosys.com](http://www.infosys.com) to see how Infosys (NSE, BSE, NYSE: INFY) can help your enterprise navigate your next.

### **Safe Harbor**

Certain statements in this release concerning our future growth prospects, financial expectations and plans for navigating the COVID-19 impact on our employees, clients and stakeholders are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding COVID-19 and the effects of government and other measures seeking to contain its spread, risks related to an economic downturn or recession in India, the United States and other countries around the world, changes in political, business, and economic conditions, fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our industry and the outcome of pending litigation and government investigation. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2021. These filings are available at [www.sec.gov](http://www.sec.gov). Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
