PRESS RELEASE

Infosys to Transform LANXESS' IT Infrastructure and Enable a Globally Harmonized Digital Workplace

Bengaluru, India and Köln, Germany – July 20, 2020: Infosys (NYSE: INFY), the global leader in next-generation digital services and consulting, today announced a strategic long term partnership with LANXESS, a leading specialty chemicals company manufacturing chemical intermediates, additives, specialty chemicals headquartered in Germany. Infosys will support LANXESS in its IT Infrastructure Digitization strategy and enable its global workforce spread across 33 countries with a secure and fully managed modern workplace.

As part of this transformation, Infosys will setup an end-user centric modern workplace with globally standardized device/workplace landscape (for Office, Functional and Virtual users) based on a Device as a Service (DaaS) construct, backed with NextGen unified communication and collaboration platforms. The global workforce of LANXESS will be supported by a multi-lingual artificial intelligence powered service desk operating from Europe and India. Infosys will also transform LANXESS to a future ready end user IT landscape over the course of the partnership. This will ensure a seamless and harmonized workplace experience for LANXESS' global workforce.

Jasmeet Singh, Executive Vice President and Global Head of Manufacturing, Infosys, said, "Germany is a very strategic market for Infosys and an important part of our localization strategy in Europe. In today's world, digital workplace as a service is becoming increasingly relevant for all our clients' transformation journeys and we are glad to be partnering with LANXESS to enable their transition to a modern digital workplace. This partnership will deliver next-gen service operations with self-heal, self-help and automation-driven solutions. With deep expertise in executing large transformation programs for global clients, along with advanced digital solutions, we look forward to help LANXESS reimagine their workplace to drive increased collaboration and productivity."

Kai Finke, CIO of LANXESS said, "Standardized and harmonized workplace services will enable us to increase our service quality and usability on a global basis as well as increase flexibility and scalability which nowadays are getting more and more important. Working with Infosys will allow us to implement state-of-the-art-technologies faster and thus bring LANXESS to the next level regarding workplace services enhancing our collaboration and mobility capabilities.

About LANXESS
LANXESS is a leading specialty chemicals company with sales of EUR 6.8 billion in 2019. The company currently has about 14,300 employees in 33 countries. The core business of LANXESS is the development, manufacturing and marketing of chemical intermediates, additives, specialty chemicals and plastics. LANXESS is listed in the leading sustainability indices Dow Jones Sustainability Index (DJSI World and Europe) and FTSE4Good.

Safe Harbor
Certain statements in this release concerning our future growth prospects, financial expectations and plans for navigating the COVID-19 impact on our employees, clients and stakeholders are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding COVID-19 and the effects of government and other measures seeking to contain its spread, risks related to an economic downturn or recession in India, the United States and other countries around the world, changes in political, business, and economic conditions, fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our industry and the outcome of pending litigation and government investigation. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2019. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
