Global Express appoints Infosys to Manage Technology Separation from Toll Holdings

Collaboration to leverage solutions from Infosys Cobalt to drive transformation

Sydney, Australia – June 28, 2022: [Infosys](#) (NSE, BSE, NYSE: INFY), a global leader in next-generation digital services and consulting, today announced that it has been selected by Australian express logistics business, Global Express, to separate the technology landscape following divestment from [Toll Holdings Ltd.](#)

Building on its strategic collaboration with Global Express to drive hybrid cloud-powered innovation, Infosys will leverage the established blueprints and tools from [Infosys Cobalt](#), a set of services, solutions and platforms for enterprises to accelerate their cloud journey, As part of this collaboration, Infosys will also help set up a greenfield technology environment, and migrate Global Express' applications and services to a world-leading sustainable and energy-efficient data centre and public cloud on AWS.

Infosys will manage the end-to-end program, enabling Global Express' transformation strategy for its transport and logistics business to deliver exceptional customer service.

Danny Gravell, CIO, Global Express, said, "We are pleased to partner with Infosys to develop state-of-the-art digital capability, transforming our foundation technology platforms. We value Infosys' collaborative approach and their experience in implementing infrastructure and cloud transformation programs. We look forward to working with Infosys as we work towards providing the best possible experience for our customers."

Karmesh Vaswani, Executive Vice President & Global Head Consumer, Retail & Logistics, Infosys, said, "We are thrilled to be working with Global Express on this business-critical project as they enter an exciting new era. Our aim will be to bring an innovative hybrid agile approach to not just holistically separate the technology platforms, but to focus on enabling a modern, secure, and agile platform to support Global express through their digital transformation. This engagement reflects our commitment to doubling down on our strengths in Cloud with Infosys Cobalt and Digital to drive tangible business value through a risk free and seamless separation."

About Infosys

Infosys is a global leader in next-generation digital services and consulting. Over 300,000 of our people work to amplify human potential and create the next opportunity for people, businesses and communities. With over four decades of experience in managing the systems and workings of global enterprises, we expertly steer clients, in more than 50 countries, as they navigate their digital transformation powered by

the cloud. We enable them with an AI-powered core, empower the business with agile digital at scale and drive continuous improvement with always-on learning through the transfer of digital skills, expertise, and ideas from our innovation ecosystem. We are deeply committed to being a well-governed, environmentally sustainable organization where diverse talent thrives in an inclusive workplace.

Safe Harbor

Certain statements in this release concerning our future growth prospects, financial expectations and plans for navigating the COVID-19 impact on our employees, clients and stakeholders are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding COVID-19 and the effects of government and other measures seeking to contain its spread, risks related to an economic downturn or recession in India, the United States and other countries around the world, changes in political, business, and economic conditions, fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India and the US, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our industry and the outcome of pending litigation and government investigation. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2022. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
