Notes:

- The financial results for the period reflect higher expenses in the Gym and Fitness Segment due to the regulatory change in GST treatment of physical well-being services. As a result, the overall cost of providing these services has increased, and the Company has recognised the impact of such additional tax burden in its expenses for the period under review. The increase in cost is attributable to the non-availability of ITC under the revised GST structure and not to any operational inefficiency.
- The assets and liabilities of the Group are used interchangeably amongst segments. Allocation of such assets and liabilities is not practicable and any forced allocation would not result in any meaningful segregation. Hence, assets and liabilities have not been identified to any of the reportable segments.
