Commenting on the results and performance, Mr. Rajesh Kumar Aggarwal, MD of Insecticides (India) Ltd. said:

We delivered a resilient performance during the quarter despite a subdued demand, supported by our diversified product portfolio, presence across key crops, strong execution capabilities, and clear strategic direction. While deficient rainfall impacted near-term revenue, pricing discipline and operating efficiencies helped stability in gross margin. With an improving macro environment and focused execution, we remain confident of progressively building momentum through the coming quarters.

Our confidence is supported by the benefits emerging from sustained investments in premiumization, manufacturing, research, digital transformation, and global partnerships. The continued expansion of our Focus Maharatna and Maharatna portfolios, supported by collaborations with leading global innovators, is strengthening margins, deepening farmer engagement, enhancing the overall quality of growth. Additionally, Kaeros Research is evolving into a significant growth platform and the Company is advancing its international business footprint.

Supported by capacity expansion, backward integration, and operational excellence, we are building a more resilient and future-ready organization. We remain committed to delivering sustainable, high-quality growth and creating enduring value for farmers, partners, employees, and shareholders.
