Intense Technologies bags order to digitalize mission critical citizen services

Hyderabad- March 03, 2020: - Intense Technologies today announced that it has bagged a large deal for digitalizing mission critical citizen services in India in partnership with a large System Integrator.

The technological innovation of its platform UniServe™ NXT helped Intense Technologies to win the deal against stiff competition from global players. The project is aimed at boosting the digital adoption of critical services amongst citizens of India by making services accessible across multiple devices.

Speaking on this occasion, C.K. Shastri, Chairman and Managing Director, Intense Technologies, said, "This milestone order is a huge validation of the capability of our platform, UniServe™ NXT and will help us in establishing the superiority of our technology. The deal will add significantly to the top and bottom line of the company. We believe that leveraging technology to deliver mission critical enterprise class applications at scale is the cornerstone of the business impact we deliver"

About Intense:

Intense Technologies Limited is a global enterprise software products company, headquartered in India with a strong and emerging presence in USA, LATAM, EMEA and APAC. Our enterprise software products are used globally by Fortune 500s for digital transformation of customer centric business processes resulting in improved revenues, greater customer centricity and reduced operational expenses. We serve customers in 45 countries across 4 continents.
