Commenting on the company's performance, Mr. Arvind Nanda, Managing Director, Interarch Building Solutions Ltd., said, "We commenced FY27 on a positive note, delivering a resilient performance in the first quarter despite a dynamic operating environment. Revenue from Operations grew 20.7% YoY to Rs. 459.6 crore in Q1 FY27, while EBITDA increased by 24.6% YoY to Rs. 39.4 crore, reflecting our continued focus on operational excellence and disciplined execution. Although near-term challenges arising from external market conditions may persist, we remain confident in our long-term growth trajectory, supported by robust industry fundamentals, expanding capacities and sustained customer demand.

The long-term outlook for the pre-engineered buildings (PEB) industry remains highly encouraging, driven by increasing investments in manufacturing, industrial infrastructure, warehousing, data centers and commercial real estate. Supported by rising private sector capital expenditure and continued government focus on infrastructure development, we see significant medium- to long-term opportunities across our business.

Our order book remains healthy at Rs. 1,864 crore, providing strong revenue visibility. During the quarter, we secured a major order worth Rs. 165 crore in Gujarat, further reinforcing our market position. We continue to maintain a disciplined approach to order selection, prioritizing projects that align with our execution capabilities, strategic objectives and profitability thresholds.

As part of our growth strategy, we successfully commissioned Phase 1 of our new PEB manufacturing facility at Kheda, Gujarat in July-26, and remain on track to complete Phase 2 by Q2 FY27. In addition, Phase 1 of our Heavy Steel Structures facility is progressing as planned and is expected to be commissioned by Q2 FY27. These capacity additions will strengthen our manufacturing capabilities, enhance execution efficiency and enable us to address larger and more complex industrial projects.

Backed by our integrated business model, proven execution capabilities and expanding manufacturing footprint, we are well positioned to capitalize on the growing opportunities in the building solutions market. We remain committed to disciplined execution, prudent capital allocation and continuous operational improvement, while delivering sustainable, profitable growth and creating long-term value for all our stakeholders."

About Interarch Building Solutions Limited

Interarch Pre-Engineered Buildings

Interarch Building Solutions Limited commenced its operations in 1983. Today, 40 years later, Interarch is one of the leading turnkey pre-engineered steel construction solution providers in India with integrated facilities for design and engineering, manufacturing, on-site project management capabilities for the installation and erection of pre-engineered steel buildings.

Interarch Life: Non-Industrial Buildings

We offer a state-of-the-art solution for non-industrial buildings through our innovative load-bearing wall framing systems, crafted to support lightweight structures. Embracing a hassle-free drywall construction approach, these systems guarantee swift and efficient assembly, simplifying the construction process for our esteemed clients. With a focus on durability and safety, our load-bearing wall framing systems are engineered to be earthquake and termite-proof, providing robust protection for the structure and its occupants.

Moreover, these systems offer the flexibility of dismantling if required, providing adaptability for future changes or modifications. These structures can be custom-made according to the specific plans, accommodating varying shapes, sizes, and designs to meet the exact needs of customers.

TRACDEK® Metal Roofing & Cladding Systems

We manufacture world-class pre-engineered roofing and cladding systems designed to meet custom requirements. Our extensive portfolio includes Hi-Rib Roofing & Cladding System, Klippon Roofing & Cladding

System, and SS-2000 Standing Seam Roofing System. Each of these solutions is engineered to provide exceptional performance and durability, ensuring that we meet a wide range of needs with precision and reliability.

Trac® Ceilings

Our TRAC® range of metal ceilings are manufactured from fully recyclable materials and are pre-painted and prefabricated in our factory. The ceiling systems are friendly to handle and will not promote the growth of bacteria and fungi. TRAC® ceilings exhibit excellent corrosion resistance. They can withstand very high humidity (up to 100 %) and are suitable for use in outdoor applications.
