Subject: Clarification_ Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015

Dear Sir/Ma'am,

We acknowledge receipt of your email dated 19th March 2025, regarding our company's disclosure filed on 6th February 2025, in relation to the press release issued by our company. This release pertains to the strengthening of Interarch's position to meet the growing infrastructure needs of South India, alongside the expansion of capacities and a projected 10% growth for FY25, filed pursuant to Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with Part B of Schedule III thereof.

In accordance with Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, and the SEBI Circular dated 13th July 2023, we hereby submit our point-wise response as requested:

Capacity addition

a) **Existing capacity;** Our Existing installed capacity is 1,61,000 MT

The utilisable capacity is 80 percent of 1,61,000 MT that is 1,28,000 MT approximately.

INTERARCH BUILDING PRODUCTS LIMITED

Interarch Strengthens Its Presence in South India and Expands Capacities, Projects 10% Growth for FY25

- *Expanding Overall Installed Capacity to 200,000 Metric Tons by Mid-2025 to Meet Rising Demand.*
- *Innovative PEB Solutions Driving Growth in New Age sectors*

Chennai, February 6, 2025: Interarch Building Products Limited (BSE Code: 544232) (NSE: INTERARCH), a leading player in the Pre-Engineered Buildings (PEB) and steel structure industry, is strengthening its position to meet the growing infrastructure needs of South India. With a focus on sustainable building practices, cutting-edge technology, and innovative solutions, the company is strategically expanding its operations across the region.

Interarch operates four fully integrated, state-of-the-art manufacturing plants across India, including Sriperumbudur (Tamil Nadu), Pantnagar, Kichha (Uttarakhand) and a recently established unit in Athivaram (Andhra Pradesh) which is further being expanded. The Chennai plant plays a key role in supporting the company's growth strategy in South India, addressing the rising demand for sustainable and high-quality Pre-Engineered Building (PEB) solutions.

While interacting with the media, at Interarch's Sriperumbudur facility, Mr. Manish Kumar Garg, CEO of Interarch Building Products Limited, provided a detailed overview, showcasing the process of how Interarch's Pre Engineered Buildings (PEB) are manufactured.

In addition to driving innovation in design and construction, the Sriperumbudur facility is instrumental in producing factories for emerging sectors like semiconductors and renewables, for clients like Tata Semiconductors, Agartas Energy, Havells, Blue Star and Amara Raja Energy & Mobility Ltd.

"We are at the forefront of meeting the infrastructure demands of South India with our sustainable and scalable solutions, particularly in the rapidly growing demand in semiconductors, renewables, and the data centre sector. By combining cutting-edge technology with a deep focus on sustainability, we aim to make a lasting impact on the region's development. Our initiatives further strengthen our leadership in the Pre-Engineered Buildings sector, committed to supporting the region's growth with energy-efficient, flexible solutions that meet the needs of both today and tomorrow," said Mr. Garg.

Interarch's R&D Centre in Chennai plays a key role in the company's success. The Centre focuses on providing value-engineered solutions across various sectors, from industrial projects to data centres, while improving design and manufacturing processes. A major shift has been from manual to automated processes, using AI technologies that will reduce project timelines by up to 30%. Additionally, the development of custom tools will boost efficiency and productivity. The company also focuses on training and mentoring new talent through its GET/PGET initiatives, ensuring a strong workforce for future growth.

Reflecting strong business performance, Interarch is targeting 10% revenue growth for FY25, driven by continued demand for sustainable, high-quality PEB solutions. For FY26, the company expects to

maintain its momentum with a projected 10-15% growth, supported by ongoing expansion efforts and a robust order book.

As part of its long-term growth strategy, Interarch aims to achieve an annual installed capacity of 200,000 metric tons by mid-2025, driven by capacity expansions at its Kichha plant and other key facilities.

About Interarch Building Products Limited

Interarch Pre- Pre-Engineered Buildings

Interarch Building Products Limited commenced its operations in 1983. Today, 40 years later, Interarch is one of the leading turnkey pre-engineered steel construction solution providers in India with integrated facilities for design and engineering, manufacturing, and on-site project management capabilities for the installation and erection of pre-engineered steel buildings.

TRACDEK® Metal Roofing & Cladding Systems

We manufacture world-class pre-engineered roofing and cladding systems designed to meet custom requirements. Our extensive portfolio includes the Hi-Rib Roofing & Cladding System, Klippon Roofing & Cladding System, and SS-2000 Standing Seam Roofing System. Each of these solutions is engineered to provide exceptional performance and durability, ensuring that we meet a wide range of needs with precision and reliability.

Trac® Ceilings

Our TRAC® range of metal ceilings are manufactured from fully recyclable materials and are pre-painted and prefabricated in our factory. The ceiling systems are friendly to handle and will not promote the growth of bacteria and fungi. TRAC® ceilings exhibit excellent corrosion resistance. They can withstand very high humidity (up to 100 %) and are suitable for use in outdoor applications.

Interarch Life: Non-Industrial Buildings

We offer a state-of-the-art solution for non-industrial buildings through our innovative load-bearing wall framing systems, crafted to support lightweight structures. Embracing a hassle-free drywall construction approach, these systems guarantee swift and efficient assembly, simplifying the construction process for our esteemed clients. With a focus on durability and safety, our load-bearing wall framing systems are engineered to be earthquake and termite-proof, providing robust protection for the structure and its occupants.

Moreover, these systems offer the flexibility of dismantling if required, providing adaptability for future changes or modifications. These structures can be custom-made according to the specific plans, accommodating varying shapes, sizes, and designs to meet the exact needs of customers.
