Key Differentiators with High Barriers to Entry

High Value-Added Wire Player

- Leader in high-voltage power transformers including HVDC and 765kV
- Majority of revenue comes from specialized magnet winding wires (75%)
- Higher EBITDA per ton
- Strong track record of providing high-voltage power transformers (765kV, traction motors, reactors)

Embedded in Critical Infrastructure Ecosystem

- Approved supplier to Power Grid, NTPC, NPCIL, RDSO
- Multi-year qualification cycles create entry barriers
- Long-standing OEM relationships (local and global transformer leaders)

Recurring and Sustainable Business Model

- Copper fully passed through
- Absolute EBITDA per ton structurally stable
- Margin % fluctuation is denominator effect, not profitability erosion

Diversified Yet Deep Customer Base

- Top 10 contribution declining (de-risking)
- High repeat business
- Ability to cross-sell across transformer & motor divisions and geographies

Combination of technical capability + regulatory approvals + specialized product mix creates structural differentiation, not cyclical advantage.

Raw Material Pass - Through Mechanism Supporting Stable Profitability

Copper-Linked Revenue Model - Margin Mechanics

Pricing Structure

Revenue = Copper Price (Pass-Through) + Value-Add

- Copper component is fully linked to market prices
- Value-add component is fixed per ton

If Copper Prices Increase ↑

- Revenue increases
- EBITDA margin (%) declines (denominator increases)
- Absolute EBITDA per ton remains stable

If Copper Prices Decrease ↓

- Revenue decreases
- EBITDA margin % improves (denominator decreases)
- Absolute EBITDA per ton remains stable

What Happens When Copper Prices Move?

An EXAMPLE: Impact of Changes in Price of Copper

('000/ton)	800 k/ton	900 k/ton	1,100 k/ton
Revenue (Copper)	800	900	1,100
Value Addition/ton*	100	100	100
Operating cost/ton*	40	40	40
EBITDA/ton	60	60	60
EBITDA%	7.5%	6.7%	5.5%

Copper price movements affect EBITDA Margin (%), not absolute EBITDA per ton.

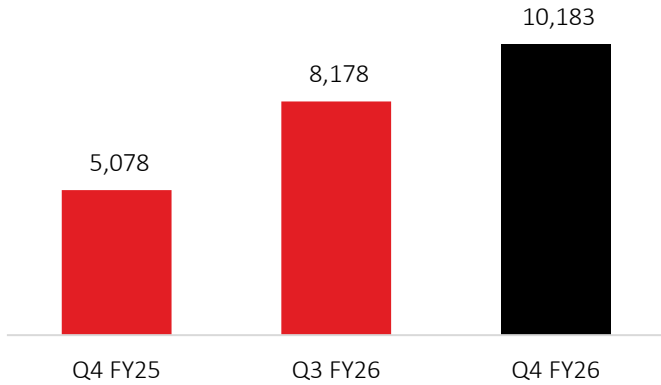

* Value Addition of Rs 100k/ton and operating cost of INR 40k/ton assumed for illustrative purposes.
