H2 FY26 & FY26 INVESTOR PRESENTATION

Mr. Ravindra Singh

Chairman & Managing Director

"FY26 has been a landmark year for Indian Phosphate Limited as we delivered strong growth across revenue, EBITDA and profitability. Our focus on operational excellence, efficient capacity utilization and disciplined cost management enabled us to achieve significant margin expansion despite a dynamic industry environment. We remain committed to strengthening our market presence, enhancing product offerings and creating sustainable value for all stakeholders. With favorable industry fundamentals and our continued investment in growth initiatives, we are confident of sustaining our growth momentum in the coming years."

DISCLAIMER

This presentation and the accompanying slides (the Presentation), which have been prepared by Indian Phosphate Limited solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment what so ever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded. Certain matters discussed in this Presentation may contain statements regarding the Company's market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantee of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict.

These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company's ability to successfully implement its strategy, the Company's future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company's market preferences and its exposure to market risks, as well as other risks. The Company's actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third-party statements and projections.

COMPANY & BUSINESS OVERVIEW

BUSINESS OVERVIEW

*One of the leading Manufacturers of
Chemicals & Fertilizers with
Integrated Plant operations*

Indian Phosphate Limited (NSE Emerge: IPhL) is a leading producer of chemicals (Anionic surfactant & Inorganic chemicals) and Phosphatic fertilizers having manufacturing operations in the state of Rajasthan & Tamil Nadu with over 25 years of rich industry experience. The Fertilizers are having strong market presence under the well established "Ankur SSP" brand across majority states of India.

VISION & MISSION

Vision

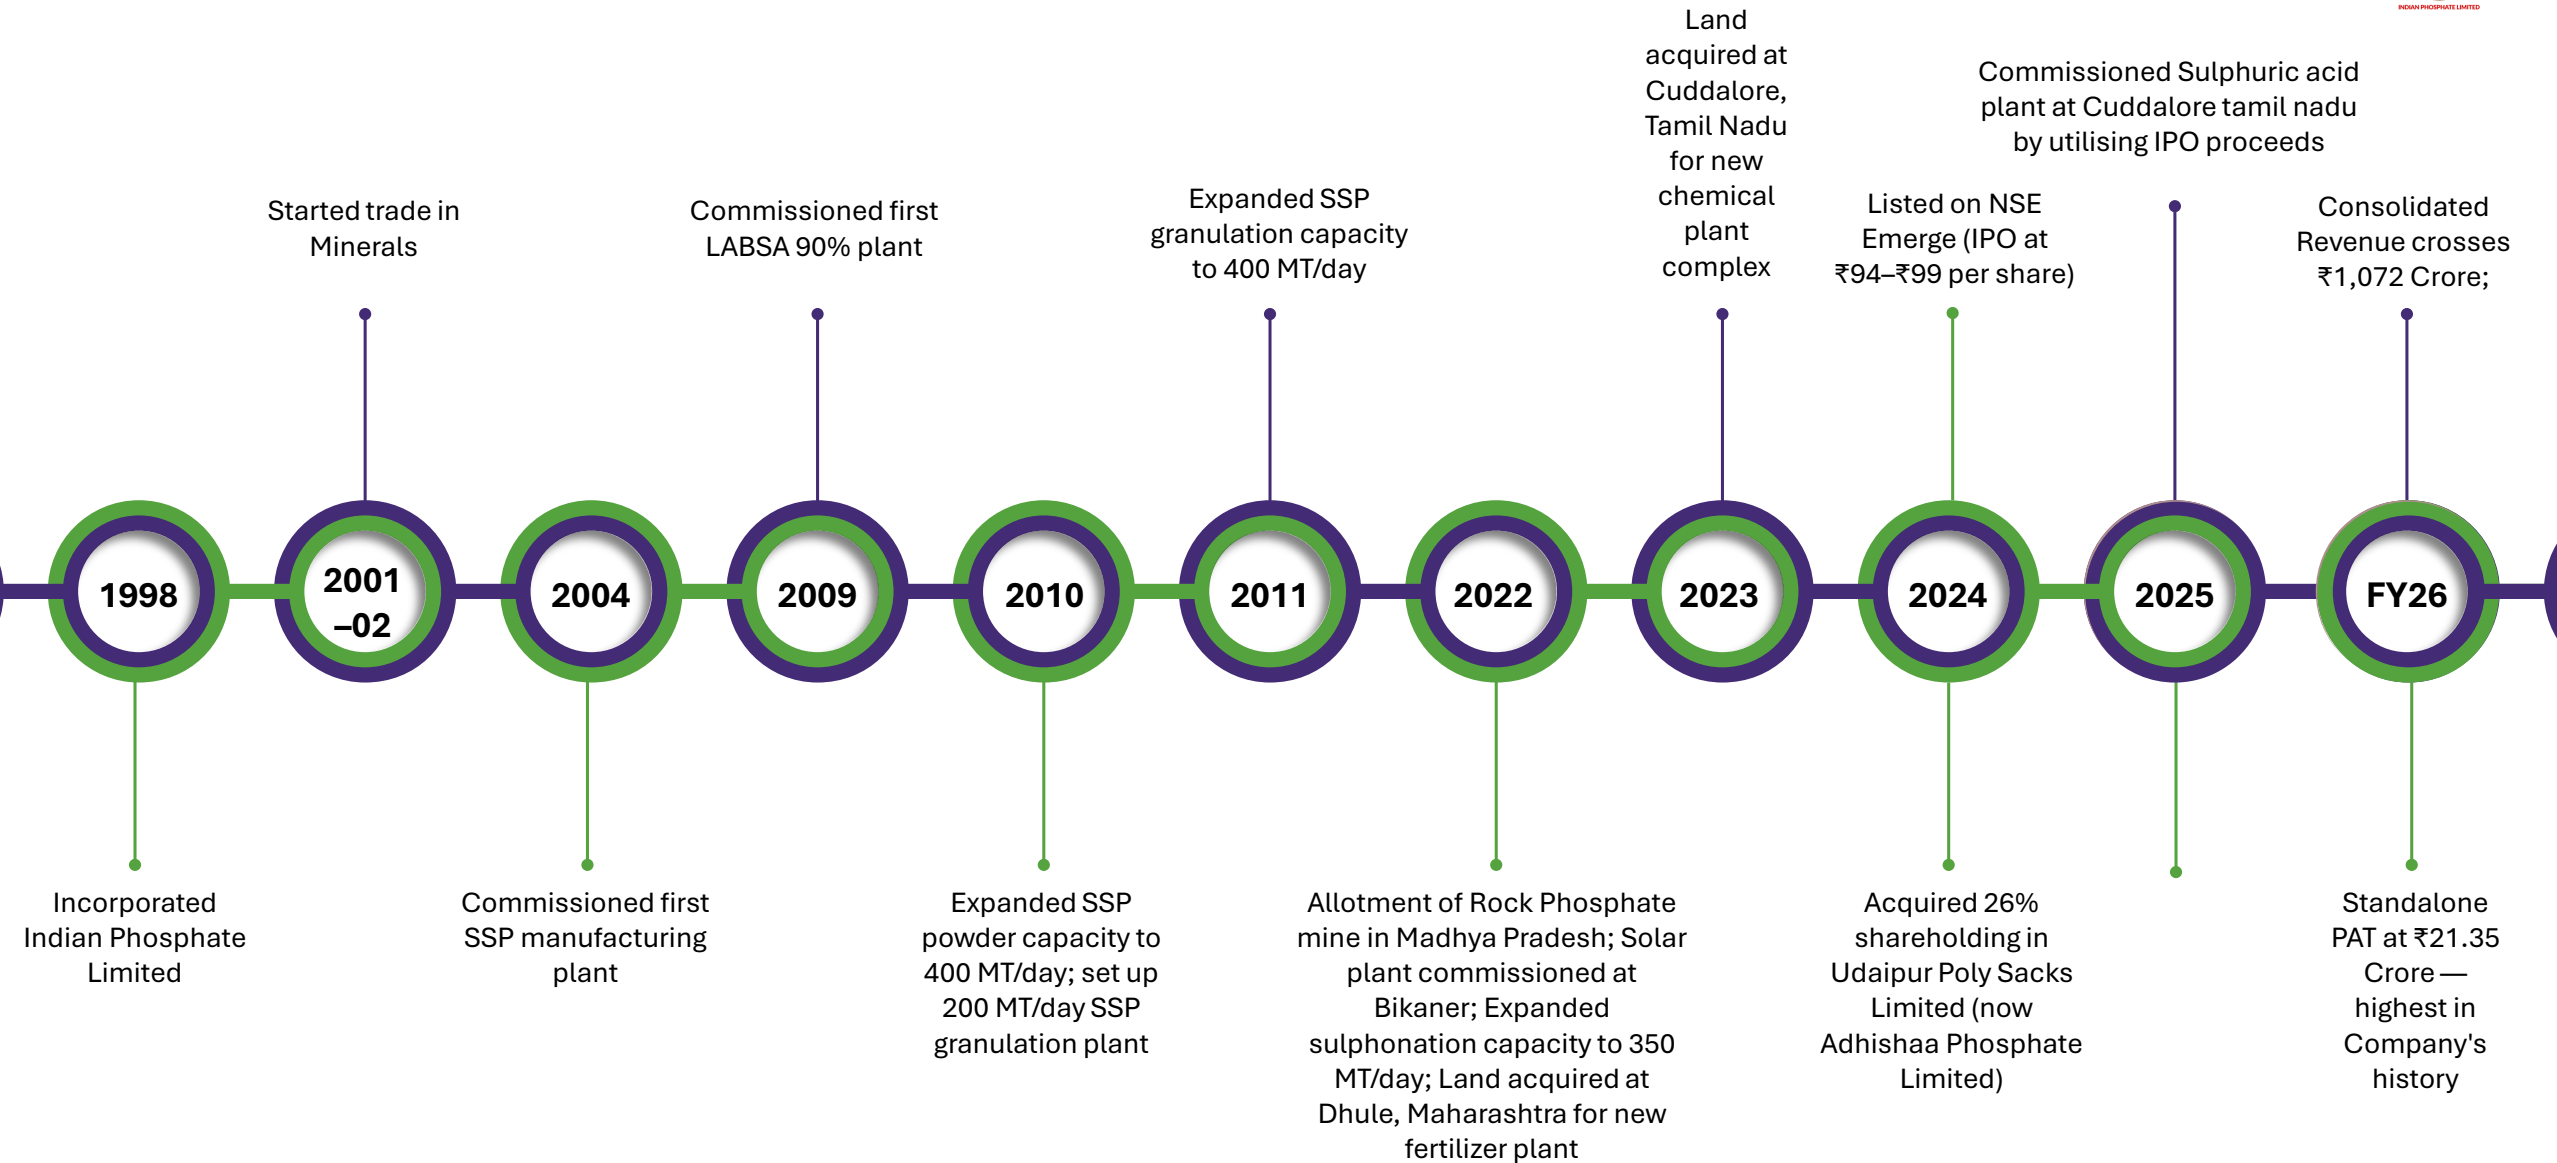

To create value for all stake holders through organic & sustainable growth with continuous innovation

To comprehend & fulfil customer needs by leveraging our manufacturing expertise, supported by robust research & development programmes that integrate innovations into our growth journey.

Mission

MILESTONES

PRODUCTS OVERVIEW - FERTILIZER

Building Soil Health Through Phosphatic Nutrition

Indian Phosphate manufactures and markets a range of **Single Super Phosphate (SSP)** fertilizers under its established "**Ankur SSP**" brand. The products are designed to improve soil fertility, enhance phosphorus availability, and increase crop productivity across a wide range of agricultural applications.

The Company supplies SSP products through an extensive dealer network across Northern and Western India, catering to farmers growing oilseeds, pulses, cereals, and commercial crops.

PRODUCTS OVERVIEW - FERTILIZER

SSP Powder

- Cost-effective phosphatic fertilizer
- Improves root development and crop establishment
- Suitable for broad-acre agricultural applications

SSP Granules

- Uniform nutrient distribution
- Better handling and application efficiency
- Preferred for mechanized farming practices

Zincated SSP

- Enriched with Zinc micronutrients
- Helps address Zinc-deficient soils
- Supports improved crop growth and yield

Zincated SSP Granules

- Combines phosphorus and zinc nutrition
- Enhanced nutrient utilization
- Easy field application

Boronated SSP

- Fortified with Boron and Zinc
- Suitable for oilseeds, pulses, fruits, and vegetables
- Improves flowering, fruit setting, and crop quality

Nitro Super Urea SSP Granulated

- Supports vigorous vegetative growth and strong root development.
- Enhances nutrient uptake, leading to improved crop productivity.
- Suitable for a wide range of field crops, cereals, and cash crops.

KEY HIGHLIGHTS

Brand Presence

- Marketed under the well-established **Ankur SSP** brand
- Provides both **Phosphorus and Sulphur** nutrients
- Cost-effective alternative among phosphatic fertilizers
- FCO-compliant product portfolio

Manufacturing

- SSP Powder Capacity: **400 MT/day**
- SSP Granulation Capacity: **400 MT/day**
- Integrated manufacturing facilities located in Udaipur, Rajasthan

Distribution Reach

Rajasthan	Uttar Pradesh	Haryana	Chandigarh
Punjab	Gujarat	Maharashtra	Jammu & Kashmir
Madhya Pradesh	Bihar	Uttarakhand	West Bengal
Himachal Pradesh	Andhra Pradesh		

PRODUCTS OVERVIEW - CHEMICAL

Specialty Chemicals Driving the Company's Growth

Indian Phosphate's chemical business is anchored by Linear Alkyl Benzene Sulphonic Acid (LABSA 90%), one of the most widely used surfactants in the detergent and home care industry. The Company is among the leading LABSA manufacturers in Rajasthan and supplies to FMCG (Detergent) sector across India. The Company also manufactures inorganic chemicals in Tamil Nadu, catering to diverse segments like surfactant, performance chemicals, micro nutrient fertilizers, automotive batteries. The Company's chemical segment is the fastest growing business and contributing to the significant part of the Company's revenue, forming the cornerstone of Company's growth strategy.

PRODUCTS OVERVIEW - CHEMICAL

LABSA 90% (Flagship Product)

Linear Alkyl Benzene Sulphonic Acid (LABSA) is an anionic surfactant widely used as the active ingredient in:

- Detergent powders
- Laundry liquids
- Dishwashing products
- Toilet cleaners
- Industrial cleaning formulations
- Textile processing applications

Sulphuric Acid (Backward Integration)

Sulphuric Acid is a key raw material for LABSA manufacturing and plays a critical role in the Company's integrated chemical value chain.

- Benefits:
- Enhances raw material security
- Reduces operating costs
- Improves margin profile
- Supports captive consumption requirements

★ Magnesium Sulphate (Proposed Product)

Strategic forward integration into Magnesium Sulphate to expand the specialty chemical portfolio and strengthen product offerings across industrial and agricultural applications.

KEY HIGHLIGHTS

Current Capacity

Udaipur LABSA: 350 MT/day
Cuddalore LABSA: 100 MT/day
Sulphuric Acid: 200 MT/day

Primary Revenue Driver

Contributed ~87% of product revenue in FY26

Strong Customer Base

Supplies to leading detergent and FMCG manufacturers.

Integrated Manufacturing Strategy

- Sulphuric Acid → LABSA Value Chain
- Enhanced cost competitiveness
- Improved operational efficiencies

Pan-India Market Presence

Direct B2B supply model across multiple industrial clusters

Rationale**

WHY INDIAN PHOSPHATE ?

Integrated Value Chain

Key Advantages

Established ANKUR SSP Brand

NABL Approved Laboratory

Strong Manufacturing Base

Backward Integration Initiatives

Diversified Revenue Streams

Pan-India Distribution Reach

Cost Effective sourcing and Strategic Location of Manufacturing Unit

Over three decades of manufacturing and marketing experience has optimized:

1. Cost-efficient sourcing,
2. Maximizing sales revenue
3. Reduce operational costs,
4. The company location offers a competitive advantage in North, North-West, Central and south Indian markets.

Quality assurance

The company has a well-equipped testing division and an in-house NABL approved laboratory, which:

1. Closely monitors and approves the final product.
2. Raw material consignments are also under quality control
3. Ensures satisfactory customer performance.

Leveraging the expertise of Promoters and the Management Team

The founder Promoters has over three decades of experience in manufacturing and marketing Single Super Phosphate. This help us in:

1. Capitalize on market opportunities
2. Mitigate risks like competition and the global economic crisis.
3. Identify bottlenecks and correct them

Backward integration and Diversification

The expansion steps include:

1. Manufacture Sulphuric Acid which is also a backward integration for LABSA 90% manufacturing.
2. The company will have leverage of captive Mine with manufacturing of its Fertilizer.
3. Venture into manufacture of NPK complex Fertilizer.

Broaden and Deepen the Geographical Presence

The company intend to expand market penetration and increase market share

1. Reach new markets/ geography as well as increase the customer base.
2. Identify new sectors for the chemical produce.
3. Partnering with enterprises for logistics and reach

Build-up a professional team for future expansion

The future expansion need a strong team of professionals.

1. Identifying and engaging young talent and experienced professionals for their new plants,
2. Building up value-added and technical team to chart the growth trajectory for the next five years.

Optimal Utilization of Resources

The company is committed improving our manufacturing process and increasing service activities to optimize business processes. They have invested in

1. Customized systems
2. Regular analyzing of existing policies
3. Enhancing efficiency and maximizing resource utilization.

STRENGTH

- Experienced Promoter
- Professionally Qualified and experienced Team

Backward integration into production of Sulphuric Acid at Tamil Nadu (raw material for LABSA 90%)

- Quality Services
- NABL approved laboratory

S

OPPORTUNITIES

- Venture in New Business Vertical
- Backward integration into mining of rock phosphate (raw material for SSP)
- To manufacture NPK fertilizers, covering the entire Phosphatic fertilizer range

O

WEAKNESS

- Dependency on government fertilizer subsidy policy
- High Working Capital Intensive

W

THREATS

- Global events impacting crude oil economics.
- Monsoon/Rainfall affected by El Nino, impacting crop cultivation/fertilizer usage.

T

MANAGEMENT OVERVIEW

MANAGEMENT OVERVIEW

Mr. Ravindra Singh

Chairman & Managing Director

First-generation entrepreneur with 28+ years of experience. Under his leadership, the IPhL Group has transformed from a logistics firm into one of Rajasthan's leading manufacturers of fertilizers and chemicals. He has been instrumental in diversifying into hospitality, education, mining, and renewable energy.

Mr. Rohit Paragbhai Parmar

Director & CFO

Engineer (Chemical) and MBA. Over 28 years of experience in manufacturing — Organic & Inorganic Chemicals, Pharma intermediates, Non-Ferrous Metals & Minerals, Fertilizers & Detergents, and Fiber Reinforced Engineering Plastics. Former Senior Management at Vedanta Limited across Zinc, Aluminium, and Copper businesses. Chief architect and strategist behind IPhL's quantum growth.

MANAGEMENT OVERVIEW

Mr. Rushil Arora

Director

B.A. from the University of British Columbia, Canada (2020). Leading new business development, expansion into South India and Maharashtra markets, and building a performance-driven work culture across the group.

Mr. Devendra Singh

Director

First-generation entrepreneur with 20+ years of experience in fertilizer and chemical manufacturing. Has been instrumental in the growth of IPhL's manufacturing business.

Sudheer Relan

Director

Education : Post Graduation in Marketing from FMS, University of Delhi Bachelor of Science - Punjab University, Chandigarh
Experience: 42 years +

MANAGEMENT OVERVIEW (INDEPENDENT DIRECTORS)

Mr. Purushottam Dass Siwal

Engineer & Law Graduate, Delhi University

34+ years in India's Power Sector through Ministry of Power, CEA, and Department of Atomic Energy; served as Member (Thermal), CEA & Ex-Officio Additional Secretary, GOI.

Mr. Hatim Hussain

*Chartered Accountant,
Company Secretary & Certified
Forensic Auditor*

experience in Risk Advisory Services at Ernst & Young LLP.

Ms. Rohini Avchar

*Chartered Accountant & Company
Secretary*

practising in secretarial, direct & indirect taxation, and financial management; visiting faculty at ICSI, Udaipur.

Mr. Shailesh Jain

Company Secretary & Law Graduate

practising in secretarial; visiting faculty at ICSI, Udaipur.

Hemang Mehta

Independent Director

Education : Graduate, Company Secretary, LLB (General & Special)

Experience : More than 30 years
