Dear Sir,

Re: Clarification relating to a news article appeared in the Economic Times January 4, 2021 edition under headline "Lenders receive far fewer loan recast requests than anticipated".

We refer to the subject news article which has a reference of the Company allegedly approached the lenders for loan recasting.

We state that such reference is factually incorrect and baseless and the Newspaper has inserted the reference of the Company in the aforesaid news article without confirming the facts from the Company.

We state and confirm that the IRB Group is regular in its debt repayments, have healthy cash flow position and none of the IRB Group entities have approached any of its Lenders for any debt recast.

The Company has also informed the Newspaper to issue suitable rejoinder immediately to its readers to appraise them about the facts in this regard.

This is for your information and record.
