QUICKLY.

Sun TV Q1 PAT rises
17 per cent to ₹619 cr

Chennai: Sun TV Network Ltd reported a 17 per cent uptick in net profit at ₹619 crore in Q1 FY27, against ₹529 crore in the corresponding quarter last year. Revenue from operations was up 13 per cent at ₹1,458 crore (₹1,290 crore). The Board of Directors also declared an interim dividend of ₹5 per share (100 per cent). **OUR BUREAU**

Vadilal Industries Q1
net profit jumps 96%

Ahmedabad: One of India's largest ice-cream manufacturers, Vadilal Industries Ltd reported a 95.5 y-o-y growth in consolidated net profit attributable to owners at ₹131 crore for the first quarter of FY27, supported by strong growth in revenue from operations. The group is primarily engaged in the food business. **OUR BUREAU**

'Despite headwinds, exports up by about 15% in April-July'

TRADE AVENUES. Nine FTAs finalised in last four years will open up big markets: Goyal

Our Bureau
New Delhi

Despite global economic uncertainties, India's exports surged by about 15 per cent during the April-July period of the current fiscal, according to Commerce and Industry Minister Piyush Goyal.

The Minister added that the nation is on track to hit \$1 trillion export target for goods and services in 2026-27, up from \$863 billion in 2025-26.

"During the first four months of this fiscal, about 15 per cent growth is seen in exports," he said on Wednesday. The final exports and import numbers for July will be released on August 13.

Today's \$4 trillion economy is set to become at least a \$30 trillion economy by the year 2047

PIYUSH GOYAL
Commerce Minister

The Minister said the nine free trade agreements (FTAs) finalised by India in the last four years will open up big markets for the domestic industry. These nine pacts together account for about two-thirds of world trade.

"The whole world is witnessing India's emerging

strength. The whole world wants to establish trade ties with India. Today's \$4 trillion economy is set to become at least a \$30 trillion economy by the year 2047," he said.

The nine FTAs mentioned by Goyal span 38 countries. The pacts are with Mauritius, the UAE,

Australia, the EFTA bloc (Switzerland, Iceland, Norway, Liechtenstein), the UK, Oman, New Zealand, the EU and the US (only a framework to an interim deal has been signed with the US).

During April-June this fiscal, India's goods exports increased 15.92 per cent to \$129.32 billion, while imports rose 19.89 per cent to \$216.18 billion.

Merchandise trade deficit in April-June 2026-27 was \$86.86 billion, compared to \$68.75 billion in the same period last year.

With the West Asian crisis continuing to put pressure on freight and insurance cost for India's shipments to the region as well as Europe, exporters' profits have taken a hit.

Gokaldas Exports reports 7% profit rise in first quarter

Our Bureau
Bangalore

Textile manufacturer Gokaldas Exports reported a 7 per cent y-o-y increase in profit after tax (PAT) to ₹44 crore for the first quarter of FY27, while total income rose 21 per cent to ₹1,180 crore.

"The growth came despite a 12 per cent y-o-y decline in Indian apparel exports during the quarter, with Gokaldas benefiting from higher order execution and realisations in its India business. Total income from India grew 16 per cent y-o-y."

The firm's Africa business was another key growth driver, with income rising 45 per cent y-o-y.

"Better order execution in India and higher volume in Africa led to a strong income growth in the quarter," said Sivaramakrishnan Ganapathi, VC and MD, Gokaldas Exports.

MDR: FinMin mulls selective levy and tiered sops to end subsidising industry's UPI cost

Shishir Sinha
New Delhi

The Finance Ministry has told a Parliamentary panel that two options related to Merchant Discount Rates (MDR) are being considered to sustain the Unified Payment Interface (UPI) ecosystem and reduce the burden on the exchequer.

The panel cautioned that delay in operationalising enabling statutory provision for levying the MDR on high-value transactions might have serious repercussions.

TWO OPTIONS

"Given the sustainability of the UPI ecosystem and the burden on the government exchequer, the Department is currently exploring two options. First, examining the feasibility of restoring MDR for certain high threshold transactions/merchants; and, second, a tiered incentive structure to phase out government support in the next few years," the Financial Services Department of the Finance Ministry said in a written submission to the Standing Committee on Finance.

From January 2020, zero MDR was announced on all UPI (P2M) transactions to accelerate digital payment adoption and encourage a shift from cash to digital.

In its submission, the Department said the zero

MDR policy had eliminated the core revenue streams for the UPI ecosystem.

To mitigate this and also to encourage banks and other ecosystem participants to promote digital payments, the government has been implementing the incentive scheme.

Accordingly, for FY 2026-27, a Budget provision of ₹2,000 crore was made against an estimated ₹2,700 crore incurred by the industry (that is, at the rate of ₹1.38 per transaction multiplied by total P2M transactions of 15,000 crore recorded last year).

Further, it submitted that the incentive is paid in reimbursement mode only after the completion of transactions' submission of data by banks.

NEGATIVE LIST

Last week, Parliament approved an amendment to the Payment and Settlement Act as part of the Taxation and Other Laws Amendment Bill.

This empowers the government to notify a list of electronic modes of payment to be exempted from any charge. Excluded modes will attract MDR for which threshold, rates, etc., will be notified.

Finance Minister Nirmala Sitharaman has already clarified that no charge is to be levied on consumers and small businesses.

RBI unveils draft directions on interest rates on loans for all lenders

Our Bureau
Mumbai

The RBI on Wednesday released draft directions on "Interest Rates on Loans and Advances", prescribing a principles-based framework for determination of interest rates on both fixed rate and floating rate loans, commensurate with the nature, complexity, and scale of the operations of the lenders.

The Reserve Bank of India (Interest Rates on Loans and Advances) Directions, 2026-Draft, which is proposed to be made effective from April 1, 2027, requires lenders to have a comprehensive policy on interest rates on loans and advances, approved by

the Board of Directors or a committee of the board to which such powers have been delegated by the board.

"This policy has to lay down various aspects related to pricing of loans, including microfinance loans. Such aspects will include the methodology for determining interest rates, including defining the internal bench-

mark, the components of the spread, the loan categories or types, and the pricing for loan pricing. The policy shall be reviewed at least annually," according to the draft directions.

TO WHOM IT APPLIES

The proposed directions will apply to all major domestic lenders (regulated entities/

REs), including commercial banks, regional rural banks, urban cooperative banks (UCBs), rural co-operative banks (RCBs), all-India financial institutions and non-banking financial companies, including housing finance companies.

All existing loans and advances taken up by any internal or external benchmark shall be migrated to the interest rate framework prescribed in these directions by April 1, 2029, through a one time mapping exercise.

Such mapping shall be carried out with the consent of the borrower without putting the borrower in a disadvantageous position in terms of interest rate applicable to the borrower.

Protein products emerge as expansion engine for Milky Mist

Our Bureau
Chennai

Expansion of its protein products category, along with geographical expansion, is a potential growth avenue for Milky Mist Dairy Food Ltd, with executives saying the company plans to use the funding proceeds from its ongoing initial public offering (IPO) to support these initiatives.

The Erode, Tamil Nadu-based dairy firm has already initiated a project to extract protein from cheese whey, a byproduct of cheese making, and convert it into protein-based products, K Rathnam, Whole-time Director and COO, Milky Mist, said at a roadshow here for the company's IPO.

The ₹1,553 crore IPO comprises a fresh issue of ₹1,428 crore and an offer for sale of ₹125 crore. The issue that opened on Tuesday will close on Thursday and at the end of second day, the IPO was subscribed 2.17 times.

As part of its product line expansion, Milky Mist plans to install a fully automated yoghurt manufacturing plant with a capacity of 60 tonnes per day.

The facility will have an integrated packing line capable of handling multiple packaging configurations with a packing capacity of 21,600 containers per hour, according to the RHP.

The investments will ex-

T Sathishkumar (left), CMD, Milky Mist Dairy Food Ltd, and K Rathnam, Whole-time Director and CEO, at a press conference in connection with the company's IPO in Chennai. **OUR BUREAU**

pand the firm's manufacturing capabilities in categories where it already has a presence while allowing it to scale production as demand for branded and value-added dairy products increases, said Rathnam.

combination of paneer, cheese, curd, yoghurt and ice cream, enabling Milky Mist to locate production closer to consumers in western India. The company did not disclose the proposed investment for the facility.

The firm's strategy is rooted in the broader transition in India's dairy market from unbranded and commodity products to branded, packaged and value-added dairy products, said CMD T. Sathishkumar.

The strategy is to capture consumers moving from loose and unbranded dairy products towards branded offerings, where quality, convenience, consistency and product innovation is important, he said.

The proposed facility is expected to manufacture a

Yokohama India eyes deeper play in OEM supply segment

Rohan Das
Visakhapatnam

Yokohama India, a wholly owned subsidiary of Japanese tyre giant Yokohama Rubber Co is actively looking to expand its presence in the Original Equipment Manufacturer (OEM) tyre supply segment.

OEM supply involves tyre makers supplying directly to auto companies for newly manufactured cars.

Yokohama's India business has predominantly been in the after market segment where vehicle owners replace tyres in their cars. The company holds a market share of about 10 per cent in this segment.

Speaking to businessline, Anil Gupta, Vice Chairman, Yokohama India, said that being a relatively new entrant in the country, the company's business share from OEM is still fairly low, without giving exact figures. Industry estimates peg Yokohama's OEM business at roughly 5-10 per cent.

"It takes time to grow the

(From left) Harinder Singh, MD and CEO, Yokohama India; Nitin Mantri, Chairman and Anil Gupta, Vice-Chairman

OEM businesses. When you discuss with partners you are not planning for their current lineup of cars but for models that will be launched 3-4 years later. We are in discussions now and hopefully some will materialise soon."

Gupta was speaking to businessline on the sidelines of Yokohama's new Geolander X-CV tyre launch in Visakhapatnam on Wednesday.

Yokohama India is expected to grow at 18 per cent in 2026, after posting similar growth in 2025, Gupta said that the growth rate is the highest in the Indian organised tyre market.

PREMIUM TYRES

At a press conference, Nitin

(OHT) business, with separate manufacturing facilities in Gujarat, Tamil Nadu and Visakhapatnam and an under construction unit in Odisha. Overall, the company has

invested around \$700 million-\$800 million across all of these units.

The writer was in Visakhapatnam at the invitation of Yokohama India.

DDA approves UBBL-2016 amendments to simplify building plans

PIONEER NEWS SERVICE
■ New Delhi

The Delhi Development Authority (DDA) on Wednesday approved amendments to Unified Building Bye-Laws (UBBL)-2016 to simplify the building plan to reduce compliance burden and improve Ease of Doing Business at the meeting chaired by the Lieutenant Governor Taranjit Singh Sandhu on Wednesday.

Apart from this, important decisions included the policy for reconstruction and redevelopment of old DDA-built two-storey units and the change of land use for the

development of the Metro Depot of the Rithala-Kundli Corridor in Narela Sub-City for expansion of the metro corridor. The meeting was attended by DDA vice chairman N. Saravana Kumar, chief secretary Rajiv Verma, and other members of the Authority.

In a statement, the DDA said the Authority has approved amendments to Unified Building Bye-Laws (UBBL)-2016 to simplify the building plan approval process. It seeks to de-link the prior requirement of obtaining No Objection Certificates (NOCs) from the Delhi Pollution Control Committee (DPPCC), Chief Inspector of Factories (CIF),

Delhi Jal Board (DJB) and Forest Department for obtaining building permits. This reform is aimed at reducing procedural delays and enabling faster project approvals.

Addressing a long-standing demand from residents and public representatives, the Authority approved a comprehensive policy enabling the reconstruction and redevelopment of DDA-built two-storey dwelling units on individual plots in older housing schemes (such as Naraina Vihar) and extending it across all similarly placed schemes in Delhi.

Developed under MPD-1962, several old DDA housing

schemes consist of built-up two-storey units on individual plots that are over 50 years old and structurally deficient. While vacant residential plots have clear redevelopment guidelines under prevailing MPD norms, built-up two-storey units lacked a uniform framework. With this approval, built-up two-storey units are now granted redevelopment rights on par with vacant residential plots.

Reconstruction will be governed by plot size, prevailing MPD provisions, structural safety certifications, and compliance with Unified Building Bye-laws, applicable FAR, ground coverage, height norms, and fire safety requirements. The redevelopment will be subject to applicable conversion charges, betterment levy (where applicable), and scrutiny fees, among others.

For expansion of metro corridor in the Narela and adjoining areas, the Authority has approved change of Land Use (CLU) of land measuring 19.63 Ha. from "Recreational" and "Public & Semi Public (PSP)" to "Transportation" for development of Metro Depot of Rithala-Kundli Corridor in Narela Sub-City (Zone P-I).

The extension of the Delhi Metro Red Line from Rithala to Kundli shall be a transformative project designed to strengthen urban mobility and regional integration with the approved Metro Depot acting as its epicentre. The metro line extension is expected to provide seamless connectivity and reduce travel time for thousands of daily passengers who currently rely on congested road networks by directly linking North West Delhi, Rohini and Narela Sub-Cities with Haryana.

This improved access is expected to stimulate development in the sub-cities, serving DDA's new residential

projects, the proposed University Hub at Narela Sub-City which falls along the route while also attracting investments in residential, hospitality, retail, and services. In addition, the metro extension will also give a boost to regional economic growth by creating job opportunities tied to improved infrastructure.

This extension will be a transformative step toward better urban mobility and regional integration. The approved proposal will be sent to the Ministry of Housing and Urban Affairs for the issuance of the final Gazette Notification.

Delhi University announces Spot Round-I for UG admissions

PIONEER NEWS SERVICE
■ New Delhi

Delhi University on Wednesday announced the schedule for spot admission Round-I for undergraduate programmes under the Common Seat Allocation System (CSAS) 2026-27, along with schedules for other undergraduate categories, BTech and post-graduate programmes.

The university said candidates who applied for CSAS (UG)-2026 but were not admitted to any college as on August 22 will be eligible to participate in the spot admission Round-I.

Vacant seats for the spot round will be displayed on August 23, following which the eligible candidates can apply through their dashboards till 11.59 pm on August 24. The allocated seats will be declared thereafter, which the candidates will have to accept between August 25 and August 27.

Colleges will verify and approve the applications till 4.59 pm on August 28, while the last date for payment of admission fees is August 29.

The university said candidates participating in the spot round will have to compulsorily take admission to the seat allocated to them. There will be no option of upgrade or withdrawal during the spot admission rounds, and the seat allocated in a particular spot round will be final.

The schedule also includes the upgrade Round-II and Round-III for children/widows of personnel of the armed forces

(CW), ECA, sports and performance-based programmes, including music, bachelor of fine arts (BFA) and physical education, health education and sports (PE, HE&S).

Candidates will get an upgrade and preference-reordering window on August 16 and 17, while declarations and acceptance of allocations for these categories will follow as per the university's schedule.

For BTech programmes, the university has announced a mid-entry window for fresh candidates from August 13 till 4.59 pm on August 14.

Spot admission Round-II will be declared on August 17, with candidates required to accept allocated seats between August 17 and August 19. Round-II allocations under the CVW and ward quotas will be declared on August 18, with candidates required to accept the allotted seats by 4.59 pm on August 19.

Preity Zinta gets emotional at Hindu College, says she is proud to be Indian

ABHINAV KUMAR JHA
■ New Delhi

The auditorium at Hindu College was full before she arrived. Students had been waiting since morning, some with phones already raised, ready. When Preity Zinta walked in, the room did what rooms full of young people do when someone from another world enters theirs. It got loud. But what happened after the noise settled was something quieter and more unexpected. She got emotional. And so, a little did they. Zinta was at the University of Delhi on Wednesday to speak about Batwara 1947, the partition film directed by Raj Kumar Santoshi that releases on August 14, one day before Independence Day.

She spoke about the film, about the story it tells, and about partition being a chapter of history that Indian cinema has largely avoided turning into mainstream drama. But then she said something that had nothing to do with the film's promotions. She said she is proud to be born in India. She said the

kind of opportunity and freedom this country gives is immense. She said she can be everything here. She can be an actor and an entrepreneur. She said that this, the ability to be everything at once, is possible in this country. The students listened to this from a woman who actually did both, who built a career in films and then built a business in cricket, and who has lived enough of her life outside India to know what the comparison looks like.

Batwara 1947 is Raj Kumar Santoshi's adaptation of Asghar Wajahat's play about the partition's human cost,

shaped around a character named Sikandar Mirza, played by Sunny Deol, a man who leaves his home in Lucknow to settle in Lahore as violence grips the subcontinent. At an allocated mansion in Lahore, he finds an old Hindu woman still living inside and vows to protect her from extremists. Santoshi has said Mirza is the most courageous character he has written. The film also stars Shabana Azmi, Karan Deol, Ali Fazal, and Abhimanyu Singh.

The reunion between Santoshi and Sunny Deol, who previously made Ghayal in 1990, Damini in 1993, and Ghatak in 1996, has been nearly three decades in the making. Santoshi had narrated the script to Sunny as early as 2010. Producers took years to come around. It was Gadar 2's success that finally opened the door. Sunny has said that before Gadar 2, the industry did not believe the two of them were commercially sellable.

Zinta, speaking to students and press on Wednesday, said the film has unique elements. There are not many partition-based stories made

in Indian cinema, she said, and this one has something worth telling. She urged the audience to watch it. "Through your platform, we would like to encourage audiences to watch it because it is a wonderful and meaningful film. It is a movie that has a strong message and is worth watching by all," she said.

The film releases on August 14, the day before India turns 79.
