10-year benchmark G-Sec yield vaults over 6.5 per cent

PURCHASE ACTION. But RBI intervention ensured that it closed at 6.48 per cent

K Ram Kumar
Mumbai

Yield of the 10-year benchmark Government Security (G-Sec) breached the 6.5 per cent mark on Wednesday for the first time after it was issued in May 2025. This came amidst a dip in net direct tax collection in the fiscal so far, triggering speculation in the bond market that the government may borrow more in FY26 to make up for a possible shortfall in revenue collection.

The RBI is believed to have intervened in the G-Sec market once yield of the 6.35 per cent GS 2035 went up to the 6.51-6.52 per cent level. Its purchase action ensured that yield of this security closed a shade lower at 6.48 per cent against the previous close of 6.49 per cent.

Net direct tax collection fell 3.95 per cent year-on-year (y-o-y) this fiscal till August 11, to ₹6.64 lakh crore, mainly due to higher

refunds.

TARIFFS AND INFLATION

Referring to RBI Governor Sanjay Malhotra's recent comments that the bar for cutting rates has gone up following the change in monetary policy stance to neutral (from accommodative) and the cumulative 100 basis points (bps) repo rate cut during the February-June

2025 period working its way through the economy, market players say the wait for the next rate cut may have got longer.

They reasoned that despite a fall in retail inflation to an eight-year low of 1.55 per cent in July, the core inflation remains sticky around 4 per cent levels, even as the Central bank has to weigh the growth-inflation implic-

ations of the steep tariffs slapped by the US President on India's exports to the world's largest economy.

CHALLENGING TIMES

Dwijendra Srivastava, Chief Investment Officer - Fixed Income, Sundaram AMC, observed that the US tariffs are going to be challenging for India. While there could be a direct impact of 30 to 50 basis points on GDP growth, there will also be an indirect impact.

"So, overall, if growth is low, revenues are slow, the market will obviously surmise that the government probably will borrow more. So, this (expectation) is something, which I think, is building up right now," he said.

Srivastava expects a hiatus on the rates for, maybe, 12 to 18 months amid the uncertainty around the US tariffs and its implications for the economy in terms of growth, inflation and the external sector.

Following ire, ICICI Bank revises monthly minimum balance

Piyush Shukla
Mumbai

After facing major public and customer backlash, private sector major ICICI Bank has rolled back its move to steeply hike the minimum monthly average balance (MAB) requirement for new savings bank (SB) deposit customers from August 1, 2025.

"Following valuable feedback from our customers, we have revised these requirements to better reflect their expectations and preferences. We thank our customers for their continued trust and feedback, which help us serve them better," the bank said in a statement.

The MAB requirements, ICICI Bank clarified, are not applicable to salary accounts, senior citizens, pensioners, basic savings bank deposit account (BSBDA)/PMJD accounts, and accounts for people with special needs.

FINANCIAL INCLUSION

The lender had earlier hiked its MAB requirement for new depositors in metro & urban and semi-urban locations by up to five times to ₹50,000 and ₹25,000, respectively. For customers in rural locations, the MAB was raised four times to ₹10,000.

According to sources, the lender's employees — especially relationship managers — were facing negative cus-

tommer feedback with regard to the hike in MAB ceilings. The bank also faced major public backlash on social media and other public forums

for the move, which was seen as catering only to the premium customers, de-railing the financial inclusion mandate to lenders.
