Press Release

## **Inox Wind Bags 100 MW Repeat Order from Tata Power Renewable Energy Limited**

**Noida, 15<sup>th</sup> February 2016:** Inox Wind Limited, maintaining its momentum as India's leading wind power solutions provider, has bagged a repeat order for a 100 MW wind power project at Rojmal, in the state of Gujarat from Tata Power Renewable Energy Limited (TPREL). The order is TPREL's fourth project with Inox Wind taking the cumulative orders placed with Inox Wind across various sites to more than 300 MW. TPREL is a 100% subsidiary of Tata Power and has ~215 MW of commissioned renewable assets, with another 250 MW under construction/on order. Tata Power, including TPREL's capacities, has a commissioned capacity of ~600+ MW of Wind and Solar assets.

Inox Wind's Rojmal site is one of the largest wind farms in the state of Gujarat with a capacity of 400 MW. More than 140 MW of capacities are already operational at the wind park including 50 MW capacities of TPREL. The commissioned common infrastructure facilities at the site are capable of supporting power evacuation of 400 MW.

As part of the turnkey order, Inox Wind will provide TPREL with end to end solutions from development and construction to commissioning and providing long term operations and maintenance services. The repeat order involves supply and installation of 50 units of Inox Wind's best in class 2MW DFIG 100 rotor dia Wind Turbine Generator, proving the success of Inox Wind's technology which has been developed especially for Indian climatic conditions.

Inox Wind offers its clients total wind power solutions including wind resource assessment, acquiring land, developing the entire site infrastructure, building the power evacuation system, supplying the WTGs, erection and commissioning services, long term operations and maintenance services as well as post-commissioning support.

*"The fourth order from an esteemed customer like TPREL underlines the strength of the growing partnership between the two companies and reaffirms customers' confidence in Inox Wind's 2MW platform. Repeat orders from one of the country's leading renewables players like TPREL corroborate Inox Wind's ability to provide world class technological*

solutions to its clients.” said **Mr. Kailash Tarachandani, Chief Executive Officer of Inox Wind Limited** in his statement.

*“The 100 MW expansion of the Rojmal project is TPREL’s fourth project with Inox Wind. We are confident that Inox will again deliver the project safely, timely and of top notch quality. We look forward to building a long and fruitful relationship with Inox on the strong foundation of the previous successful projects in Gujarat and Rajasthan.”* **Rahul Shah, Chief Executive Officer of TPREL** said in his statement.

### **ABOUT INOX WIND:**

Inox Wind is India’s leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Corporates and Retail Investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The plant near Ahmedabad (Gujarat) manufactures Blades & Tubular Towers while Hubs & Nacelles are manufactured at the company’s facility at Una (Himachal Pradesh). The new integrated manufacturing facility at Barwani (Madhya Pradesh) manufactures blades and will manufacture nacelles, hubs, and towers. The facility at M.P., which will be amongst the largest in the world, will double Inox Wind’s manufacturing capacity to 1,600 MW per annum.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines.

IWL offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, IWL offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.
