Press Release

Inox Wind Bags Repeat Order from Surya Vidyut Limited for 50 MW

- **Inox Wind to Install 50 MW at Rojmal in Gujarat**
- **Project to be Commissioned by December 2016**
- **Multi-Year Operations & Maintenance Contracts**

Noida, 10th August 2016: Inox Wind Limited, further strengthening its position as the country's top wind energy solutions provider, has bagged a repeat order from Surya Vidyut Limited (SVL) for a 50 MW wind power project at Rojmal, in the state of Gujarat. SVL is a wholly owned subsidiary of CESC Limited. CESC Limited is India's first fully integrated power utility engaged in the generation and distribution of electricity. The order which will be executed on turnkey basis is scheduled to be commissioned by December 2016. Inox Wind's Rojmal site is one of the largest wind farms in the state of Gujarat with a capacity of 400 MW. The common power evacuation infrastructure facilities at the site have already been commissioned.

As part of the turnkey project, Inox Wind will provide end to end solutions from development and construction to commissioning. Inox has also been contracted to undertake operations and maintenance services of the project for a multi year period, post commissioning. The order involves supply and installation of 25 units of Inox Wind's market leading 100 meter rotor dia Wind Turbine Generator.

Since their introduction in the Indian market, more than 2,000 MW of Inox's 2 MW WTG platform in multiple variants have been supplied across various sites in the country. Inox Wind offers total wind power solutions from concept to commissioning as well as providing long term operations and maintenance services.

"The order has further boosted Inox's strong order book with major corporate clients in India. An order from one of India's leading power utilities proves the competitiveness of wind power in the state of Gujarat and ensures that Inox Wind continues to play a key role in further developing the wind energy industry in the state." said **Mr. Kailash Tarachandani, Chief Executive Officer of Inox Wind Limited** in his statement.

ABOUT INOX WIND:

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Corporates and Retail Investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The plant near Ahmedabad (Gujarat) manufactures Blades & Tubular Towers while Hubs & Nacelles are manufactured at the company's facility at Una (Himachal Pradesh). The new integrated manufacturing facility at Barwani (Madhya Pradesh) manufactures blades, towers and will manufacture nacelles and hubs. The facility at M.P., which will be amongst the largest in the world, has doubled Inox Wind's manufacturing capacity to 1,600 MW per annum. The company had an order book of 1,104 MW as of March 31, 2016. Fresh orders announced add further to the outstanding order book.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines.

IWL offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, IWL offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.
