Press Release

**Inox Wind Commissions Common Power Evacuation Infrastructure in
Madhya Pradesh**

- **220 KV Sub-Station and 220 KV Transmission Line Commissioned**
- **Infrastructure facility for 200 MW power evacuation**

Noida, 28th January 2016: Inox Wind Limited, India's leading wind energy solutions provider, is pleased to announce the commissioning of the 220 KV sub-station and 220 KV transmission line at its Nipaniya site in Madhya Pradesh. The sub-station and transmission line are part of the common infrastructure facility at the site and are capable of supporting power evacuation of 200 MW. Inox Wind's Nipaniya site is one of several wind farms that the company is developing as part of the turnkey solutions it provides to its clients. Many of the leading Independent Power Producers of the country like Sembcorp Green Infra, ReNew Power and Mytrah Energy have invested in wind projects at the Nipaniya site.

The commissioning of the common infrastructure facilities at Nipaniya exhibits Inox Wind's project management and execution prowess, expands its footprint in the state of Madhya Pradesh and further strengthens the company's position as the leading wind energy solutions provider to IPPs, PSUs, Corporates, Utilities and Retail clients across India. The company's investments in infrastructure facilities for green energy demonstrate its commitment to playing a significant role in the development of renewable energy in the country. With over 600 MW of projects developed and under development in Madhya Pradesh, Inox Wind is the largest wind power solutions provider in the state.

Developing common infrastructure facilities is part of the turnkey solutions that Inox Wind provides. The company's capabilities span the entire gamut of turnkey services, from wind resource assessment, acquiring land, developing the entire site infrastructure, building the power evacuation system, supplying the WTGs, erection and commissioning services, long term operations and maintenance services to post-commissioning support.

ABOUT INOX WIND:

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Corporates and Retail Investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The plant near Ahmedabad (Gujarat) manufactures Blades & Tubular Towers while Hubs & Nacelles are manufactured at the company's facility at Una (Himachal Pradesh). The new integrated manufacturing facility at Barwani (Madhya Pradesh) manufactures blades and will manufacture nacelles, hubs, and towers. The facility at M.P., which will be amongst the largest in the world, will double Inox Wind's manufacturing capacity to 1,600 MW per annum.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines.

IWL offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, IWL offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.
