Press Release

Inox Wind Bags 100 MW Order from Leading Renewable Energy IPP

- **Inox Wind to Install 50 MW in Madhya Pradesh and 50 MW in Gujarat**
- **Orders Consolidate Inox Wind's Leading Position in the Two States**
- **Multi-Year Operations & Maintenance Contracts**

Noida, 18th April 2016: Inox Wind Limited, further strengthening its position as the country's top wind energy solutions provider, has bagged two orders for a cumulative capacity of 100 MW from one of India's leading renewable energy independent power producers. The turnkey orders comprise of a 50 MW project to be set up in Gujarat and a 50 MW project to be set up in Madhya Pradesh. The projects once commissioned will provide power to ~50,000 households, curtail ~0.15 million tonnes of carbon dioxide emissions annually and further consolidate Inox Wind's leading position in the two states.

As part of the turnkey projects, Inox Wind will provide end to end solutions from development and construction to commissioning and providing long term operations and maintenance services. The orders involve supply and installation of 25 units of Inox Wind's 100 meter rotor dia Wind Turbine Generator for the Gujarat project and 25 units of the company's 113 meter rotor dia WTG for the Madhya Pradesh project. The 113 m rotor dia WTG is the newest variant of the company's market leading 2 MW platform and has been tested to have one of the highest Generation Performance per kilowatt of all WTG variants available in India.

Inox Wind offers its clients total wind power solutions including wind resource assessment, acquiring land, developing the entire site infrastructure, building the power evacuation system, supplying the WTGs, erection and commissioning services, long term operations and maintenance services as well as post-commissioning support.

"These orders have further boosted Inox's strong order book with major IPPs in India. Orders from a leading renewable energy IPP prove the competitiveness of wind power in the states of Gujarat and Madhya Pradesh and ensure that Inox Wind continues to play a key role in further developing the wind energy industry in the two states." said **Mr. Kailash Tarachandani, Chief Executive Officer of Inox Wind Limited** in his statement.

ABOUT INOX WIND:

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Corporates and Retail Investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The plant near Ahmedabad (Gujarat) manufactures Blades & Tubular Towers while Hubs & Nacelles are manufactured at the company's facility at Una (Himachal Pradesh). The new integrated manufacturing facility at Barwani (Madhya Pradesh) manufactures blades and will manufacture nacelles, hubs, and towers. The facility at M.P., which will be amongst the largest in the world, will double Inox Wind's manufacturing capacity to 1,600 MW per annum.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines.

IWL offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, IWL offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.
