Dear Sir/Madam,

**Subject: Strategic Expansion Project Plan Presentation**

In terms of Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are enclosing herewith the "Strategic Expansion Project Plan Presentation" regarding the Company's strategic growth plans and expansion into Semiconductor Packaging and Optoelectronic solutions.

This presentation provides an overview of the Company's business operations, including its Software/SaaS divisions and the new manufacturing initiatives.

Further a copy of the same is also available on the website of the Company, viz., [www.izmoltd.com](http://www.izmoltd.com)

Kindly take the same on record.

Thanking You

Yours faithfully,  
for **IZMO Limited**

**Varun Kumar A S**  
*Company Secretary and Compliance Officer*

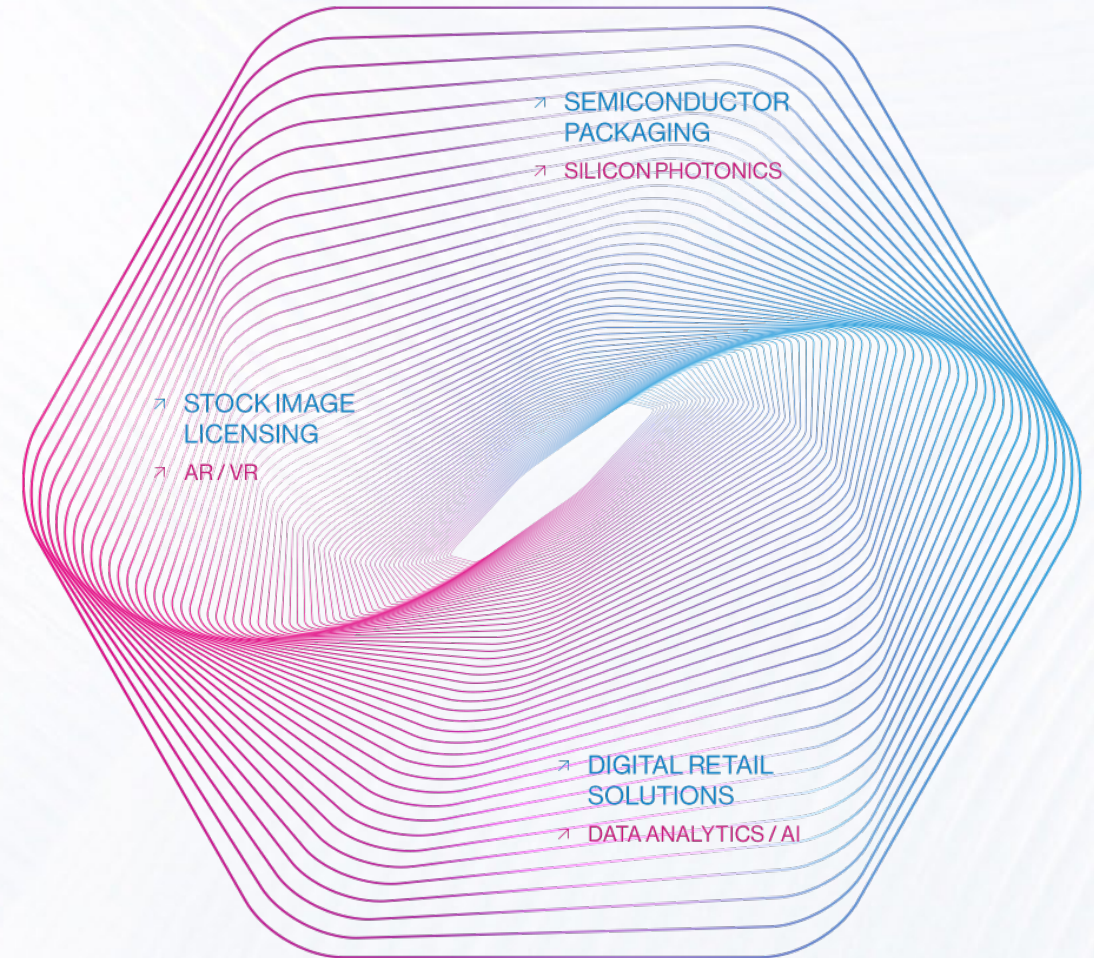

# Photonics Project Presentation

Innovating Across Automotive Digital Solutions, AI & Silicon Photonics Packaging

---

Strategic Expansion Plan

# Disclaimer

This presentation has been prepared by IZMO Limited (the “Companies”) solely for information purposes and does not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment what so ever. No offering of securities of the companies will be made except by means of a statutory offering document containing detailed information about the Companies.

This Presentation has been prepared by the Companies based on information and data which the Companies considers reliable, but the Companies makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the companies market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the companies ability to successfully implement its strategy, the companies future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the companies market preferences and its exposure to market risks, as well as other risks. The companies actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The companies assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the companies and the companies is not responsible for such third party statements and projections.

# Executive Summary

## 01 Dual-Engine Growth

A unique combination of a mature, cash-flow positive SaaS business (izmoauto/izmostock) and a hyper-growth deep-tech. venture (izmomicro). The core business funds semiconductor expansion.

## 02 Semiconductor Catalyst

Establishing India's first integrated Silicon Photonics (SiPh) Packaging Unit. Targeting the \$15B+ Optical Transceiver market driven by AI data centers (NVIDIA/AMD).

## 03 AI & Data Analytics

FrogData AI platform provides a strategic solution in the automotive sector with proprietary algorithms for predictive analytics, driving high-margin recurring revenue..

## 04 Capital Raise: Upto INR 200Cr.

Strategic fundraise via combination of equity instruments to fund specialized manufacturing equipment and R&D.

# Company Highlights

## **Established company with strong R&D credentials.**

- Proven capabilities in semiconductors in last 2 years
- Breakthrough technology in Silicon Photonics
- Explosive growth driven by AI Data Centers, with global shortage of capacity
- Project for manufacture of Optical Transceivers – critical for large Hyperscale Data Centers
- Diversified publicly listed company with strong fundamentals

## World leader in Interactive Automotive Marketing Solutions

- Founded in 1995
- Global footprint with operations in 22 countries
- Cutting-edge technology and products in Digital Retail, CRM & Data Analytics
- World's largest library of automotive stock images with global coverage
- izmo.ai platform for AI solutions for Automotive

## Business Mix

- **Automotive Solutions** – Enterprise Platform for Digital Retail, CRM for After Sales Automotive, Automotive Stock Images
- **Data Analytics** – Fully integrated platform for Decision Analytics and AI for the Automotive industry
- **Semiconductor Packaging** – Advanced packaging and Silicon Photonics manufacturing

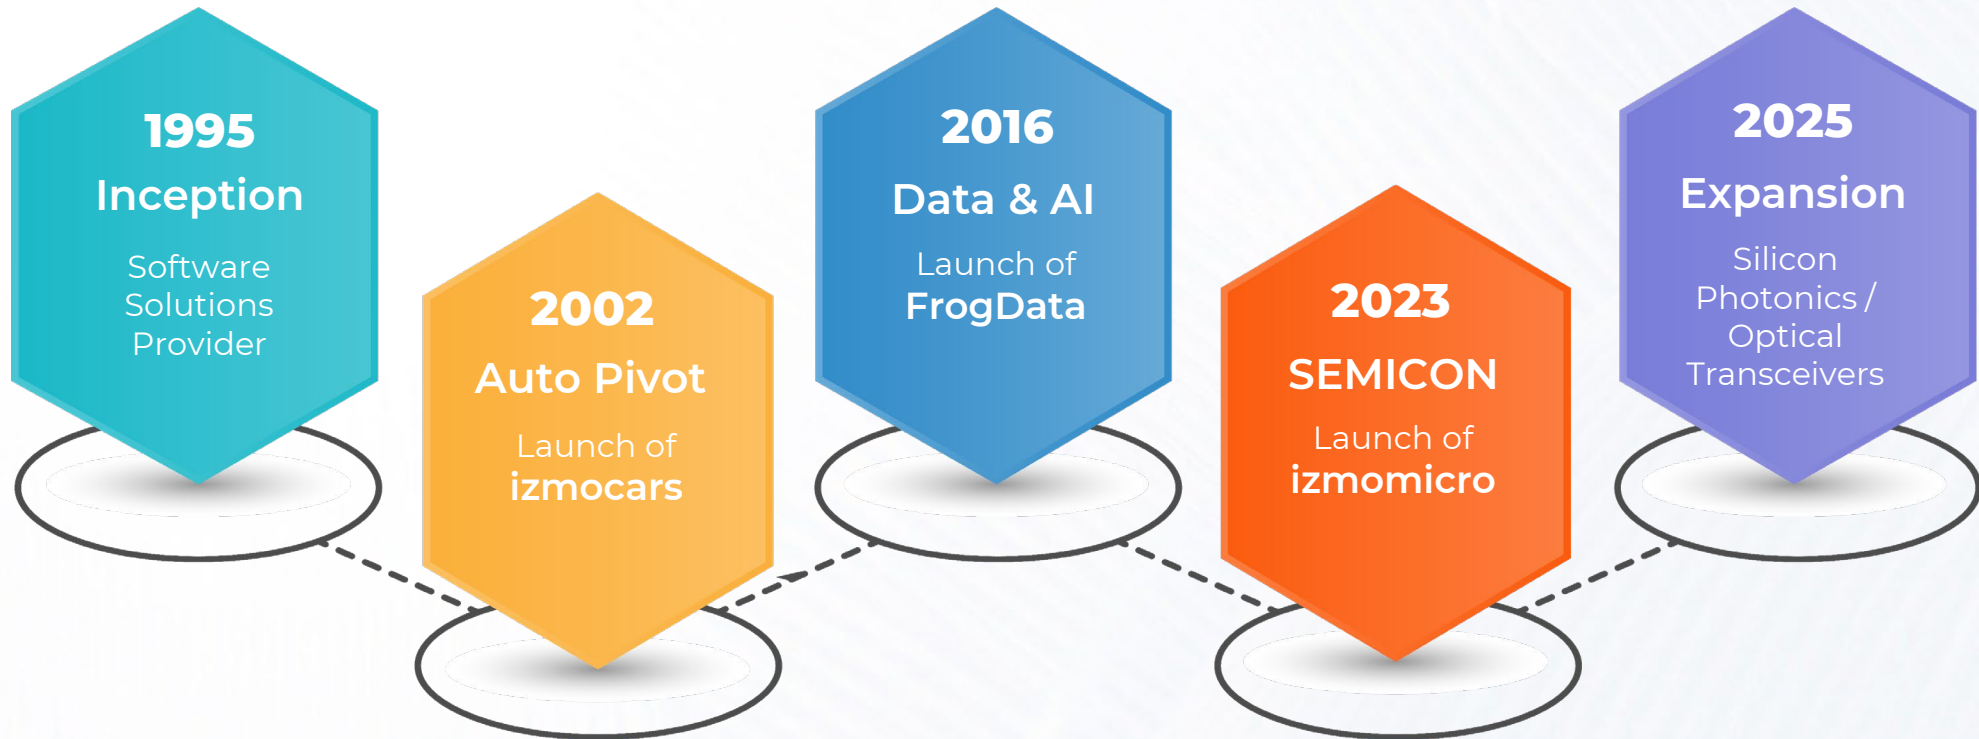

## Rich Management Experience

- **Experienced Management** backed by highly qualified engineering and operational teams
- **Demonstrated ability** to operate in diverse verticals – Content, Digital Platform, Analytics and Semiconductors

## Marquee Clients

- **Digital Retail Solutions**– Stellantis France, Emil Frey, Ford, Renault.
- **Semiconductor Packaging** – BEL, ADS Germany, IIT Madras, SCL
- **Stock Image Licensing** – Hertz, Avis, Europcar, Edmunds.com

# Corporate Evolution & Milestones

# Key Strengths

Multinational /  
Multilingual Digital  
Retail Platform for  
Automotive

Strong R&D Initiatives:  
Average annual  
spend of Rs. 10-12 cr  
(>10% of revenue)

Highly-Profitable SaaS  
Platform with Annual  
Recurring Revenue  
(ARR) revenue model

**Successful  
diversification into  
semiconductor  
packaging**

**Breakthrough in  
Silicon Photonics  
packaging  
through in-house  
R&D**

Growth driven by  
surge in Online  
Retail for  
Automotive

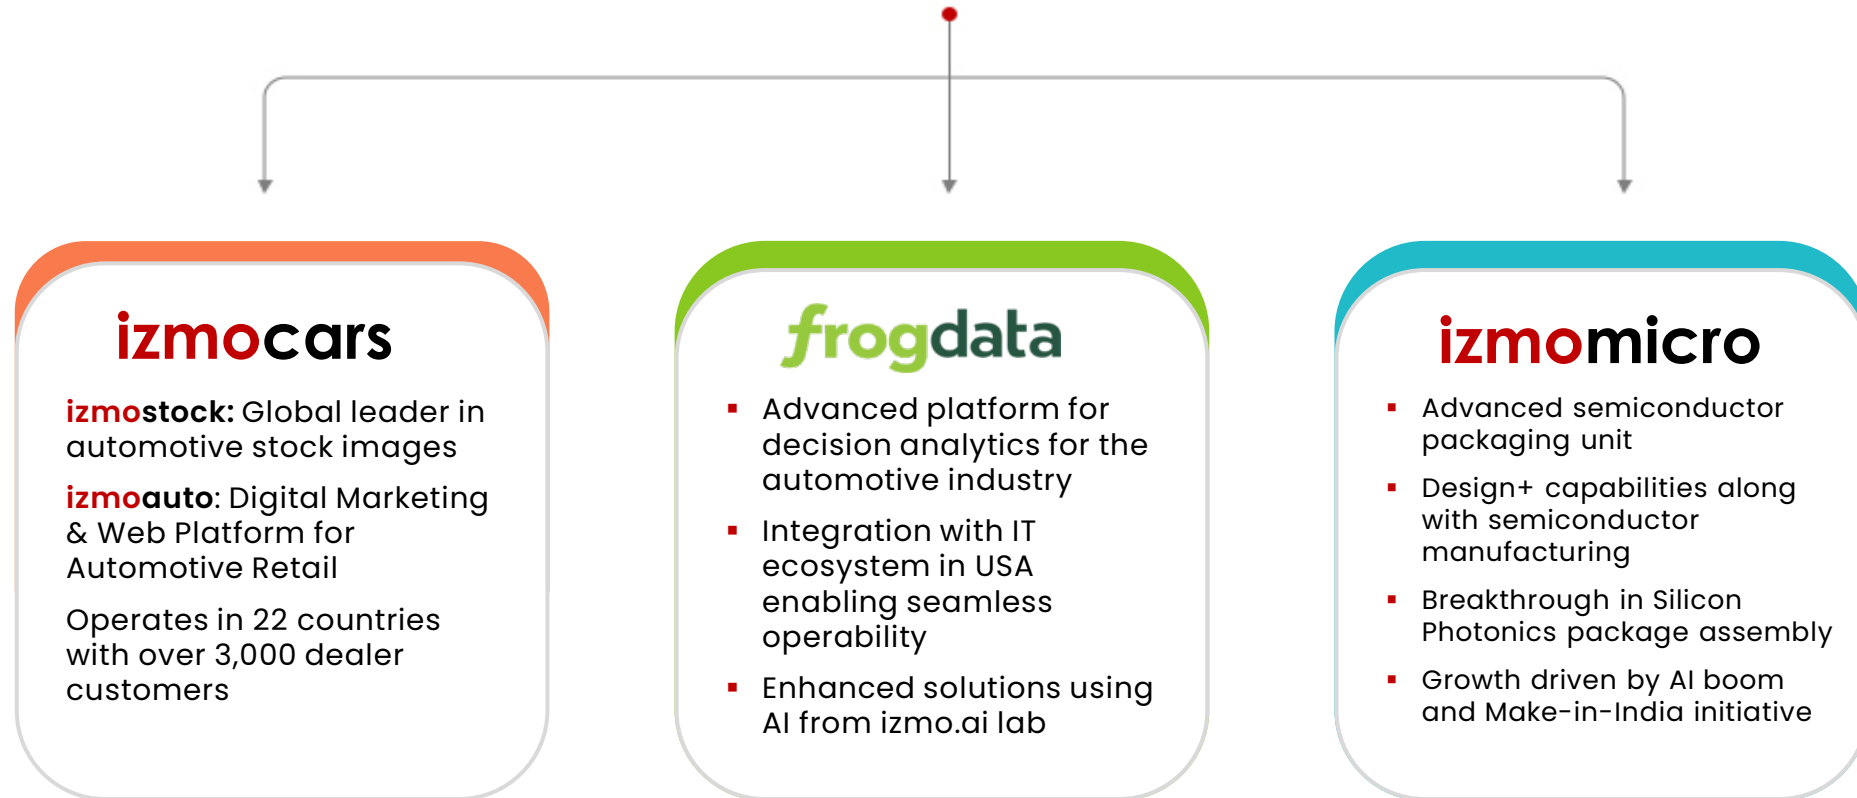

**Recognized as R&D  
Unit by DSIR  
(Department of  
Scientific and  
Industrial Research)**

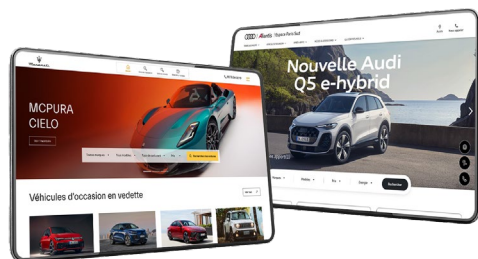

Experienced  
Management with  
deep domain  
expertise

# Business Divisions

**izmoltd.**

## izmoauto

Digital Marketing & Retail Platform

- Multi-lingual Digital Web & Marketing Platform for automotive retail
- Proprietary CRM for Parts Distribution used by major OEM
- More than 3,000 dealers worldwide use izmo solutions
- Growing organically and through acquisitions

## izmo.ai *New!*

Innovation hub for next gen. AI applications

- Innovation hub for next generation AI applications
- Provides integrated AI capability for existing platforms
- DEEP (Data Extraction & Enrichment Platform) released

## izmostock

World's largest automotive stock library with global coverage

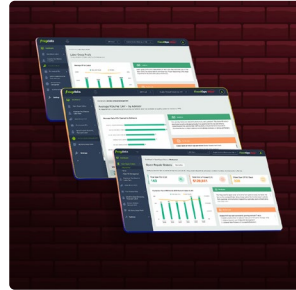

- World's largest automotive stock library with global coverage
- Strong brand name with 22 years of heritage
- Large enterprise clients in Rental, Leasing, OEM & Online Portals
- International studios with low cost post-production center in India

## FDAP

Decision Analytics  
Platform

- Integrated with major DMS System
- Many Systems, One Dashboard (DMS, CRM, Google, Service)
- Data Analytics Platform for Auto Retail

## FixedOps Mojo

Service Operations  
Management Platform

- Comprehensive Service Operations Management
- Data-Powered Service Intelligence
- Workflow Automation Engine
- Scalable Dealership Operating System

## FixedOps Velocity

Hyper-Local Marketing  
for Service

- AI-driven FixedOps marketing platform
- Data-powered hyper-local engine
- Conversion-focused service platform
- Custom strategy and ongoing campaign management

# izmostock: global content leadership

## The Asset: World's Largest Library

- Studio-produced, rights-managed, high-resolution image sets for nearly every vehicle on the market – *all trims, colors, angles*.
- 22+ years of archives create a massive barrier to entry.

## Clients

**Portals:** Microsoft Bing, Yahoo Autos, Edmunds.

**Rental/Leasing:** Hertz, Avis, Europcar, LeasePlan.

**OEMs:** Direct licensing for configurators.

## Growth Driver

Expanding beyond Auto Retail into Leasing, AI Learning and Gaming/Metaverse (CGI assets).

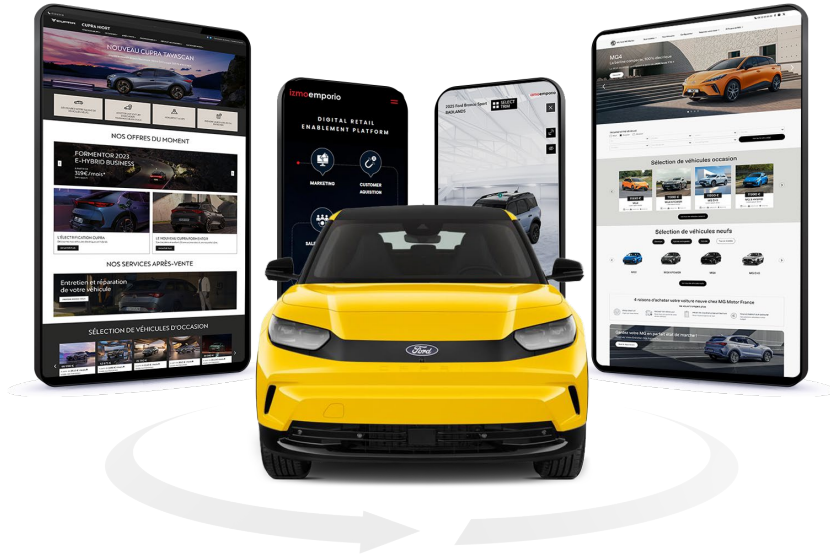

## Recent Innovation: New Global Portal

**Streamlined Search:** Locate images instantly by VIN, Make, Model.

**Standardized Sets:** Consistency for online retailers.

**API First:** Seamless integration for Enterprise clients.

# izmoauto: Digital Retail Platform

The operating system for the modern dealership. A multilingual web platform serving 3,000+ dealers globally.

## Key Offerings

**izmoweb:** Responsive, SEO-optimized dealer web platform.

**gonimo:** OEM Dealer Marketing Platform

**Parts Velocity:** Specialized CRM for OEM Aftermarket Parts Distribution

## Market Reach

**Europe:** Major European countries. Direct to dealer market leader in France. CRM for entire Stellantis Distribution Network, growing in Germany & Spain.

**Americas:** Presence in USA & South America

**Global:** Operations in more than 20 countries

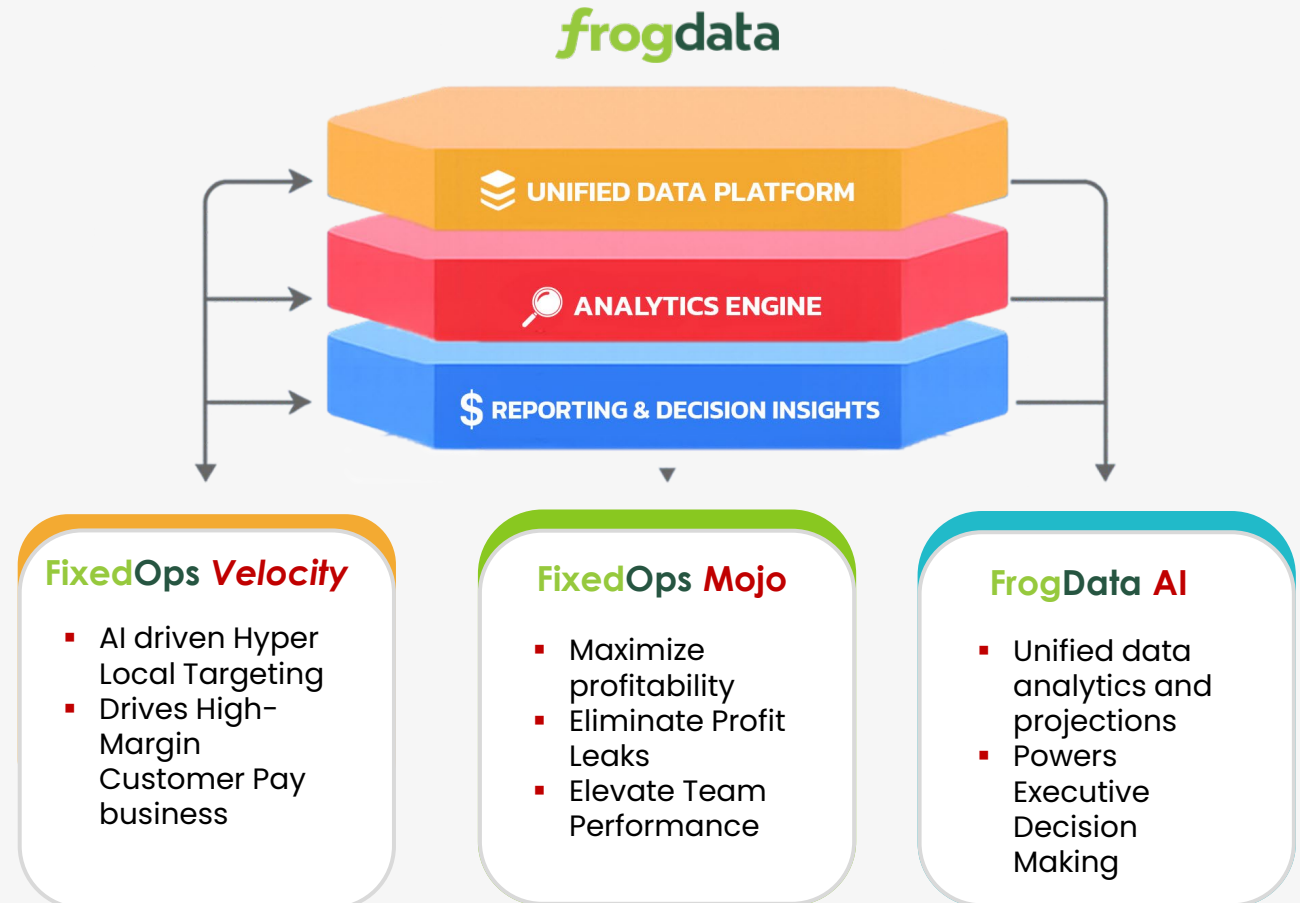

## Highlights

- Over 22 years of experience and brand recognition
- Provides the stable Annual Recurring Revenue (ARR) foundation.
- Boost to growth from acquisition of Geronimo in UK in 2024
- Stable business with long term customer base
- Provides customer base to upsell new solutions

# FrogData Product Landscape

A modular Suite of AI applications addressing specific dealership profit centers.

Built on a [unified data platform](#) to optimize dealership profitability across marketing, operations, and decision-making.

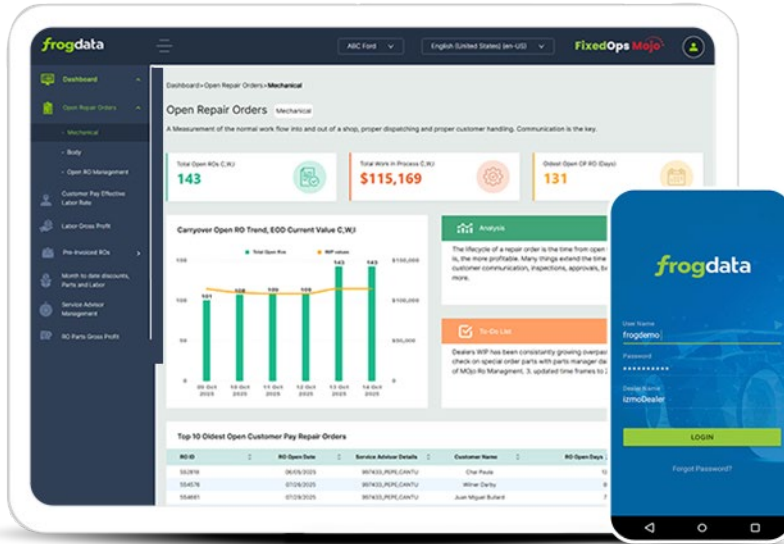

# FrogData – Market Opportunity & Growth Strategy

## Market Opportunity

- 16,000+ US dealerships + 100K independents.
- Automotive AI projected at \$50B by 2028.
- Fixed ops = 50% dealership profits → high demand for AI & automation.

## Growth Strategy

- Deploy AI across dealership operations.
- Introduce AI-integrated website solutions (izmoauto).
- Expand to fleet, trucks, agriculture equipment.
- Develop predictive analytics beyond automotive.

# izmo Microsystems

Leading the **Silicon Photonics Revolution** in India

*SiP Manufacturing – Class 1000 and Class 5000 environment*

- State-of-the-art SiP manufacturing facility in India
- **Silicon Photonics packaging specialists**
- **Comprehensive Design Services:**  
Expertise in substrate design, packaging integration, signal integrity analysis, and thermal management
- **DSIR recognized R&D unit**

500 ball TBGA, 3 Tier wire bonding

PBGA

QFN 5 x 5 mm

Thin QFN

DFN

Dual Row QFN

LGA

LCC

Stacked die PBGA - 6 x 6 mm

FCBGA

QFN 5 x 5 mm

QFN 3 x 3 mm

# Semiconductor Innovation for the Future

## Strategic Partnership

Collaboration with IIT Madras (CPPICS)

## Business Focus

Advanced packaging solutions for compact, high-performance systems

## Core Capabilities

- 3D Die Stacking
- Class 1000 Clean Room
- RF/MW Packaging, Power Modules, Co-Packaged Optics

## Target Industries

Silicon Photonics, AI Data Centers, Automotive, Telecom

## Key Differentiators

- In-house design & manufacturing integration
- Expertise in Silicon Photonics packaging
- Launching Optical Transceivers for Hyperscale Data Centers

# Expansion Project: Optical Transceivers

## Proposed Manufacture of Silicon Photonics Based High Speed SFP Optical Transceivers

- **Exploding Demand:** >1B units/year globally
- **Power Bottleneck:** Current 400G modules consume ~15 W, driving cooling & OPEX costs
- **Technology Gap:** Industry needs faster, cooler, cheaper solutions
- **Our Advantage:** Ultra-low-power <10W solution for 400G, scalable to 800G & 1.6T

# Global Market – Semiconductor Packaging

- **Advanced Packaging TAM:** ~\$50B today, growing to ~\$80B by 2030 (8–10% CAGR) driven by 2.5D/3D, chiplets, HBM, and co-packaged optics.
- **Silicon Photonics Surge:** ~\$2–3B market in 2024, projected to reach \$10B+ by 2030 (25–30% CAGR), the fastest-growing packaging segment.
- **AI & Data-Centre Demand:** AI compute growth demands high-bandwidth, low-power optical links—making silicon-photonics packaging critical for next-gen AI systems.

## Prevailing Global Trends

## Silicon Photonics

- **\$2B today → \$10B+ by 2030** (25–27% CAGR), one of the fastest-growing areas in advanced packaging.
- **Growth led by AI/data-centre adoption** of 800G–1.6T optical links—lower power and latency than copper.
- **Telecom, LiDAR and high-speed interconnects** add to TAM, but AI is the strongest demand driver.

Sources: Company

# Optical Transceivers – Indian Market Size & Trends

Estimated 2024 Indian optical transceiver market  
**~\$600–650 million (all speeds)**

---

Share of 400G modules  
**~10–15% in 2024 (rapidly rising)**

---

Projected CAGR for 400G transceivers in India (2024–2029)  
**>30%**

---

Expected market size for 400G by 2029 (India)  
**\$300–400 million**

---

# Global Optical Transceiver Demand

Market projected to double by 2030, driven by Generative AI & 800G Adoption

## Current Reality (2024)

Market valued at ~\$13.5 Billion. While niche compared to total networking, it is the critical bottleneck for AI clusters.

## The AI Surge

Datacom demand is growing 45% YoY. Hyperscalers (Google, Meta, Microsoft) are aggressively shifting to 800G & 1.6T modules.

## Future Outlook

Projected 14% CAGR through 2030. The market is expected to reach ~\$28 Billion as 5G and AI infrastructures mature.

**Note on Market Size:** The \$100B figure typically refers to the total *Optical Networking* market (cables, equipment, transport). Transceivers alone are a high-value subset.

## Existing business

### Advanced Packaging

- Steady growth from existing and new clients
- Marquee clients – BEL, ISRO, ADS et.

### Silicon Photonics

- Growing business from Indian customers
- Target European market. Tie-up with IMEC, Lionix etc.

## Optical Transceivers

- Launch with established partner in Q1, 2026
- Design & Develop LPO with leading Photonics partner and In-House R&D
- Target India, APAC and European market for data centers

# Integrated Manufacturing Process

**01****Advanced Design Services**

Co-design for photonic and electronic integration with testing in mind.

**02****Multi-Chip Module Integration**

Precision die placement with heterogeneous integration and thermal solutions

**03****Precision Fiber Alignment**

Sub-micron active alignment ( $\pm 0.1\mu\text{m}$ ) for multi-channel arrays

**04****Specialized Wire Bonding**

Fine-pitch, RF-optimized bonding for high-reliability packaging

**05****Comprehensive Testing**

Integrated optical-electrical testing with failure analysis and yield improvement

# Domestic Semiconductor Scenario

Competitor	Primary Focus	The izmomicro Edge
Tata Electronics	Logic & Memory: High-volume wafers (PSMC JV) and general packaging.	<b>Specialization:</b> Tata focuses on mass-market chips (28nm/40nm). We focus exclusively on high-margin Photonics niche.
Kaynes Semicon	General OSAT: Power, Analog, and broad consumer electronics packaging.	<b>First Mover:</b> We are already DSIR recognized with a live R&D pilot line for photonics; Kaynes is in the broader facility construction phase.
Micron India	Memory (DRAM/NAND): Captive assembly for their own memory chips.	<b>Non-Competing:</b> They do not service third-party logic or photonics customers.

# Way Ahead: Strategic Roadmap (FY26+)

## 01

### Grow Existing

- **izmostock:** Capitalize on digital retail, growth with new portal.
- **izmoauto:** Deepen penetration in Europe (France, Germany).
- **FrogData:** Leverage AI boom for US dealer growth.

## 02

### Launch New

- **FixedOps:** Scale 'Mojo' and Velocity' for high-margin service market.
- **DEEP Platform:** Deploy Data
- **Extraction platform** for SMEs.

## 03

### Semiconductor

- **Make In India:** Meet domestic demand via GOI incentives
- **R&D:** Use DSIR recognition for funding product research
- **Expansion:** Optical Transceivers products for data centers.

# Why izmo

- **The "Blue Ocean" in India**

While multi-billion dollar giants (Tata, CG Power) fight for high-volume, low-margin "general" packaging (like mobile chips), izmomicro has cornered the high-complexity, high-margin AI/Data Center niche.

- **Defensible Moat**

Silicon Photonics requires "Active Alignment" high precision. This is a specialized skill set that general OSAT assembly lines cannot easily replicate without massive re-tooling.

- **Global-Local Arbitrage**

We compete with manufacturers in Far East, on quality but beat them on design & cost structure due to India's engineering labor rates and Government of India (GoI) incentives.

# Partnership with CPPICS-IIT Madras Funded by MeitY

- izmo microsystems is the **exclusive industry partner** for the project on design, development and packaging of Silicon Photonics
- This project marks **India's Potential Entry** into the Field Programmable Photonic Gate Array (FPPGA) market
- IP is owned by IIT-M and izmo Microsystems

## izmo – DSIR Recognized R & D Unit

- Recognition by DSIR, Ministry of Science and Technology**  
The inhouse R&D unit of izmo has been registered with Department of Science & Industrial Research, Ministry of Science and Technology.
  - Customs Duty exemption
  - Fund grant assistance
  - R & D Subsidy
  - Avail **100% Income Tax benefits** under Form-3CM in accordance with section 35 (1) of income tax act.

# Management Team

**Sanjay Soni**  
Managing Director

- More than 30 years of industry experience
- MBA – IIM Bangalore
- Winner of several awards of excellence

**Sarbashish Bhattacharjee**  
CTO, izmo

- 20+ years of experience in Product Design and Data Architecture
- Specialist in SaaS Development
- Computer Science Degree, IGNOU

**Chris Daniels**  
Director, Media

- 20+ years of experience in high volume digital media production and asset management
- Diploma in Industrial Photography, Brooks Institute

**Tej Soni**  
CEO

- More than 30 years at the forefront of the global tech. industry
- insights, innovation and technical domain expertise to customers worldwide.

**Nitin Ghodgaonkar**  
CTO & Sr. VP, izmomicro

- 33+ years of experience in IC Packaging industry
- Expert in 2/2.5/3D System-in-Package & 3D IC heterogeneous integration.
- M. Tech, IIT Kharagpur

**Benoit Bachelot**  
Director, France

- 23+ years of experience in automotive
- PG in Business & Management, ESSCA

**Dinanath Soni**  
Executive Director

- 39+ years of industry experience
- Cofounder of SunTech and Logix Microsystems
- Serves on industry advisory board of IITM

**Chris Dulla**  
VP, FrogData

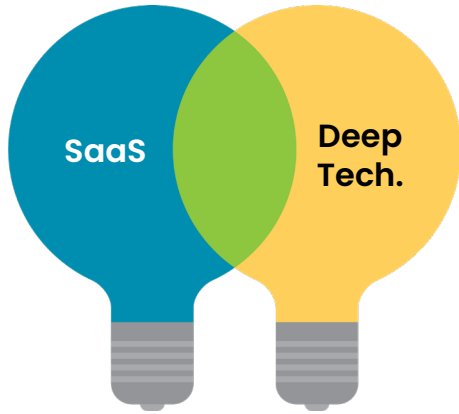

- 35 + years automotive industry experience
- BS, DePaul University
- Formerly VP of ADP and President, Heiser Automotive

**Jackie Lawton**  
COO, izmo UK

- Over 25 years of experience working with OEMs like Ford, Mercedes Benz, BMW and Audi

# Summary

**Dual-Engine Growth:** Combines a mature, cash-flow positive Automotive SaaS business with a high-growth Deep Tech venture.

- **Strategic expansion**, enabling semiconductor scale-up.
- **First mover in Silicon Photonics & Optical Transceivers**, targeting global AI data center demand.
- **Strong base business (SaaS ARR)** funding high-growth deep-tech.
- **Exclusive IIT-Madras partnership & DSIR R&D recognition** – strong technology moat.
- **Experienced global leadership** with proven execution.
