IndiGo Introduces 'Fuel Charge' from 14 March 2026

Move comes as a response to sharp surge in Fuel Prices

National, 13 March 2026: IndiGo, India's leading airline, is introducing a fuel charge on domestic and international routes, effective 00:01hrs on 14th March, 2026.

This measure is taken due to the significant surge in fuel prices following the ongoing geopolitical issues in the Middle East. [ATA's Jet Fuel Monitor](#) indicates an 85+% increase in fuel prices for the region.

Aviation Turbine Fuel represents a significant share of airlines' operating cost. This sudden and steep increase will have a material impact on all airlines' costs and network, including IndiGo's.

While offsetting the entire impact of this fuel price surge requires a very substantial adjustment to fares, IndiGo has introduced a relatively smaller amount as a Fuel Charge keeping in mind the consequential burden on customers.

Starting 14th March 2026, 00:01 hrs, overall prices for all new bookings on IndiGo flights will include the following additional Fuel Charge, per sector.

Routes	Fuel Charge (in INR)
Within Domestic India	₹ 425
Indian Subcontinent	₹ 425
Middle East	₹ 900
South East Asia and China	₹ 1800
Africa and West Asia	₹ 1800
Europe	₹ 2300

IndiGo regrets the inconvenience resulting from this additional charge and reiterates that the measure has been driven by a sudden and substantial change in the operating environment. IndiGo will continue to monitor the situation and make relevant adjustments as and when appropriate.

IndiGo remains committed to giving wings to the nation by offering affordable, convenient and consistent travel to customers.

About IndiGo
