Press Statement

National, 15 December 2025: Low visibility (below minima), due to dense fog, has severely impacted operations at Delhi and other airport across northern India, which is unfortunately beyond our control. Our teams are closely monitoring the situation and coordinating with Delhi airport, in line with established safety protocols.

While operations adjust to the prevailing weather, some flights may experience delays while a few others may be proactively cancelled through the day to prioritise safety and help minimise extended waiting at the airport. We have issued advisories to our customers and proactively informing them, to minimise inconvenience.

We request customers to also stay updated on their flight status via our website or mobile application as there can be some consequential delays too. Our teams remain available to assist our customers at every step of the journey and ensure continued support— IndiGo Spokesperson
