INSURER ENTERS INTO \$1-BN PACTS WITH JP MORGAN, BANK OF AMERICA

LIC turns to Wall Street banks to hedge risks

PRATIGYA VAJPAYEE & SAIKAT DAS July 28

LIFE INSURANCE CORPORATION is working with some of Wall Street's largest banks to hedge its liabilities, according to people familiar with the matter. The nation's largest insurer has entered into \$1 billion worth of bond forward rate agreements with banks including JPMorgan Chase & Co and Bank of America over the past two months, the people said, asking not to be identified as they are not authorized to speak publicly. In November, LIC announced plans to enter the bond derivatives market and conducted a few small trades earlier this year. Since then, it has stepped up its activity — its recent deals have accounted for 38% of the total \$2.6 billion in forward rate agreement volumes since May, according to data on the Clearing Corp of India's website. This surge highlights the growing sophistication of local financial players. As more fam-

ilies invest in financial markets, insurers like LIC — which oversees \$630 billion in assets — are driving demand for diverse investments and hedging options. FRAs, in particular, have become popular as they allow insurers to lock in future bond yields and shield them from falling interest rates that could reduce their income. Officials at the LIC and

Bank of America did not respond to requests for comment made via email and phone, while a spokesperson for JPMorgan Chase declined to comment. In FRA, an insurer agrees to buy a bond at a set price on a future date. The counterparty — typically a bank — takes on the risk of bond price changes and receives a premium in return. To manage this risk,

banks often buy long-term bonds that match the terms of the contract. LIC's growing activity in this market has boosted the demand for long-term bonds, the people said. In fact, the last two auctions for these bonds have seen the highest bid-to-cover ratios of the current fiscal that began April 1, according to data compiled by Bloomberg. —BLOOMBERG

Sebi order: Jane Street asks for more time

US TRADING FIRM Jane Street said on Monday it has sought an extension to respond to an interim order from Securities and Exchange Board of India (Sebi) alleging it manipulated securities markets. In an interim order on July 3, Sebi barred the company from trading securities in the Indian market, saying some of its trading strategies were manipulative and led to losses for retail investors, and gave it 21 days to respond. However, it lifted the trading restrictions on Jane Street last week after the firm deposited \$567 million, giving the regulator rights over the money. The firm is continuing to not trade in the Indian market despite the regulator's go-ahead. "The firm's strategies always include trading in options along with cash market. Since the firm had given an undertaking to SEBI that it will not trade in options, it is not trading cash as well," a source with direct knowledge of the matter told Reuters. Jane Street sought extension because it needs more time to rebut the allegations about its trades, the source said. —REUTERS

Life insurers' focus shifts as appetite for ULIPs falls

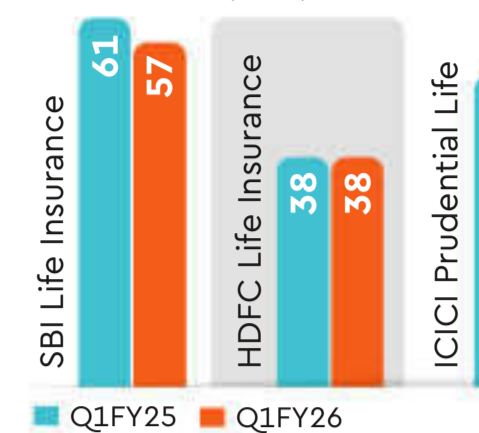

● Choppy markets boost demand for traditional plans

NARAYANAN V Chennai, July 28

MAJOR LIFE INSURERS are gradually shifting focus away from Unit Linked Insurance Plans (ULIPs) towards higher-margin participating (par) and non-participating (non-par) products, as sustained market volatility continues to dampen investor appetite for market-linked offerings. SBI Life Insurance, the country's largest private life insurer, saw the share of ULIPs in its annualised premium equivalent (APE) product mix fall to 57% in Q1FY26, down from 61% in the same period last year. Meanwhile, the share of value-accretive non-par products rose by 300 basis points year-on-year to 38% in the latest quarter. APE is a standard industry metric used to measure new business sales. It is calculated as the sum of regular annual premiums and 10% of single premiums. Indian equity markets have remained choppy in recent months due to a combination of geopolitical and macroeconomic developments — including the Israel-Iran conflict, US tariff threats on various countries, and muted corporate earnings. As a result, benchmark indices Sensex and Nifty

MAKING A PIVOT

Share of ULIPs / linked plans in total APE (in %)

50 have posted modest gains of just over 5% since the start of the fiscal year. Targeted primarily at affluent individuals, ULIPs are hybrid products that combine life insurance with investment. A portion of the premium is allocated toward life cover, while the rest is invested in equity or debt funds, depending on the policyholder's preference. These products tend to perform well during bullish market phases but lose traction amid heightened volatility. ICICI Prudential Life Insurance also saw the share of ULIPs in its total APE decline to 46.8% in Q1FY26, from 51.4% a year earlier. The slowdown in ULIP sales also contributed to a 15% drop in its direct business channel, which fell to ₹252 crore from ₹298 crore in Q1FY25. "A large component of the (direct) business actually is from the ULIP side. The slow-

down in ULIP over this quarter, given the market volatility, has impacted the direct business," said Dhiren Salian, CFO, ICICI Prudential Life Insurance, during the company's Q1 earnings call. HDFC Life Insurance, meanwhile, saw the share of ULIPs remain flat at 38% of individual APE, unchanged from the same quarter last year. However, the share was down sequentially from over 40% in Q4FY25. MD & CEO Vibha Padalkar noted that the company's ULIP mix remains lower than the industry average and has been broadly range-bound. "We anticipate a gradual shift, rather than a sharp swing in favour of traditional products over the course of the year," she said during the Q1 earnings call. Despite the current slowdown, insurers remain optimistic about a rebound in ULIP demand.

Bond yields inch up as rate cut hopes low

CHRISTINA TITUS Mumbai, July 28

THE YIELD ON the 10-year benchmark bond continued to rise as prospects of a rate cut faded, according to market participants. The yield on the 10-year bond rose 2 basis points to 6.37% on Monday, the highest level since June 11. The 10-year bond traded flat since the last monetary policy on June 6 due to lack of cues. "The statements from RBI governor triggered a wave of negativity in the bond market. Consequently, investors responded with a sell-off last on Friday, reflecting concerns that the central bank may delay easing measures," said a senior bond trader with a private sector bank. The sell-off

continued on Monday as expectations of a rate cut in the upcoming August policy have reduced significantly, he said. When the CPI inflation print came in at a six-year low of 2.1%, some market participants had expected another rate cut in August. Speaking at the FE Modern BFSI Summit in Mumbai on Friday, RBI Governor Sanjay Malhotra said: "Price stability is our primary mandate and history teaches us that high inflation, if volatile, undermines growth. While we have won a battle, the war against inflation is still going on." He further said the bar for further easing is now higher, though a neutral monetary policy stance provides the flexibility of moving up or down, or pause.

Sebi bans four entities from securities mkt, fines ₹4 crore

PRESS TRUST OF INDIA New Delhi, July 28

SEBI ON MONDAY barred four entities from the securities market for two years and imposed a penalty totalling ₹4 crore on them for executing trades based on advance information of stock recommendations given by guest experts on the Zee Business channel. "The said debarment period shall be reckoned from the date of the Interim order dated February 08, 2024," Sebi said in its 55-page final order. Individually, the regulator fined ₹ 50 lakh on Partha Sarathi Dhar, ₹ 75 lakh each on Manan Sharecom and Kanhya Trading Company, and ₹ 2 crore on SAAR Commodities. In its order, Sebi noted that the four entities made a profit by executing trades based on advance information of stock recommendations given by guest experts. The investigation found that stock tips were pre-shared with select entities, giving them an unfair advantage over public investors. These entities placed trades in advance and booked profits once the stock prices moved following the televised tips. Evidence collected during the probe included WhatsApp chats, trading patterns, and profit-sharing arrangements. Sebi found that the "scheme created systematic information asymmetry whereby gullible investors were induced to trade based on guest expert recommendation." The general public remained unaware that the information/recommendations had been pre-shared with other entities. In the process, investors became victims of deliberate information asymmetry, it added.
