PRESS RELEASE

Infosys to help Siemens Gamesa Renewable Energy digitalize its IT Landscape

Will benefit from an optimised, stable and always-on network connectivity

London – November 4, 2019: Infosys (NYSE: INFY), a global leader in next-generation digital services and consulting, today announced a strategic long-term partnership with Siemens Gamesa Renewable Energy (SGRE) to support its digital transformation journey. Infosys will provide end-to-end IT infrastructure transformation of SGRE, including hybrid cloud transformation, roll-out of a software defined network, the set-up of an intelligent service desk, and digital workplace services. Infosys has also been selected by SGRE to provide application management and transformation services.

As part of the partnership, Infosys will enable SGRE to align its existing disparate IT setup into a harmonized and consolidated infrastructure landscape. Infosys will provide a hybrid cloud solution integrating multiple Public cloud platforms with its Private cloud to bring agility to SGRE's IT infrastructure while ensuring technical and financial synergies. Usage of Infosys Infrastructure Management Solution Suite will enable faster time to market with service catalogue-based offering across all IT Infrastructure. SGRE will benefit from an optimised, stable and always-on network connectivity across 50+ countries with the rollout of a Software Defined Network.

Infosys will also deliver next generation workplace services with enhanced self-help and self-heal capabilities enabled by AI and automation tools.

Jasmeet Singh, Executive Vice President and Global Head of Manufacturing, Infosys, said, "We are delighted to be selected as a strategic partner of SGRE in their transformation journey. Leveraging our innovative solutions, domain knowledge and a clear comprehension of SGRE's business strategy, we look forward to enabling their core modernisation, enhancing cloud capabilities and consolidating disparate and heterogeneous infrastructure and processes into a single SGRE global standard."

Alan Feeley, Chief Information Officer, Siemens Gamesa Renewable Energy, said, "When considering our desired IT operating model, we were looking for a partner that brings a careful balance of innovation, operational excellence and sustainable commercial viability. With Infosys, we are very confident that these attributes are at the core of their operating culture. We are very excited to partner with Infosys on this journey of modernisation. We are impressed by Infosys Next Generation Application and Infrastructure Management Framework, their agility & focus on delivery excellence, and a clear understanding of our business strategy."

About Siemens Gamesa Renewable Energy
Siemens Gamesa is a global leader in the wind power industry, with a strong presence in all facets of the business: offshore, onshore and services. Through its advanced digital capabilities, the company offers one of the broadest product portfolios in the industry as well as industry-leading service solutions, helping to make clean energy more affordable and reliable. With 90 GW installed worldwide, Siemens Gamesa manufactures, installs and maintains wind turbines, both onshore and offshore. Its backlog stands at €23 billion. The company is headquartered in Spain and listed on the Spanish stock exchange (traded in the Ibex-35 index).

Safe Harbor
Certain statements mentioned in this release concerning our future growth prospects and our future business expectations are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995. Such statements involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2019. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
