PRESS RELEASE

Infosys to Deliver Cloud Based Global Telematics Solutions for Toyota Material Handling North America

Focused on improving business performance, increasing productivity and enhancing customer satisfaction

Columbus (Indiana), US and Bangalore, India – August 13, 2019: Infosys (NYSE: INFY), a global leader in next-generation digital services and consulting, today announced that it has been selected by Toyota Material Handling North America (TMHNA) for a cloud based IoT telematics product implementation along with application support and development for its SAP Platform.

As the development partner for TMHNA Global Telematics Solution (GTS), an industry leading cloud-based IoT offering, Infosys will enable remote monitoring and diagnostic capabilities including vehicle access control, system maintenance, condition sensing and location tracking. Leveraging its experience and deep presence in the connected vehicle space, Infosys will help TMHNA draw insights from the data collected to provide better service and improve after sales experiences for consumers in the forklift industry.

Infosys will also provide SAP Application Maintenance Services (AMS) to TMHNA through its comprehensive ValuePLUS service offering that enables smart governance, higher productivity, business satisfaction and efficiency. This will give TMHNA access to a next-generation application maintenance system that leverages industry best practices, a scalable and flexible model aligned to its business plans with a clear roadmap for technology adoption, while driving operational efficiencies.

Jasmeet Singh, Executive Vice President and Global Head of Manufacturing, Infosys, said, “It is essential for companies to continue focusing on new opportunities to transform their business and we are excited to be selected by TMHNA for this transformative project. GTS has the potential to transform communication between different teams and also provide insights that can add immense value to the business. Our AMS offerings will leverage automation and our extensive experience to help THMNA with a comprehensive managed services model aligned to its future business.”

Alan Cseresznyak, Chief Information Officer for Toyota Material Handling North America, said, “We are seeing greater customer demands, and we believe we can gain a competitive advantage by leveraging leading-edge technology as we go through comprehensive digital transformation. We are concentrating on providing a better customer experience, and we truly feel that Infosys is a good partner in this area.”

About Toyota Material Handling North America (TMHNA)

Toyota Material Handling North America (TMHNA), the industry leader in forklift sales, is composed of three main group companies: Toyota Material Handling U.S.A., Inc.; Toyota Industrial Equipment Mfg., Inc.; and The Raymond Corporation. One in three forklifts sold in North America is either a Toyota or Raymond product. With more than 1.5 million square feet of manufacturing space, TMHNA is composed of three manufacturing plant locations (Columbus, Indiana; Greene, New York; and Muscatine, Iowa) that produce 1,500 forklifts per week on average, with parts distribution locations in Syracuse, New York, and Columbus, Indiana, with more than 3 million service parts available. With an annual revenue of approximately $3 billion, TMHNA has more than 8,000 people and more than 300 dealer locations to support Toyota and Raymond customers throughout North America.
