PRESS RELEASE

Infosys Collaborates with Knorr-Bremse to Accelerate AI-Enabled Enterprise Transformation

Leverages Infosys Topaz to help modernize IT systems, improve operational efficiency, and enhance service quality across global SAP and PLM application landscape

Bengaluru, India and Munich, Germany – August 18, 2026: Infosys (NSE, BSE, NYSE: INFY) a global leader in AI-first business consulting and technology services, today announced a strategic, long-term collaboration with Knorr-Bremse AG, a global manufacturer of braking systems and safety-critical components for rail and commercial vehicles. As part of Knorr-Bremse AG's Tech4Value (T4V) IT transformation program, Infosys will deliver end-to-end managed services across the company's entire enterprise application ecosystem spanning both Rail and Commercial Vehicle divisions.

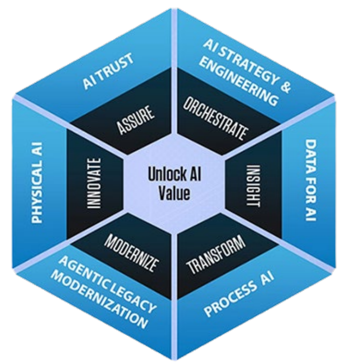
The collaboration will help Knorr-Bremse AG simplify and modernize its IT landscape, improve service quality for its global workforce, and accelerate its shift toward a value-driven, future-ready IT operating model. The scope covers the full enterprise application stack, from core ERP and data platforms to engineering and product lifecycle systems. Beyond technology modernization, the transformation will strengthen operational resilience, compliance, and service governance. It will also enable faster innovation cycles, enhance engineering collaboration and employee experience, and support the scalable growth of Knorr-Bremse's global Rail and Commercial Vehicle businesses.

Infosys will combine its SAP, data, engineering, and Product Lifecycle Management (PLM) expertise with AI-led capabilities powered by Infosys Topaz, using generative and agentic AI technologies, to move Knorr-Bremse beyond traditional managed services. Together, the companies will focus on driving measurable outcomes and sustained productivity gains through AI-led automation.

Satheeskaran Navaratnam, Chief Digital Officer & VP Transformation & Governance IT, Knorr-Bremse, said, "At Knorr-Bremse, we are building a future-ready technology foundation that supports innovation and long-term value creation. Our Tech4Value program is central to this journey, helping us create a more agile, efficient, and scalable IT environment across the organization. By working with Infosys, we aim to make our technology estate as optimized and reliable as the systems we build for our customers, ensuring that every layer of our infrastructure is equipped to support the pace of change our business demands."

Jasmeet Singh, EVP and Global Head of Manufacturing, Infosys, said, "For global manufacturers operating in safety-critical industries, resilient, efficient, and high-performing enterprise applications are essential to maintaining business continuity and competitiveness. Infosys will help Knorr-Bremse enhance its application landscape through a combination of deep manufacturing expertise, advanced automation, and AI-enabled service delivery. By improving operational efficiency, accelerating issue resolution, and supporting continuous modernization, we aim to help Knorr-Bremse drive greater business value and maintain the reliability and agility needed in a rapidly evolving market."

About Infosys



Infosys (NSE, BSE, NYSE: INFY) is a global leader in AI first business consulting and technology services. Over 325,000 of our people work to amplify human potential and create the next opportunity for people, businesses, and communities. As navigators of enterprise transformation, we enable businesses in 59 countries to unlock AI value at scale. With over four decades of experience in managing the systems and workings of global enterprises, we accelerate business transformation through our AI-first value framework, deep domain expertise, and our unique ability to orchestrate innovations from our AI-native partner ecosystem. Infosys is recognised as the fastest growing IT services brand globally, committed to being a well-governed, environmentally sustainable partner for our clients where deep talent expertise, in an inclusive workplace, help them navigate their next.

Safe Harbor

Certain statements in this release, including those concerning our future events, future growth prospects, our future financial or operating performance and our offerings and collaborations are "forward looking statements" intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on our current expectations, assumptions, estimates and projections about the Company, our industry, economic conditions in the markets in which we operate, and certain other matters. These forward-looking statements are subject to substantial known and unknown risks, uncertainties and other factors, that could cause actual results or outcomes to differ materially from those implied by such forward-looking statements. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geo-political situations, technological disruptions and innovations such as artificial intelligence, the complex and evolving regulatory landscape including immigration regulation changes, particularly in the United States, our Environmental, Social, Governance ("ESG") vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity and capital resources, our corporate actions including acquisitions, cybersecurity matters, the outcome of pending litigation and the US government investigation, and the effect of current and future tariffs. These and additional factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in more detail in our US Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2026. These filings are available at www.sec.gov. In light of these and other uncertainties, you should not conclude that the results or outcomes referred to in any of the forward-looking statements will be achieved. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
