PRESS RELEASE

Infosys Expands Strategic Partnership with Google Cloud to Help Clients Accelerate their Digital Transformation with Cloud

Bengaluru – August 21, 2019: Infosys (NYSE: INFY), a global leader in next-generation digital services and consulting, today announced that it has expanded its partnership with Google Cloud to become a Google Cloud Managed Service Provider(MSP). As a qualified MSP, Infosys will offer clients full application lifecycle services with its deep cloud and data analytics expertise. This will include consulting, assessment, migration, optimization and support services for enterprises looking to optimize their workloads on the Google Cloud Platform (GCP).

As a Google Cloud MSP, Infosys will offer industry-specific solutions on GCP for healthcare, financial services, insurance, telecom and retail industries. This partnership further strengthens Infosys' capabilities to help companies innovate and industrialize analytics, drive accelerated insights for new revenue models, realize savings and achieve faster time to market.

Other services offered as part of the MSP program include:

- Data Cafe – an enterprise portal for data exploration and cognitive conversational interfaces for contextual interactions
- Data marketplace for managing data as an asset
- Data governance and data operations across hybrid platforms
- A data science experimentation tool kit for accelerated analytics
- Secure cloud platform management and operations that enable effective governance and risk management
- Support to accelerate SAP workload migration to Google Cloud

"Cloud has been a key focus area for our clients and Infosys, and we continue to invest in new solutions, partnerships and offerings to enable our clients to navigate their digital transformation journeys," said **David Wilson, Senior Vice President and Head Infosys Partner Ecosystem**. "This enhanced partnership with Google Cloud is an example of how we are helping enterprises as they look to the cloud for digital transformation. Enterprises will significantly benefit from the best in class, highly secure and reliable cloud platform of Google Cloud and Infosys' expertise in data, AI, analytics, workload migration and cloud deployments."

“We are delighted to expand our partnership with Infosys and to recognize their expertise in managed services,” said **Carolee Gearhart, Vice President, Worldwide Channel Sales at Google Cloud**. “Customers increasingly want to move mission-critical workloads to Google Cloud. Infosys’ experience and knowledge in cloud migration, particularly with priority workloads such as SAP applications and in hybrid cloud deployments, will be a valuable resource for customers as they modernize business processes on Google Cloud.”

This announcement expands upon Infosys’ status as a Premier Google Cloud partner, offering solutions integrated with Google Cloud accelerating digital transformation for enterprises around the globe.

About Infosys

Safe Harbor
Certain statements mentioned in this release concerning our future growth prospects and our future business expectations are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995. Such statements involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2019. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
