Infosys Successfully Delivers Syngenta's Global SAP S/4HANA Transformation for Crop Protection Business

New digital core supports more than 10,000 employees across 80 countries, simplifying operations and creating a scalable foundation for future innovation

Bengaluru, India - October 27, 2026: [Infosys](#) (NSE, BSE, NYSE: INFY), a global leader in AI-first business consulting and technology services, today announced the successful implementation and go-live of Crop Protection Core (CP Core), [Syngenta's](#) global SAP S/4HANA transformation for its Crop Protection business. Delivered jointly by Infosys and Syngenta, the program establishes a unified digital core supporting more than 10,000 employees across 80 countries, helping simplify business operations, strengthen governance, and create a scalable foundation for future innovation that enables Syngenta to better serve farmers worldwide.

Built on SAP S/4HANA, CP Core brought together multiple ERP environments into a single global platform, simplifying Syngenta's technology landscape and reducing core customizations in line with SAP best practices. The platform provides a unified digital core across research, manufacturing, supply chain, regulatory, finance, and commercial functions, improving collaboration, strengthening governance, and providing greater visibility across Syngenta's global Crop Protection business. The simplified technology landscape creates a stable foundation for future innovations while improving operational efficiency at scale.

Powered by [Infosys Topaz](#), an AI-first set of services, solutions and platforms using generative and agentic AI technologies, and [Infosys Cobalt](#) cloud offerings, the transformation helped modernize business processes, improve data quality, and established a trusted enterprise data foundation. AI capabilities were introduced to automate routine activities and enable greater standardization while keeping people at the center of critical business decisions.

Feroz Sheikh, Chief Information and Digital officer, Syngenta, said, "CP Core gives our people a simpler, more reliable way to work, helping us better serve farmers across all our markets. By bringing our operations onto one modern digital foundation, we are strengthening collaboration, improving agility, and enabling our teams to focus on advancing innovation and delivering the science and solutions that growers rely on. This transformation has simplified our technology landscape and established a strong platform for future innovation. Working with Infosys has been instrumental in making this transformation possible and positioning our global business for continued growth."

Jasmeet Singh, EVP and Global Head of Manufacturing, Infosys, said, "Large-scale ERP transformations require precision, deep industry expertise, and flawless execution and the successful implementation of CP Core reflects all three. Together with Syngenta, we have simplified the enterprise landscape, established a modern digital core, and created a scalable platform for continuous innovation. This milestone builds on Infosys' long-standing collaboration with Syngenta, combining our deep understanding of their business with capabilities of Infosys Cobalt, Infosys Topaz to deliver a resilient foundation that will support Syngenta's business transformation for years to come."

About Syngenta

Syngenta is a leading science-based agricultural technology (AgTech) company, creating Breakthroughs for farmers, in every field™ to help meet the demands of modern agriculture. Using cutting-edge innovation, and guided by its [Sustainability Goal](#) of higher yields with lower impact, Syngenta helps farmers to grow resilient, healthy crops that can feed a growing global population, while protecting and enhancing the planet. Syngenta employs more than 30,000 employees in over 90 countries and is part of Syngenta Group. It consists of two business units: [Syngenta Crop Protection](#), headquartered in Switzerland, and [Syngenta Seeds](#), headquartered in the United States.

To find out more about how Syngenta creates breakthroughs for farmers around the world, read our [stories](#) and follow-us on social media.

Safe Harbor

Certain statements in this release, including those concerning our future events, future growth prospects, our future financial or operating performance and our offerings and collaborations are “forward looking statements” intended to qualify for the ‘safe harbor’ under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on our current expectations, assumptions, estimates and projections about the Company, our industry, economic conditions in the markets in which we operate, and certain other matters. These forward-looking statements are subject to substantial known and unknown risks, uncertainties and other factors, that could cause actual results or outcomes to differ materially from those implied by such forward-looking statements. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geo-political situations, technological disruptions and innovations such as artificial intelligence, the complex and evolving regulatory landscape including immigration regulation changes, particularly in the United States, our Environmental, Social, Governance (“ESG”) vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity and capital resources, our corporate actions including acquisitions, cybersecurity matters, the outcome of pending litigation and the US government investigation, and the effect of current and future tariffs. These and additional factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in more detail in our US Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2026. These filings are available at www.sec.gov. In light of these and other uncertainties, you should not conclude that the results or outcomes referred to in any of the forward-looking statements will be achieved. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company’s filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
