

Infotech Enterprises leadership' in Aerospace, Defense and Transportation recognized by Zinnov Management Consulting

Hyderabad, India, July 6th 2011 – Infotech Enterprises Limited, a leading Global Engineering Services company, headquartered at Hyderabad India, has been categorized as a **leader in verticals like Aerospace & Defense (A&D), as well as Transportation**, according to a recent study undertaken by Zinnov Management Consulting, a leading Globalization and Advisory firm. The study titled “**Global R&D Service Providers Rating 2011**”, is the most sought after ranking of Top Global R&D Service Providers across geographies like India, China, Russia and Eastern Europe.

According to the study, Infotech Enterprises has emerged as a clear leader in verticals like Aerospace, Defense and Transportation. The study titled “**Global R&D Service Providers (GSPR) Rating 2011**”, is an annual study undertaken by Zinnov to assist business leaders in spearheading global engineering initiatives and in order to facilitate them in identifying right partners across geographies. All 44 participating companies, were assessed on parameters like human capital, capabilities, financials, ecosystem linkages, and infrastructure & business sustainability.

Commenting on the occasion, **Mr. Krishna Bodanapu, President, Engineering, Infotech Enterprises** said, *“It is a matter of pride for us that Zinnov Management Consulting has rated us as a leader in the aerospace, defense and transportation space. It is a great way of recognizing our commitment in these growing industry verticals. I would like to extend my gratitude to my team, whose endeavors has brought the company's deep domain expertise and leadership on a global platform.”*

Infotech Enterprises 'Global Collaborative Engineering' approach helps aerospace manufacturers to innovate and build a competitive advantage while protecting customers' key IP assets. Infotech Enterprises is a trusted engineering partner for the leading A&D OEMs from product definition to after-market service and has expertise in the areas of avionics, engines, interiors, structures and systems.

The robust processes of Infotech Enterprises and its intense focus on productivity improvement have resulted in optimal weight solutions, faster turnaround and improved success in meeting offset obligations and industry compliances for major aerospace manufacturers around the world. In the transportation segment, Infotech is the partner-of-choice for world's leading passenger train and locomotive manufacturers.

Marking its triumph in aerospace segment, Infotech has been recognized by The Boeing Company as **Supplier of the Year** in the "Non-Production" category recently. Infotech Enterprises was one of 16 companies honored for distinguished performance in working with Boeing. This year's winners represent an elite group among more than 17,525 active Boeing suppliers in nearly 52 countries around the world.

Mr. Pari Natarajan, Chief Executive Officer, Zinnov Management Consulting Pvt, Ltd, said, *"Our comprehensive analysis proves that Infotech Enterprises stands out for delivering contemporary engineering services that strengthen clients' competitive position, which in turn helps them lead their respective markets. Moreover, Infotech Enterprises' established global customer base and clear vision for the future of R&D make it the clear leader in verticals like Aerospace & Defense as well as Transportation. We congratulate them on this stellar performance and their ranking in our 'Global R&D Service Providers Rating' this year".*

With the release of the study this year, Zinnov introduces the first-ever framework for assessment and relative comparison of R&D service providers. The framework called 'Zinnov Zones' presented a unique perspective on the capabilities of service providers as potential partners for global engineering customers. The framework allows one to access a company basis of its presence in Nurture / Breakout / Execution / Leadership category.
