PRESS RELEASE

Skava joins HPE-driven Cloud28+ to offer new hybrid cloud retail solutions

San Francisco – December 21, 2017: Infosys (NYSE: INFY), a global leader in consulting, technology and next-generation services, today announced its membership as a technology partner in the Hewlett Packard Enterprise (HPE)-driven Cloud28+ community and digital platform. By leveraging the Cloud28+ community's vast network of service providers, Skava, a wholly owned subsidiary of Infosys, aims to expand its market presence in countries where business and regulatory considerations call for private and hybrid cloud deployments working with local partners.

Cloud28+ helps cloud service providers and independent software vendors form new alliances with each other and end-user customers, and offers services via a vast catalog of thousands of Infrastructure-as-a-Service, Software-as-a-Service, and Platform-as-a-Service offerings. Professional services, cloud software, and deployable apps are also offered via the community's digital platform.

Together with HPE, Skava is creating a hybrid cloud version of its retail microservices technology stack, capable of being deployed across cloud environments, including public, private, hosted, and managed. This benefits customers through:

- **Bursting capabilities** – the ability to move between on-premises to hosted or public cloud
- **Openness** – no platform lock-in with flexible application catalog integration
- **Flexible financing** – organizations can choose either public, on-premises via HPE Flexible Capacity Services and financing options, or hosted via the Cloud28+ partner network
- **Deployment from anywhere** – work with the local Cloud28+ partner network to find the right service provider to address local business requirements

"We're excited to join the Cloud28+ community to offer cloud solutions that help us expand our business. This membership enables a service-oriented, collaborative approach as we create dynamic hybrid cloud solutions through Cloud28+, while sharing knowledge with the world's largest independent cloud service provider network," said **Arish Ali, CEO of Skava**.

"The mission of Cloud28+ has always been focused on offering customers more choice and streamlined access to hybrid IT solutions that meet their unique business requirements across different vertical industries," said **Xavier Poisson Gouyou Beauchamps, Vice President, Cloud28+ and Service Providers Worldwide, HPE**. "Skava is a premier modern digital commerce platform, making it a perfect fit to enhance our rich ecosystem of Cloud28+ partners and services."

"As companies undergo digital transformation and take a digital-first approach to today's business opportunities and challenges, Infosys is among their foremost choice for an IT services partner to help them drive cloud adoption," said **Ravi Kumar, President and Deputy Chief Operating Officer, Infosys**. "The Cloud28+ community of trusted HPE partners will allow Infosys to benefit from the most up-to-date cloud services and knowledge in the industry."

The hybrid Skava cloud retail solution will leverage an HPE deployer, based on Docker and Kubernetes technologies, and through the Cloud28+ platform allow Skava to offer a "package once – deploy everywhere" approach. Skava can also take advantage of HPE's global scope and offerings, including support services, joint selling initiatives, and flexible financing options.

Cloud28+ counts nearly 700 partners contributing to a catalogue of 24,000 build and consume services. Focused on matching business requirements, customers can find partners and data centers in the countries of their choice, using a comprehensive, intuitive search engine. Cloud28+ partners offer services out of more than 400 data centers in every region of the world. Customers can even submit their Request for Proposals to the Cloud28+ team for a custom response.

Cited by 451 Research as the world's largest cloud aggregator, Cloud28+ members include service providers, ISVs, solution providers, distributors, systems integrators, as well as some universities and government institutions – located in 60 countries.

Safe Harbor

Certain statements in this press release concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment

concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2017. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. In addition, please note that any forward-looking statements contained herein are based on assumptions that we believe to be reasonable as of the date of this press release. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
