Insecticides (India) Ltd Registers 67% Jump In Net Profit at Rs 30.50 crore for First Quarter

Highlights of First Quarter

- PAT of Rs 30.50 crore compared to Rs 18.22 crore for the corresponding quarter of the last fiscal
- Revenue of Rs 345.62 crore compared to Rs 298 crore for the corresponding quarter of the last fiscal
- PBT of Rs 42.15 crore compared to Rs 25.50 crore for the corresponding quarter of the last fiscal

New Delhi, 9th August 2017: Insecticides (India) Ltd. (IIL), the country's leading agro chemicals company, registered a whopping 67% jump in its net profit at Rs 30.50 crore for the first quarter ended 30th June 2017 as compared to Rs 18.22 crore for the corresponding quarter last fiscal.

The company, on the back of new and innovative products, clocked an impressive 16% growth in sales at Rs 345.62 crore for the first quarter ended 30th June 2017. The sales of the company for the same quarter last fiscal were Rs 298 crore.

The Profit Before Tax (PBT) also jumped 65% at Rs 42.15 crore for the first quarter ended 30th June as compared to the corresponding quarter of last fiscal. The PBT for the same quarter last fiscal was Rs 25.50 crore.

"We had launched new products last year which got good response, and plan to launch some this year as well. Kayakalp - a revolutionary biological product for the soil health has been already launched in the last quarter. We are happy they are doing well and contributing to overall revenue growth of the company. I hope they will continue to do well as the response we have received from the farmers is phenomenal. The monsoon has also been good so far and has contributed its part." said **Mr. Rajesh Aggrawal, Managing Director, Insecticides (India) Ltd.**

In recent years, IIL has aggressively expanded its product bouquet, adding a variety of new products to its list of best selling brands **Nuvan, Pulsor, Hakama, Lethal, Victor, Thimet and Monocil**. In 2014, IIL launched Mycoraja, its first bio-product. Last year, the company introduced in India a new post emergence herbicide Green Label, manufactured in India for the first time using advanced technology. Very recently, the company has introduced a new biological product Kayakalp in the Indian market, that promises to rejuvenate and re-energize

About Insecticides (India) Ltd.

Insecticides (India) Ltd. (IIL), a BSE & NSE Listed company is India's leading and one of the top 10 Indian agrochemicals manufacturing company. IIL has emerged as a front line performer in India's crop care market with a top line of Rs 1107.38 crore in 2016-2017.

The company owns the prestigious Tractor Brand which is highly popular among the farmers. This umbrella brand of its agro products signifies the company's deep connection with the farming community. The largest selling brands of IIL include Lethal, Victor, Hijack, Xplode, Mycoraja, Monocil and Prime Gold. The company launched a new herbicide, Green Label which is being manufactured in India for the first time for the benefit of Indian farmers last year.

The company has entered into technical and marketing MoU with American Vanguard Corporation (AMVAC), USA, to manufacture and market "Thimet" & "Nuvan", leading international insecticide brands in India. IIL also has a proud tie-up with the Japanese companies. Last year, the company has tied-up with Momentive, USA and launched AgroSpreed*Max in India, which is a super spreader, that will help farmers to increase the efficacy of agrochemicals. The company also tied up with Nihon Nohyaku Co., Ltd. Japan for two products SUZUKA and HAKKO last year.

The Company has state-of-the-art formulation facilities in Chopanki (Rajasthan), Samba & Udhampur (Jammu & Kashmir) and Dahej (Gujarat). IIL also has technical synthesis plants at Chopanki and Dahej to manufacture technical grade chemicals such as Lambda cyhalothrin, Bifenthrin, Thiamethoxam, Diafenthiuron, Dichlorvos, Chlorpyrifos, Fenpyroximate, Glyphosate, Atrazine, Imazethapyr, Pretilachlor, Bispyribac Sodium, sulfosulfuron, Thiophenate Methyl, Tricyclazole, Myclobutanil, Metalxyl etc. providing the competitive edge by backward integration.

In 2014, for the first time in India, IIL set up a product discovery R&D centre in JV with OAT Agrio, JAPAN. It plans to invent 2-3 new agrochemical molecules in five years of time.

IIL Foundation is an initiative by Insecticides (India) Limited which works closely with Indian farmers to impart knowledge regarding modern agricultural practices and techniques.
