Growing Domestic Basmati Rice Industry...

Indian Basmati Consumption (%)

Consumers are switching from Unbranded to Branded Basmati Rice

...with a Huge Global Potential

- US and Europe basmati consumption of c.3% is low despite a large Asian population: significant room for growth
- The Middle East remains a large export region for LT Foods, with premium basmati rice widely consumed in the region
- Major growth opportunity in Central-Asia: high rice consumption but as yet low presence of LT Foods'
- Growing acceptance of Indian/Asian cuisine worldwide could also be a growth lever

Update on Insurance Claim

- The fire accident that had happened in Company's subsidiary i.e. Daawat Foods Limited plant in June 2014 resulted in loss of stock of raw material having book value of Rs. 179.91 crs. The stock was insured and the Company had filed an insurance claim with the insurance company for Rs. 189.71 crs. The said claim had been repudiated by the insurance company on several contestable grounds.
- Based on multiple legal advices The Board of Directors of Daawat Foods Limited (DFL) has decided that the Company should strongly challenge the Order passed by the Insurance Company in various forums as determined by the lawyers.
- However on basis of claim assessment report issued by the surveyors to the insurance company, obtained by the management of the Company under Right to Information Act (RTI), as a prudent accounting measure DFL has decided to make a provision of Rs 44 crs during the year.
- The Company's legal advisors are confident of successful recovery of the insurance claim.
