

**JAINIK POWER CABLES LIMITED ANNOUNCES STRATEGIC BUSINESS ALLIANCE WITH SAGAR INDUSTRIES TO SUPPORT GROWING DEMAND IN INDIA'S POWER INFRASTRUCTURE SECTOR
Strengthening Market Presence Through Long-Term Supply Collaboration**

Sonipat, Haryana | June 2026

Jainik Power Cables Limited is delighted to announce a significant strategic business alliance with Sagar Industries, a highly respected and established name in India's electrical, power transmission and distribution industry.

This strategic collaboration marks another important milestone in Jainik's growth journey and reflects the increasing confidence that leading industry participants are placing in the Company's manufacturing capabilities, product quality, operational excellence, and commitment to timely delivery.

Under this long-term business understanding, Sagar Industries intends to source and procure a broad range of aluminium-based products manufactured by Jainik Power Cables Limited, including Aluminium Conductors, LT Power Cables, Aerial Bunched Cables (ABC), and other allied products for execution of its ongoing and future projects across India.

A Partnership Built on Industry Strength and Growth

Sagar Industries has earned a strong reputation within the power sector through its expertise in manufacturing and supplying power cables, control cables, aerial bunched cables, and conductor solutions. Over the years, the company has established itself as a reliable partner for infrastructure developers, utilities, industrial customers, EPC contractors, and government-backed power projects.

The significance of this association is further highlighted by Sagar Industries' substantial business pipeline. The company currently has an active order book comprising Aluminium Cable and Conductor projects aggregating to more than ₹100 Crores, providing a strong platform for future procurement and business opportunities.

As India's power infrastructure sector continues to witness unprecedented investments in transmission networks, rural electrification, renewable energy integration, industrial expansion, and distribution strengthening programs, both companies believe that this strategic collaboration will create meaningful synergies and unlock new opportunities for growth.

Strengthening Jainik's Position in the Industry

The partnership is expected to enhance Jainik Power Cables Limited's visibility and reach across key markets while further strengthening its position as a trusted manufacturer of aluminium conductors and power cable solutions.

The association aligns with Jainik's broader vision of building long-term relationships with industry leaders, expanding its customer base, and participating in large-scale infrastructure and power development projects across the country.

Management Commentary

Speaking on the occasion, Mr. Shashank Jain, Director, Jainik Power Cables Limited, stated:

"We are extremely pleased to enter into this strategic association with Sagar Industries. Their established market presence, technical expertise, and strong order pipeline make them an ideal long-term business partner. This collaboration is a testament to the confidence that reputed industry participants have in Jainik's manufacturing standards, quality systems, and execution capabilities.

As India continues to invest heavily in power infrastructure and energy development, we believe this partnership will create substantial opportunities for both organizations. We look forward to supporting Sagar Industries with high-quality aluminium conductors and cable solutions while building a mutually beneficial relationship for many years to come."

Looking Ahead

Jainik Power Cables Limited remains committed to expanding its footprint in the Indian power sector through continuous capacity enhancement, technological advancement, quality assurance, and strategic partnerships.

The Company believes that collaborations of this nature will play a pivotal role in accelerating business growth, increasing market penetration, enhancing customer confidence, and creating long-term value for shareholders, customers, employees, and all other stakeholders.
