

PRESS RELEASE

JAINIK POWER CABLES LIMITED ACHIEVES APPROVED VENDOR STATUS WITH APSPDCL FOR ALUMINIUM CONDUCTORS AND CABLES

Sonipat, Haryana – June 2026

Jainik Power Cables Limited is pleased to announce another significant milestone in its growth journey. The Company has been officially registered as an Approved Vendor with Southern Power Distribution Company of Andhra Pradesh Limited (APSPDCL), one of India's leading state power distribution utilities.

This prestigious approval authorizes Jainik Power Cables Limited to participate in APSPDCL procurement programs and supply a wide range of critical power distribution products, including:

- * **IS 398 Part-II Aluminium Conductors (ACSR Conductors)**
- * **IS 398 Part-IV Aluminium Alloy Conductors (AAAC Conductors)**
- * **IS 14255 Aerial Bunched Cables (ABC Cables)**

The approval follows a comprehensive technical evaluation, manufacturing capability assessment, quality verification process, and successful vendor registration review conducted by APSPDCL.

This recognition reflects Jainik's commitment to maintaining the highest standards of manufacturing excellence, quality assurance, product reliability, and regulatory compliance. The approval further strengthens the Company's position as a trusted supplier to power utilities and infrastructure projects across India.

Commenting on the achievement, Mr. Prateek Jain, Director, Jainik Power Cables Limited, said:

“We are delighted to receive approved vendor status from APSPDCL. This approval is a testament to our manufacturing capabilities, quality systems, and dedication to serving the power sector with reliable and efficient solutions. As India's power infrastructure continues to expand, we remain committed to supporting utilities and EPC companies with world-class aluminium conductors and cable products.”

The approval significantly expands Jainik's presence in the southern Indian power market and creates new opportunities to participate in utility projects, rural electrification initiatives, transmission and distribution infrastructure development, and network modernization programs.

With a rapidly expanding product portfolio, BIS-certified manufacturing facilities, and growing relationships with utilities, EPC contractors, and industrial customers, Jainik Power Cables Limited continues to strengthen its position as one of India's emerging manufacturers of aluminium conductors and power cables.

About Jainik Power Cables Limited
